and nearly all the professional experts excuse bullying and in fact laud sociopathic behavior in general As Jeffries demonstrates this curious phenomenon is due to the power and influence of the social hierarchy and it revolves to a great extent around the enduring popularity of sports Jeffries talked to parents who'd battled a system that logically should have been working for them some of whom lost a child to bullycide the term for children who kill themselves over bullying His investigation into what has become one of the most talked about issues in America is as explosive and controversial as anything he has written
