Lesser, 2019-05-14 An extensive history of the American

Museum of Natural History and Hayden Planetarium featuring a cast of colorful characters The American Museum of Natural History is one of New York City's most beloved institutions and one of the largest most celebrated museums in the world Since 1869 generations of New Yorkers and tourists of all ages have been educated and entertained here Located across from Central Park the sprawling structure spanning four city blocks is a fascinating conglomeration of many buildings of diverse architectural styles built over a period of 150 years The first book to tell the history of the museum from the point of view of these buildings including the planned Gilder Center The American Museum of Natural History and How It Got That Way contextualizes them within New York and American history and the history of science Part II The Heavens in the Attic is the first detailed history of the Hayden Planetarium from the museum's earliest astronomy exhibits to Clyde Fisher and the original planetarium to Neil deGrasse Tyson and the Rose Center for Earth and Space and it features a photographic tour through the original Hayden Planetarium Author Colin Davey spent much of his childhood literally and figuratively lost in the museum's labyrinthine hallways The museum grew in fits and starts according to the vicissitudes of backroom deals personal agendas two world wars the Great Depression and the Cold War Chronicling its evolution from the selection of a desolate rocky hilly swampy site known as Manhattan Square to the present day the book includes some of the most important and colorful characters in the city's history including the notoriously corrupt and powerful Boss Tweed Father of New York City Andrew Haswell Green and twentieth century powerbroker and master builder Robert Moses museum presidents Morris K Jesup Henry Fairfield Osborn and Ellen Futter and American presidents polar and African explorers dinosaur hunters and German rocket scientists Features a new preface by the author and a new foreword by Neil deGrasse Tyson This is in many ways a particularly American story and anyone interested in history or museums will find this a very satisfying read Author Colin Davey had a life long love affair with the museum growing up in New York and spending many many hours happily lost in the museum collections and that shines through in his writing as does his fine in depth research Plenty of excellent graphics and photographs support this fascinating history Seattle Book Review **Indian Blues** John W.

Troutman, 2013-06-14 From the late nineteenth century through the 1920s the U S government sought to control practices of music on reservations and in Indian boarding schools At the same time Native singers dancers and musicians created new opportunities through musical performance to resist and manipulate those same policy initiatives Why did the practice of music generate fear among government officials and opportunity for Native peoples In this innovative study John W Troutman explores the politics of music at the turn of the twentieth century in three spheres reservations off reservation boarding schools and public venues such as concert halls and Chautauqua circuits On their reservations the Lakotas manipulated concepts of U S citizenship and patriotism to reinvigorate and adapt social dances even while the federal government stepped up efforts to suppress them At Carlisle Indian School teachers and bandmasters taught music in hopes of imposing their civilization agenda but students made their own meaning of their music Finally many former students

armed with saxophones violins or operatic vocal training formed their own all Indian and tribal bands and quartets and traversed the country engaging the market economy and federal Indian policy initiatives on their own terms While recent scholarship has offered new insights into the experiences of show Indians and evolving powwow traditions Indian Blues is the first book to explore the polyphony of Native musical practices and their relationship to federal Indian policy in this important period of American Indian history **The Journal of Chickasaw History** ,2001 *A Field of Their Own* John M. Rhea,2016-04-18 One hundred and forty years before Gerda Lerner established women s history as a specialized field in 1972 a small group of women began to claim American Indian history as their own domain *A Field of Their Own* examines nine key figures in American Indian scholarship to reveal how women came to be identified with Indian history and why they eventually claimed it as their own field From Helen Hunt Jackson to Angie Debo the magnitude of their research the reach of their scholarship the popularity of their publications and their close identification with Indian scholarship makes their invisibility as pioneering founders of this specialized field all the more intriguing Reclaiming this lost history John M Rhea looks at the cultural processes through which women were connected to Indian history and traces the genesis of their interest to the nineteenth century push for women s rights In the early 1830s evangelical preachers and women s rights proponents linked American Indians to white women s religious and social interests Later pre professional women ethnologists would claim Indians as a special political cause Helen Hunt Jackson s 1881 publication *A Century of Dishonor* and Alice Fletcher s 1887 report *Indian Education and Civilization* foreshadowed the emerging history profession s objective methodology and established a document driven standard for later Indian histories By the twentieth century historians Emma Helen Blair Louise Phelps Kellogg and Annie Heloise Abel in a bid to boost their professional status established Indian history as a formal specialized field However enduring barriers continued to discourage American Indians from pursuing their own document driven histories Cultural and academic walls crumbled in 1919 when Cherokee scholar Rachel Caroline Eaton earned a Ph D in American history Eaton and later Indigenous historians Anna L Lewis and Muriel H Wright would each play a crucial role in shaping Angie Debo s 1940 indictment of European American settler colonialism And Still the Waters Run Rhea s wide ranging approach goes beyond existing compensatory histories to illuminate the national consequences of women s century long predominance over American Indian scholarship In the process his thoughtful study also chronicles Indigenous women s long and ultimately successful struggle to transform the way that historians portray American Indian peoples and their pasts **"That's What They Used to Say"** Donald L.
