Social Construction Of Democracy 1870 199:

The Social Construction of Democracy George Reid Andrews, Herrick Chapman, 1997-05 The recent revival of democracy across much of the globe and the fragility of many of the new regimes have inspired renewed interest in the origins of dictatorship and democracy in modern times This book assembles renowned specialists on Eastern and Western Europe the U S Latin America and Japan to explore why democracies have succeeded and why they have failed over the past 100 years *The Politics of the Right* Leo Panitch, Greg Albo, 2015-12-22 Today the Left faces new challenges from political forces amassing on the radical right The 52nd volume of the Socialist Register presents a serious calibration and a careful political mapping of these forces It addresses pivotal questions on the reordering of the new right These essays very broad in terms of themes and places speak to the global challenges the new right poses for the left at this historical moment What is the nature of the right s populism nationalism and militarism What is the social base and organizational strength and range of far right political forces To what extent are they influencing mainstream parties and opinion How have they penetrated state institutions What role do state security services and police forces play Does our political situation today require comparison with 1930s Fascism How should the left respond to defend democratic and human rights Who Ran the Cities? Robert Beachy, Ralf Roth, 2007 This volume furthers our understanding of who actually ran cities in the eighteenth nineteenth and twentieth centuries and develops greater understanding of the relationship between elite and power in cities To develop answers two fields of research which have often remained separate have been brought together the economic social and cultural history of elite and the political history of power resources and decision making By looking at specific case studies through the lens of these issues the volume will encourage the reader to challenge common perceptions of a monolithic elite and to replace them with a more sophisticated view of urban power as an interplay between various economic social political and cultural elite groups France's Long Reconstruction Herrick Chapman, 2018-01-08 Postwar recovery required a transformation of France but what form it should take remained a question Herrick Chapman charts the course of France s reconstruction from 1944 to 1962 offering insights into the ways the expansion of state power produced fierce controversies at home and unintended consequences abroad in France s crumbling empire *Nationalism, Labour and Ethnicity 1870-1939* Angel Smith, Stefan Berger, 1999 This text looks at the inter relationships between labour nationalist movements and ethnicity during the Age of Imperialism Two of the most debated contemporary issues focus on the decline of labour particularly socialist ideologies and the rise of nationalism It is sometimes assumed that the demise of one led to the triumph of the other It is also thought that labour as an internationalist movement underestimated and misunderstood the power of nationalism This text links these historical phenomena and sets the debate in more accurate historical context **CLASicos**, 1990 *Non-governmental Development Organizations (NGDOS) and Democracy in Thailand* Alex Hang-Keung Choi, 2001 Democracias precarias Bejarano, Ana María, 2011-02-18 Este libro ofrece un análisis histórico institucional comparado En

lugar de concentrarse en factores estructurales tales como el impacto de sus economías basadas en el café y el petróleo el libro resalta el papel de las instituciones políticas el Estado y los partidos a la vez que reconoce que estas pueden ser transformadas durante ciertas coyunturas críticas por actores políticos trenzados en las luchas por redefinir el arreglo institucional
