Hall, 1989 **Colonialism in Question** Frederick Cooper, 2005-06-06 Probably the most important historian of Africa currently writing in the English language His intellectual reach and ambition have even taken influence far beyond African studies as such and he has become one of the major voices contributing to debates over empire colonialism and their aftermaths This book is a call to reinvigorate the critical way in which history can be written Cooper takes on many of the standard beliefs passing as postcolonial theory and breathes fresh air onto them Michael Watts Director of the Institute of International Studies Berkeley This is a very much needed book on Africa on intellectual artisanship and on engagement in emancipatory projects Drawing on his enormous erudition in colonial history Cooper brings together an intellectual and a moral political argument against a series of linked developments that privilege taking a stance and in favor of studying processes of struggle through engaged scholarship Jane I Guyer author of *Marginal Gains* *Empire, Colony, Genocide* A. Other Essays Mario Barrera, 2025-09-24 In *Race and Class in the Southwest and Other Essays* Mario Barrera puts forth his seminal theory of racial inequality based on a synthesis of class and colonial analysis together with several essays and selections from Barrera's memoir that show how his thinking developed throughout his work. Reprinted here for the first time after becoming a modern classic of Chicano studies, *Race and Class in the Southwest* focuses on the economic foundations of inequality as they have affected Chicanos in the Southwest from the Mexican American War to the present. Barrera reviews the economic history of Chicanos, their relegation to a subordinate position in the labor force segmented along racial lines, their displacement from the land, the effects of waves of immigration from Mexico, the role of an emerging Chicano middle class, and state policies designed to reproduce the subordinate status of Chicanos. He reviews competing theories of racial inequality and concludes that an internal colonialism model that focuses on the institutional subordination of Chicanos offers the greatest explanatory value for understanding the political economy of Chicanos in the Southwest. The editors, Rodolfo D. Torres and William I. Robinson, provide both an important historical and contextual introduction to the work as well as thorough annotation that brings the scholarship into contemporary conversation with further theoretical development and highlights Barrera's significant contribution to recent and new debates that reflect his legacy at a time of rising social inequalities, political conflict, and mass migration into the United States from Latin America. **Decolonization and the**

French of Algeria Sung-Eun Choi, 2016-01-26 In 1962 almost one million people were evacuated from Algeria. France called these citizens *Repatriates* to hide their French Algerian origins and to integrate them into society. This book is about Repatriation and how it became central to France's postcolonial understanding of decolonization, the Algerian past, and French identity. *Handbook of the Sociology of Racial and Ethnic Relations* Hernan Vera, Joe R. Feagin, 2007-08-03

The study of racial and ethnic relations has become one of the most studied aspects in sociology and sociological research. In both North America and Europe many traditional cultures are feeling threatened by immigrants from Latin America, Africa, and Asia. Sociology is at the hub of the human sciences concerned with racial and ethnic relations. Since this discipline is made of multiple paradigms and methodological orientations, it has been able to make relevant contributions to disciplines ranging from individual psychology, social psychology, and psychiatry to economics, anthropology, linguistics, cultural studies, health care, delivery, and education.
