Taxing Times A Guide To Australia's Tax Debate:

Taxing Times John Quiggin, 1998 Taxation is perhaps the longest running subject for debate in Australian politics In this book John Quiggin argues that a GST on its own will not restore the credibility of the tax system **The Politics of Income Taxation** Steffen Ganghof, 2024-10-31 Marginal income tax rates in advanced industrial countries have fallen dramatically since the mid 1980s but levels and progressivity of income taxation continue to differ strongly across countries This study offers a new perspective on both observations It blends theoretical inquiry with focused quantitative analysis and in depth investigation of seven countries Germany Australia and New Zealand as well as Denmark Finland Norway and Sweden The Politics of Income Taxation highlights the equity efficiency tradeoffs that structure the politics of income taxation and analyses how income taxes are embedded in broader tax systems It explains the limited but enduring importance of political parties and democratic institutions Finally the study paints a nuanced picture of the role of globalisation and thus sheds light on the pros and cons of tax coordination at European and international levels *Taxing Reforms* Richard Eccleston, 2007-01-01 Taxing Reforms is a good short book about the comparative policies of Value Added Taxation VAT in Australia Canada Japan and the United States Taxing Reforms is a fine book well worth reading especially for specialists in the comparative political economy of taxation its richly detailed case studies will make it a fruitful source of comparative hypotheses Isaac W Martin Journal of Economic Literature **The Unemployment Crisis in Australia** Stephen Bell, 2000-06-06 Since the 1970s the average level of unemployment in Australia has risen each decade This has imposed huge economic social and human costs making unemployment one of the most pressing problems confronting Australia Governments however seem powerless in the face of this problem Drawing on the expertise of some of Australia's leading economists this book first published in 2000 argues that the currently fashionable approaches of wage cuts and further steps towards labour market flexibility will not solve the unemployment problem In reality unemployment and rising inequality are symptoms of the growing failure of contemporary labour markets to distribute jobs and incomes effectively The contributors argue that the main solution to this problem is not wage cuts but jobs growth This important book points to a way beyond the current policy malaise and offers detailed solutions to unemployment Unsw Press Charlotte Jarabak, 2002 A complete listing of all 721 titles published since the inception of UNSW Press in 1962 **The Rise of the Value-Added Tax** Kathryn James, 2015-04-30 This book explores one of the most significant trends in the evolution of global tax systems by asking how within less than half a century the value added tax VAT has risen from relative obscurity to become one of the world's most dominant revenue instruments Despite its significance very little is known about why so many countries have adopted the VAT and in particular why different countries adopt the types of VAT that they do The popular mythology provides that the merits of the VAT have underpinned its global spread however this book contends that much scholarship confuses the question of why the VAT has risen to dominance with the issue of what makes a good VAT This book combines policy and

legal analysis to propose a new way of understanding the rise of this important revenue instrument so as to better reflect the realities of the VATs that are actually implemented *A Bill of Rights for Australia* George Williams, 2000 Using overseas examples and taking account of Australia's international treaty obligations George Williams sets out a novel plan for extending the legal protection for human rights in Australia **Scary Monsters and Bright Ideas** Robyn Williams, 2000 Australia's best known science broadcaster Robyn Williams takes readers on a whirlwind tour of the key scientific issues facing Australia at the beginning of the twenty first century fears about genetically modified foods the low level of science debate in the media and science's failure to attract young Australians *Australian Books in Print 1999* K G Saur Books, 1999-04 Excellent coverage essential to worldwide bibliographic coverage American Reference Books Annual This comprehensive reference provides current finding ordering information on more than 123 000 in print books published in Australia You'll also find brief profiles of more than 12 000 publishers distributors whose titles are represented as well as information on trade associations local agents of overseas publishers literary awards more From Thorpe Parliamentary Debates (Hansard). Australia. Parliament. House of Representatives, 2000 *Australia's Economic Revolution* John Edwards, 2000 Hong Kong and Shanghai Banking Corporation chief economist John Edwards former advisor to and biographer of Paul Keating argues that the Australian economy has entered a new high growth phase which is changing the way we think about growth employment and the role of government Australian Taxation Study Manual , **Economic Papers** , 2005 Die Körperschaftsteuer in Australien und Deutschland Frederik Born, 2017-06-27 Frederik Born vergleicht die Besteuerung von Kapitalgesellschaften in Australien und Deutschland wobei er das australische Körperschaftsteuerrecht aus deutscher Perspektive für Wissenschaft und Praxis aufbereitet Der Rechtsvergleich orientiert sich an Problemen mit denen sich Gesetzgeber weltweit auseinandersetzen müssen um ein geschlossenes Körperschaftsteuersystem zu erzeugen Dem jeweiligen Kapitel stellt der Autor international diskutierte Lösungssansätze voran bevor er das australische und deutsche Recht darstellt und in einer vergleichenden Betrachtung zusammenführt Challenging Gender Inequality in Tax Policy Making Kim Brooks, Åsa Gunnarson, Lisa Philipps, Maria Wersig, 2011-05-16 This volume takes a critical look at the gender of tax policy around the world Contributors based in eight different countries examine the profound effects that gender norms and practices have had in shaping tax law and policy and how taxation in turn impacts upon the possibilities for equality along gender race class sexuality and other lines Chapters explore how the gendered fiscal state might be theorised how structural choices about rates and bases in tax policy design contribute to gender inequality how tax policy affects family configurations and perceptions of what constitutes family how fiscal systems impact on savings and wealth accumulation by women and men and the role of different policy making processes and institutions in occluding and sometimes challenging these patterns Most significantly perhaps the book explores these questions in an international frame traversing countries and continents The conclusion fiscal policy has deep rooted long standing gender implications that affect virtually every

aspect of our social political and economic lives whether we live in Canada Australia or Kenya *The Ashgate Research Companion to Feminist Legal Theory* Vanessa E. Munro, 2016-04-01 As a distinct scholarly contribution to law feminist legal theory is now well over three decades old Those three decades have seen consolidation and renewal of its central concerns as well as remarkable growth dynamism and change This Companion celebrates the strength of feminist legal thought which is manifested in this dynamic combination of stability and change as well as in the diversity of perspectives and methodologies and the extensive range of subject matters which are now included within its ambit Bringing together contributors from across a range of jurisdictions and legal traditions the book provides a concise but critical review of existing theory in relation to the core issues or concepts that have animated and continue to animate feminism It provides an authoritative and scholarly review of contemporary feminist legal thought and seeks to contribute to the ongoing development of some of its new approaches perspectives and subject matters The Companion is divided into three parts dealing with Theory Concepts and Issues The first part addresses theoretical questions which are of significance to law but which also connect to feminist theory at the broadest and most interdisciplinary level The second part also draws on general feminist theory but with a more specific focus on debates about equality and difference race culture religion and sexuality The Issues section considers in detail more specific areas of substantive legal controversy Who's who in Australia ,2007 AQ ,1998 Deadlock Or Democracy? Brian J. Costar, 2000 *Who's who in Australia 2009* ,2007 A biographic reference to notable people in Australia Entrants are drawn from all areas of Australian life including the arts politics education medicine defence business diplomatic service and recipients of honours and awards
