Playing with Fire (Wisdom for Women Who Smoke) Betty Bryenton,2004 Playing With Fire is a unique book that explores current issues surrounding the epidemic of smoking among women This is an extremely important topic today because for the first time in our history young women are more likely than men to become smokers Cancer of the lung is now one of the major causes of cancer deaths among women and women now account for more than half the new cases of lung cancer each year The future looks bleak for it is predicted by the World Health Organization that deaths from lung cancer among women will double over the next twenty years This is in addition to the loss optimum health due to smoking Playing With Fire helps to explain the reasons for the current pattern of smoking among women It is the hypothesis of this book that while the lives of women have changed dramatically over the past quarter century the advances that women have made economically and socially have not made our world so much a better place as a more stressful one New roles and responsibilities are layered on top of the older more traditional ones and consequently women are suffering the effects of burnout as never before Cigarette smoking is an effective way of self medicating to alleviate the pain and stress of our daily lives Playing With Fire is unique in that it takes a compassionate view of women who smoke and challenges them to explore deeper issues in their lives something vitally important in long term smoking cessation The book validates women s experiences and provides them with a context for why they feel the way they do which gives meaning to why they smoke While supporting women in their personal choices to smoke or not to smoke it encourages them to seriously consider the risks involved and to consider ways of improving their situation and self care practices The beauty of Playing With Fire is that it does not preach or scold but rather takes readers on a journey of self discovery that will help women to understand their lives and motives for smoking as well as the possibility of personal change and power It is a book that explores the creation of a better world through the individual s acceptance of and love for the self and the adoption of healthy self care practices

Can't Buy My Love Jean Kilbourne,2012-06-26 When was the last time you felt this comfortable in a relationship An ad for

sneakers You can love it without getting your heart broken An ad for a car Until I find a real man I ll settle for a real smoke A woman in a cigarette ad Many advertisements these days make us feel as if we have an intimate even passionate relationship with a product But as Jean Kilbourne points out in this fascinating and shocking expos the dreamlike promise of advertising always leaves us hungry for more We can never be satisfied because the products we love cannot love us back Drawing upon her knowledge of psychology media and women s issues Kilbourne offers nothing less than a new understanding of a ubiquitous phenomenon in our culture The average American is exposed to over 3 000 advertisements a day and watches three years worth of television ads over the course of a lifetime Kilbourne paints a gripping portrait of how this barrage of advertising drastically affects young people especially girls by offering false promises of rebellion connection and control She also offers a surprising analysis of the way advertising creates and then feeds an addictive mentality that often continues throughout adulthood

What's Wrong With Addiction Helen Keane,2013-04-01 This is an impressive work carefully structured researched and written a refreshingly lucid account that is both intellectually stimulating and professionally helpful Janet McCalman Addicts are generally regarded with either pity or grave disapproval But is being addicted to something necessarily bad These attitudes are explicit both in contemporary medical literature and in popular self help texts We categorise addiction as unnatural diseased and self destructive We demonise pleasure and desire and view the addict as physically and morally damaged Helen Keane s thought provoking text examines these assumptions in a new light In asserting that the wrongness of addiction is not fixed or indeed obvious she presents a refreshing challenge to more conventional accounts of addiction She also investigates the notion that people can be addicted to eating love and sex just as they are to drugs and alcohol What s Wrong with Addiction shows that most of our ideas about addiction take certain ideals of health and normality for granted It exposes strains in our society s oppositions between health and disease between the natural and the artificial between order and disorder and between self and other

hallucinogen in Native American shamanistic ritual to its use as a prophylactic against the plague and a cure for cancer by early Europeans and finally to the current view of smoking as a global pandemic He then analyzes tobacco from the perspective of the individual user exploring how its consumption relates to issues of identity and life changes Comparing sociocultural and personal experiences Hughes ultimately asks what the patterns of tobacco use mean for the clinical treatment of smokers and for public policy on smoking Pointing the way then to a more learned and sophisticated understanding of tobacco use this study will prove to be essential reading for anyone interested in the history of smoking and the sociology of addiction
