Small Property Versus Big Government Clarence Y. H. Lo, 1995-01-01 Tax reformers take note Clarence Lo's investigation of California's Proposition 13 and other tax reduction bills is both a tribute and a warning to people who get mad as hell and try to do something about being pushed around by government Homeowners in California faced with impossible property tax bills in the 1970s got mad and pushed back starting an avalanche that swept tax limitation measures into state after state What we learn is that although the property tax was slashed two thirds of the benefits went to business owners rather than homeowners How did a crusade launched by homeowners seeking tax relief end up as a pro business supply side political program To trace the transformation Lo uses the firsthand recollections of 120 activists in the movement going back to the 1950s He shows how their protests were ignored until a suburban alliance of upper middle class property owners and business owners took charge It was the program of that latter group not the plight of the moderate income homeowner which inspired tax revolts across the nation and shaped the economic policies of the Reagan administration Tax reformers take note Clarence Lo's investigation of California's Proposition 13 and other tax reduction bills is both a tribute and a warning to people who get mad as hell and try to do something about being pushed around by government Homeowners in California faced with impossible property tax bills in the 1970s got mad and pushed back starting an avalanche that swept tax limitation measures into state after state What we learn is that although the property tax was slashed two thirds of the benefits went to business owners rather than homeowners How did a crusade launched by homeowners seeking tax relief end up as a pro business supply side political program To trace the transformation Lo uses the firsthand recollections of 120 activists in the movement going back to the 1950s He shows how their protests were ignored until a suburban alliance of upper middle class property owners and business owners took charge It was the program of that latter group not the plight of the moderate income homeowner which inspired tax revolts across the nation and shaped the economic policies of the Reagan administration

Self-Policing in Politics Glenn R. Parker, 2021-02-09 Contrary to what news reports might suggest the majority of politicians behave ethically and are never subject to investigations Is this because of the elaborate system of rules Congress has constructed to regulate the conduct of its members as well as the fear of electoral reprisal Drawing on economic literature on the behavior of firms Glenn Parker answers no He argues that members of

Congress behave ethnically not because of the fear of punishment but because of their concern for their reputations He draws parallels between politicians and businesses since both stand to suffer significantly when accused of wrongdoing Just as business poor behavior can cause brand names to be tarnished prices to plummet and future business to disappear dishonest politicians stand to sacrifice the human capital invested in their careers and premiums for honesty such as electoral security and prestigious post elective employment Parker explores public attitudes toward the behavior of members of Congress and shows how those attitudes shape the way members conduct their professional lives Written from the perspective of public choice this book offers a novel approach to the question of how to keep politicians honest
