and Testimony ,1995 Sba Small Business Investment Company Program Robert Jay Dilger,2013-01-05 The Small Business Administration's SBA's Small Business Investment Company SBIC Program is designed to enhance small business access to venture capital by stimulating and supplementing the flow of private equity capital and long term loan funds which small business concerns need for the sound financing of their business operations and for their growth expansion and modernization and which are not available in adequate supply Facilitating the flow of capital to small businesses to stimulate the national economy was and remains the SBIC program's primary objective At the end of FY2012 there were 301 privately owned and managed SBICs licensed by the SBA providing financing to small businesses with private capital the SBIC has raised regulatory capital and funds the SBIC borrows at favorable rates leverage because the SBA guarantees the debenture loan obligation SBICs pursue investments in a broad range of industries geographic areas and stages of investment Some SBICs specialize in a particular field or industry while others invest more generally Most SBICs concentrate on a particular stage of investment i e startup expansion or turnaround and geographic area The SBA is authorized to provide up to 3 billion in leverage to SBICs annually The SBIC program has invested or committed about 18.2 billion in small businesses with the SBA's share of capital at risk about 8.8 billion In FY2012 the SBA committed to guarantee 1.9 billion in SBIC small business investments and SBICs provided another 1.3 billion in investments from private capital for a total of more than 3.2 billion in financing for 1,094 small businesses Some Members of Congress the Obama Administration and small business advocates argue that the program should be expanded as a means to stimulate economic activity create jobs and assist in the national economic recovery Others worry that an expanded SBIC program could result in losses and increase the federal deficit In their view the best means to assist small business promote economic growth and create jobs is to reduce business taxes and exercise federal fiscal restraint Some Members have also proposed that the program target additional assistance to startup and early stage small businesses which are generally viewed as relatively risky investments but also as having a relatively high potential for job creation In an effort to target additional assistance to newer businesses the SBA has established as part of the Obama Administration's Startup America Initiative a 1 billion early stage debenture SBIC initiative up to 150 million in leverage in FY2012 and up to 200 million in leverage per fiscal year thereafter until the limit is reached Early stage debenture SBICs are required to invest at least 50% of their investments in early stage small businesses defined as small businesses that have never achieved positive cash flow from operations in any fiscal year This publication describes the SBIC program's structure and operations including two recent SBA initiatives one targeting early stage small businesses and one targeting underserved markets It also examines several legislative proposals to increase the leverage available to SBICs and to increase the SBIC program's authorization amount to 4 billion Reports and Testimony ,1995-05 *Federal Register* ,2013-12 **United States Government Organization Manual** ,2006 **The United States Government Manual** United States.
