Tourism Policy and Planning in Bangladesh Muhammad Shoeb-Ur- Rahman,Azizul Hassan,2020-11-17 This book accounts that Bangladesh is a potential destination in South Asia exhibiting a steady growth in its economy along with socio cultural developments With a population of over 170 million the country possesses significant possibilities in domestic tourism This book explicates that increasing number of upper social classes along with their affordability to spend on tourism and leisure activities has recalled attention for the development of this emerging industry This book comprehensively examines the overall tourism and hospitality contexts in Bangladesh under the lens of current policy and administrative frameworks In so doing the contribution of tourism and hospitality industry has been highlighted in the economy of Bangladesh as a means to creating employment opportunities Further the book addresses that contributions remain uneven and distributed improperly and to date the tourism industry has not been offered the desired attention in supporting examples in this regard Nonetheless tourism and hospitality education and research have been intensifying in recent years across numerous higher academic institutions e g public and private universities in Bangladesh This book explores critically the requirement of supportive roles of key tourism and hospitality stakeholders both from public and private domains Ultimately the book signifies collaborative and continuous efforts are imperative that partake both the practitioners and the academia in the development and execution of inclusive and functional tourism policy and planning in Bangladesh *Thematic Encyclopedia of Regional Science* Peter Nijkamp,Karima Kourtit,Kingsley E. Haynes,Zeynep Elburz,2025-08-11 This thematic Encyclopedia explores the multifaceted world of regional science presenting a systematic and coherent overview of its central topics It highlights the interdisciplinary nature of the field examining the wide range of concepts theories methods and models that

shape spatial oriented approaches to the social sciences Education Under Occupation Pierre W. Orelus, 2007-01-01 In this book the author critically analyzes the ongoing and wide ranging effects of colonialism and globalization on the poor especially on those living in the Third World The author's overarching argument is that colonization was not merely about the conquest of foreign lands but it was also about the ideological monitoring of the colonized's mind often maintained through western hegemonic texts and institutional apparatus such as schools and churches Analyzing and situating colonialism in the context of western neo liberal policy of occupation and economic political and ideological dominations the author thus demonstrates how through schools and the mass corporate media neocolonized and occupied subjects have been mis educated to internalize and reproduce old western values beliefs and norms at the expense of their own Publisher *Civil Society in the Global South* Palash Kamruzzaman, 2018-12-07 In recent years civil society has been seen as a key route for democracy promotion and solving development problems in low income countries However the very concept of civil society is deeply rooted in European traditions and values In pursuing civil society reform in non Western countries many scholars along with well meaning international agencies and donor organisations fail to account for non Western values and historical experiences *Civil Society in the Global South* seeks to redress this balance by offering diverse accounts of civil society from the global South authored by scholars and researchers who are reflecting on their observations of civil society in their own countries The countries studied in the volume range from across Africa Latin America Asia and the Middle East to give a rich account of how countries from the global south conceptualise and construct civil society The book demonstrates how local conditions are often unsuited to the ideal type of civil society as delineated in Western values for instance in cases where numerous political racial and ethnic sub groups are fighting for autonomy By disentangling local contexts of countries from across the global South this book demonstrates that it is important to view civil society through the lens of local conditions rather than viewing it as something that needs to be discovered or manufactured in non Western societies *Civil Society in the Global South* will be particularly useful to high level students and scholars within development studies sociology anthropology social policy politics international relations and human geography
