An Atlas of the World's Conifers Aljos Farjon, Denis Filer, 2013-11-11 A 2014 Choice Magazine Outstanding Academic Title An Atlas of the World s Conifers is the first ever atlas of all known conifer species It is based on locality information of ca 37 000 collected herbarium specimens held in scientific institutions As well as providing natural distribution maps for each species Farjon and Filer give the reader comprehensive insight into the biogeography diversity

and conservation status of conifers on all continents dispelling the widely held view that they are primarily a northern boreal plant group. These data can also be used for further research and are an invaluable resource for anyone working on conifer systematics, biogeography or conservation. An Atlas of the World's Conifers indicates the known distribution of all conifers including an analysis of their biogeography, diversity and conservation status. **Japan and the Pacific, 1540-1920** Matsuda Koichiro, 2017-05-15. This volume seeks to capture the rich array of images that define Japan's encounters with the Pacific Ocean. Contemporary Japanese most readily associate the Pacific with the devastating war that their country fought over a half century ago. The ensuing occupation realized a situation that this people had striven to avoid ever since the Portuguese first arrived in 1543: their subjugation by a foreign power. But the Pacific Ocean also extended Japan's overseas contacts. From antiquity, Japanese and their neighbours crossed it to trade ideas and products. From the mid 16th century it carried people from more distant lands, Europe and America, and thus expanded and diversified Japan's cultural and economic exchange networks. From the late 19th century it provided the highway to transport Japanese imperial expansion in Northeast Asia and later to encourage overseas migration into the Pacific and the Americas. The studies selected for inclusion in this volume, along with the introduction, explain how the Pacific Ocean thus nurtured images of both threat and opportunity to the island nation that it surrounds.
