Companion to Anarchism is a comprehensive reference work to support research in anarchism. The book considers the different approaches to anarchism as an ideology and explains the development of anarchist studies from the early twentieth century to the present day. It is unique in that it highlights the relationship between theory and practice, pays special attention to methodology, presents non-English works, key terms and concepts, and discusses new directions for the field. Focusing on the contemporary movement, the work outlines significant shifts in the study of anarchist ideas and explores recent debates. The Companion will appeal to scholars in this growing field, whether they are interested in the general study of anarchism or in more specific areas. Featuring the work of key scholars, *The Bloomsbury Companion to Anarchism* will be an essential tool for both the scholar and the activist.

Theories of Resistance Marcelo Lopes de Souza, Richard J. White, Simon Springer, 2016-06-17. Space is never a neutral stage on which social actors play their roles; sometimes cooperating with each other, sometimes struggling against each other. Space has multiple and complex functions in the development of social relations: it is a reference for identity building, a material condition for existence, and an instrument of power. This book explores the ways in which space has been used for resistance, especially in left libertarian contexts. From the early anarchist organizing efforts in the 19th century to the contemporary social movements of the Mexican Zapatistas, the chapters examine a range of cases to illustrate both the limits and potentialities of utilizing space within anarchist practice. By theorizing the production of anarchist spaces, the book aims to foster new geographical imaginations that energetically cultivate alternative practices to challenge the status quo. It shows that spatial reorganization, spatial practices, and spatial resources are also a basic condition for human emancipation, autonomy, and freedom.

Young People, Border Spaces and Revolutionary Imaginations Stuart Aitken, Fernando Bosco, Thomas Herman, Kate Swanson, 2013-12-16. Drawing from discussions that pulled together child researchers working near the borders of Mexico, the United States, and Canada, this book explores how material and metaphoric borders give way to young people's experimentations with cultural, social, and political change. The contributors highlight the capacities of children to revolutionize thought and practice through creative reimagining of the boundaries, borders, events, circumstances, and familial relations that affect their everyday lives. The first section, in different ways, highlights borders and movements through them as a bricolage of images, symbols, tensions, and joys. In the second section, the idea of a portable border is explored in three chapters that consider a migrant's lifecourse, citizenship, and political activism, respectively. The last section of the book brings together three chapters that uncover how youth resist, confront, and transform the borders that envelop their lives. By weaving narratives pertaining to young people's creative stories, transnational migrations, personal identities, pen pal programs, masculinities, intergenerational change, border crossings, political activism, and addictions, the contributors in toto raise the idea of young people taking bounded and embodied events, places, and institutions and moving them towards something emancipatory: *sin fronteras*, without borders. This book was published as a special issue of *Children's Geographies*.

American Gurus Arthur Versluis,2014-04-01 By the early twenty first century a phenomenon that once was inconceivable had become nearly commonplace in American society the public spiritual teacher who neither belongs to nor is authorized by a major religious tradition From the Oprah Winfrey endorsed Eckhart Tolle to figures like Gangaji and Adhyashanti there are now countless spiritual teachers who claim and teach variants of instant or immediate enlightenment American Gurus tells the story of how this phenomenon emerged Through an examination of the broader literary and religious context of the subject Arthur Versluis shows that a characteristic feature of the Western esoteric tradition is the claim that every person can achieve spontaneous direct unmediated spiritual insight This claim was articulated with special clarity by the New England Transcendentalists Bronson Alcott and Ralph Waldo Emerson Versluis explores Transcendentalism Walt Whitman the Beat movement Timothy Leary and the New Age movement

Beyond Emancipation Sean Gerrity, 2025-06-01 Explores how African American literary representations of maroons in the decade leading up to the Civil War complicate conventional narratives and geographies of slavery and freedom in the United States Beyond Emancipation revisits classic works of nineteenth century American literature especially by Black writers to uncover a hidden history of maroons enslaved people who ran away but remained hidden in the South Sean Gerrity argues that literary depictions of small acts of marronage reveal an expanded sense of what freedom might look like and where and when it might occur While taking care not to romanticize historical realities Gerrity vividly shows how works by Frederick Douglass Harriet Jacobs and Martin Delany gesture toward possibilities for Black freedom making beyond legal emancipation liberalism and the white abolitionist literary tradition passed down from Harriet Beecher Stowe While Beyond Emancipation focuses on texts produced during the brief period between the Fugitive Slave Act of 1850 and the Civil War the book s range of reference and implications are broad unsettling still dominant ideas and engaging pressing questions in literary criticism history geography and Black studies

Travels in Paradox Claudio Minca, Tim Oakes, 2006-03-30 This innovative volume focuses on tourism

through the twin lenses of cultural theory and cultural geography Presenting a set of innovative case studies on tourist destinations around the world the contributors explore the paradoxes of the tourist experience and the implications of these paradoxes for our broader understanding of the problems of modernity and identity The book examines how tourism reveals the paradoxical ways that places are both mobile and rooted real and fake inhabited by those who are simultaneously insiders and outsiders and both subjectively experienced and objectively viewed The concepts of travel and mobility long have been used to explain modern identity and social behavior but this work pushes beyond the established literature by considering the ways that place and mobility are inherently related in unexpected even contradictory ways Travel the international cast of authors contends occurs in place rather than between places Thus instead of offering yet another interpretation of the ways modern societies are distinguished by their mobilities in contrast to the supposed place bound quality of traditional societies the chapters here collectively argue for an understanding of modern identity as simultaneously grounded and mobile This rich blend of empirical and theoretical analysis will be invaluable for cultural geographers anthropologists and sociologists of tourism Movements in the City Vincenzo Ruggiero, 2014-09-19 For 2nd and 3rd year courses in urban

Trauma, Violence, and Lesbian Agency in Croatia and Serbia Bojan Bilić, 2020-02-13 This book uncovers some of the major moments in the fragile and still poorly known herstory of feminist lesbian engagement in Serbia and Croatia By treating the trauma of war homophobia and neoliberal capitalism as a verbally impenetrable experience that longs to be narrated this monograph explores the ways in which feminist lesbian language has repeatedly emerged in the context of strong patriarchal silencing that has surrounded the armed conflicts of the Yugoslav succession With an abundance of empirical material Bili illuminates a range of courageous but sometimes contested and controversial activist responses to the

challenges posed by the violent intersection of misogyny lesbophobia poverty and nationalism The book renders visible a surprising diversity of activist initiatives and the resilience of transnational affective ties which testify to the creativity of lesbian activist mobilisations in the ambivalent semi peripheral space that used to be Yugoslavia Trauma Violence and Lesbian Agency in Croatia and Serbia will be of interest to scholars and students researching the history and politics of Eastern Europe as well as to those working in the fields of political sociology lesbian and gay studies gender studies and queer theory and activism
