The Humanisation Of Socialism Writings Of The Budapest School

Marcel Van Der Linden

The Humanisation Of Socialism Writings Of The Budapest School:

The Humanization of Socialism Andras Hegedus, Agnes Heller, Maria Markus, Mihaly Vajda, 1977-04 *The Humanisation of Socialism* András Hegedüs, 1976 **The Budapest School** J.F. Dorahy, 2019-01-21 The Budapest School Beyond Marxism represents the first systematic and comprehensive study of the post Marxist writings of the Budapest School to be published in English The School itself has long been known in English speaking circles for its neo Marxist critique of the now defunct Soviet system The Budapest School Beyond Marxism enriches this understanding by situating the confrontation with actually existing socialism as but one moment however formative within a much richer and much more theoretically relevant philosophical itinerary From the early critique of alienation through to the contemporary critical theories of modernity The Budapest School Beyond Marxism charts the evolution of the School's thinking with a specific emphasis on the themes of culture critique history and the contingency of modern subjectivity Critical Theories and the Budapest School John Rundell, Jonathan Pickle, 2017-12-06 Critical Theories and the Budapest School brings together new perspectives on the Budapest School in the context of contemporary developments in critical theory Engaging with the work of the prominent group of figures associated with Georg Lukács this book sheds new light on the unique and nuanced critiques of modernity offered by this school informed as its members insights have been by first hand experiences of Nazism Soviet type societies and the liberal democratic West With studies of topics central to contemporary critical theory such as the political and historical consciousness of modernity the importance of bio politics the complexity of the human condition and the relevance of comedy and friendship to developing critical perspectives the authors draw on the works of Agnes Heller Maria Markus György Markus and Ferenc Fehér demonstrating their enduring relevance to critical theory today and the ways in which these philosophers can inform new perspectives on culture and politics An innovative reassessment of the Budapest School and the importance of its legacy this book opens a much needed and neglected dialogue with other schools and traditions of critical theorizing that will be of interest to scholars of sociology philosophy and social theory **Agnes Heller** John Grumley, 2004-12-20 Agnes Heller is one of the leading thinkers to come out of the tradition of critical theory Her awesome intellectual range and output includes ethics philosophical anthropology political philosophy and a theory of modernity and its culture Hungarian by birth she was one of the best known dissident Marxists in central Europe in the 1960s and 1970s Since her forced immigration she has held visiting lectureships all over the world and has been the Hannah Arendt Professor of Philosophy at the New School in New York for the last twenty years This introduction to her thought is ideal for all students of philosophy political theory and sociology Grumley explores Heller's early work elaborating her relation to Lukács and the evolution of her own version of Marxism He examines the subsequent break with Marxism and the initial development of an alternative radical philosophy Finally he explains and assesses her mature reflective post modernism a perspective that is both sceptical and utopian that upholds a critical humanist perspective just as it critiques contemporary

democratic culture Agnes Heller and the Budapest School Joan Nordquist,2000 Each bibliography includes a comprehensive list of the theorist s works and critical studies of these works in English Each bibliography contains approximately 600 to 900 entries Books journal articles essays within edited books in the manner of Essay and General Literature and dissertations are included References are provided from a wide variety of disciplines and bibliographic sources The primary purpose of each bibliography is to provide access to the widely reprinted primary works in English and the critical literature in a great variety of books and journals The topical bibliographies include the authoritative works on the subject and are arranged in useful categories The lively part of the modern post modern debate is generally taking place in alternative and left journals journals always included in the literature search in the compiling of the bibliographies

Agnes Heller Simon Tormey,2001 This thorough examination of Agnes Heller s political thought covers a range of subjects from Marxian anthropology through aesthetics the philosophy of history ethical socialism postmodernism and the political forms of the modern state Simon Tormey treats Heller s work historically and thematically placing it in a postmodern 21st century context Volume 3: Philosophy of Action Guttorm Fløistad,1983-01-31 Half title International Institute of Philosophy Institut international de philosophie **Utopianism and Marxism** Vincent Geoghegan,2008 The grounding assumption of this book is that an element of utopianism is a necessity in any political thinking and that a self conscious utopianism can generate a richer level of theory and practice The text then follows the chequered career of utopianism in the Marxist tradition *Developed Socialism In The Soviet Bloc* Jim Seroka,2019-03-04 This book traces the evolution of Soviet and East European responses to the multifaceted pressures of a rapidly changing world and looks at the implications of ideological developments in the Soviet bloc for economic reforms general policymaking and political and social change The authors discuss the concept of developed socialism and its essential components as seen in communist societies analyze current policy and likely future policy directions in the Soviet Union Czechoslovakia Hungary Romania Poland and Yugoslavia in light of the concept and assess the impact that ideological trends have had and are likely to have on the Soviet Union and Eastern Europe in general *Philosophie de L'action* Guttorm Fløistad,1986 This publication is a continuation of two earlier series of chronicles Philosophy in the Mid Century Firenze 1958 59 and Contemporary Philosophy Firenze 1968 edited by Raymond Kli banksy Like the other series these chronicles provide a survey of important trends in contemporary philosophical discussion from 1966 to 1978 The need for such surveys has I believe increased rather than decreased over the last years The philosophical scene appears for various reasons more complex than ever before The continuing process of specialization in most branches the emergence of new schools of thought particularly in philosophical logic and the philosophy of language the convergence of interest though not necessarily of opinion of different traditions upon certain problems and the increasing attention being paid to the history of philosophy in discussions of contemporary problems are the most important contributory factors Surveys of the present kind are a valuable source of knowledge of this complexity and

may as such be an assistance in renewing the understanding of one's own philosophical problems. The surveys it is to be hoped may also help to strengthen the Socratic element of modern philosophy: the dialogue or *Kommunikationsgemeinschaft*. So far four volumes have been prepared for the new series. The present chronicles in *Philosophy of Action* Vol 3 follow upon chronicles in the *Philosophy of Language* and *Philosophical Logic* V 01 1 and chronicles in the *Philosophy of Science* Vol

Women and State Socialism Alena Heitlinger, 1979-06-17 Western Marxism and the Soviet Union Marcel Van Der Linden, 2007. If the Soviet Union did not have a socialist society then how should its nature be understood? The present book presents the first comprehensive appraisal of the debates on this problem which was so central to twentieth century Marxism.

Critique in a Neoliberal Age Pauline Johnson, 2019-12-06. *Critique in a Neoliberal Age* brings a critique of ideology to main debates within economic sociology. Populism studies the neoliberal university, therapy culture, contemporary intimacies and feminism. Over the last decades neoliberalism has worked to lift social protections and political regulations from the market and to identify modernity with capitalism itself. It has also engaged in an ideological project to screen alternative measurements of progress. Liberal and social democracy have been effectively disabled as grounds for weighing the costs of neoliberal predations. This volume examines the strategies through which neoliberalism has reconstituted and depoliticized liberal precepts such as universal justice, private right and a social democratic project responsive to needs. As such it will appeal to scholars and students of sociology and social and critical theory, political and social philosophy, politics, cultural studies and feminist thought. **Towards a Radical Democracy (Routledge Revivals)** Douglas Brown, 2013-12-19.

Originally published in 1988, this is the first systematic account of the writings of Hungarian dissidents and former students of George Lukacs collectively known as the Budapest School. Dr Brown demonstrates the importance of their work in contributing to a logically consistent yet realistic theory of socialist mixed economies and genuine radical democracies. The Budapest School's model of radical democracy represents a critique of both industrial capitalism and existing socialist systems with immediate political as well as philosophical importance. Dr Brown is particularly concerned to draw out its significance for the practical realities of political economy and the logical implications for desirable reform of Western mixed economies. **Basket Three, Implementation of the Helsinki Accords** United States. Congress. Commission on Security and Cooperation in Europe, 1977.

The Routledge Dictionary of Twentieth-Century Political Thinkers Robert Benewick, 2002-09-11. This edition has been revised and extended to include eleven new entries on Berlin, Chomsky, Derrida, Rorty and many others. Key features of this unique guide include 170 entries from 96 contributors, many of whom are leading authorities in their field; alphabetically arranged entries which include brief biographies, outlines of major ideas and suggestions for further reading; coverage of Western and Third World political theorists as well as those who have influenced new movements based on the issues of ethnicity, gender and ecology; a thematically organised index. **Bioethics and Secular Humanism** H. Tristram Engelhardt, 2011-04-01. Bioethics is vitally important in our day because it represents the

critical expression of interest in the proper use of medical science to provide health care Secular humanism is important because it is a central factor in constructing a common morality that does not make special appeal to such things as religious assumptions The argument of this book therefore will be of profound interest to all who are concerned for the well being of humanity in today s world Imagine the author says Roman Catholics and committed atheists disputing over proper abortion policies Imagine individuals who wish to organize a for profit surrogate mother service confronting individuals who view such endeavors as exploitation of women To what moral premise do they appeal Are power and influence the deciding factors or is it possible to establish certain principles to which all may appeal In answer Professor Engelhardt examines the various meanings of secularity and humanism clearly showing how complex they are Alongside this he demonstrates the diversity of bioethics and the problems of laying a foundation for it Based on these considerations he identifies which ways forward are the most promising The urgency of the task is clear New biomedical possibilities are surfacing at the very time that demands to contain health care costs pose difficult ethical problems

Gender, Equality and Difference During And After State Socialism R. Kay,2015-12-17 Gender Equality and Difference During and After State Socialism examines gender as a socially and culturally constructed phenomenon which is influential in and influenced by state led policies and structures as well as social practices and relations and which shapes the experiences and lives of women and men

Freedom and Dissatisfaction in the Works of Agnes Heller Lucy Jane Ward,2016-12-27 Ward s book focuses on the work of the Hungarian philosopher Agnes Heller prominent member of the Budapest School a group of students who studied under the Marxist social theorist Gy rgy Luk cs For both Marx and Heller albeit in different ways dissatisfaction emerges as the inevitable result of the expansion of need s within modernity and as a catalyst for the development of anthropological wealth what Marx refers to as the human being rich in need Ward argues that dissatisfaction and the corresponding category of human wealth as both motif and method is central to grasping Heller s seemingly disparate writings While Marx postulates a radical overcoming of dissatisfaction Heller argues dissatisfaction is integral not only to the on going survival of modernity but also to the dynamics of both freedom and individual life In this way Heller s work remains committed to a position that both continually returns and departs is both with and against the philosophy of Marx This book will be of interest to scholars of political philosophy social theory critical theory and sociology
