Isolated Shallow Marine Sand Bodies Katherine M. Bergman, John W. Snedden, 1999 Isolated shallow marine sand bodies are significant hydrocarbon reservoirs and understanding sand body genesis and geometry is critical to successful exploration and exploitation of these deposits Advances in sequence stratigraphy have rekindled and refocused the discussions surrounding these important reservoirs This volume stems from a research conference that brought together the proponents of the differing interpretation to discuss facts and principles as they relate to isolated shallow marine sand bodies using the controversial Lower Campanian Shannon Sandstone as the focus for discussion **Tales from an Uncertain World** L. S. Gardiner, 2018-03-15 So far humanity hasn't done very well in addressing the ongoing climate catastrophe Veteran science educator L S Gardiner believes we can learn to do better by understanding how we've dealt with other types of environmental risks in the past and why we are dragging our feet in addressing this most urgent emergency Weaving scientific facts and research together with humor and emotion Gardiner explores human responses to erosion earthquakes fires invasive species marine degradation volcanic eruptions and floods in order to illuminate why we find it so challenging to deal with climate change Insight emerges from unexpected places a mermaid exhibit a Magic 8 Ball and midcentury cartoons about a future that never came to be Instead of focusing on the economics and geopolitics of the debate over climate change this book brings large scale disaster to a human scale emphasizing the role of the individual We humans do have the capacity

to deal with disasters When we face threatening changes we don't just stand there pretending it isn't so we do something But because we're human our responses aren't always the right ones the first time yet we can learn to do better This book is essential reading for all who want to know how we can draw on our strengths to survive the climate catastrophe and forge a new relationship with nature **London Labour and the London Poor** Henry Mayhew, 2023-07-21 Reproduction of the original
