Planet of the Apes Omnibus 1 Michael Angelo Avallone, Jerry Pournelle, 2017-02-28 When men

discovered that the Planet of the Apes was their own Earth it was only the beginning of the most incredible adventure of all time **BENEATH THE PLANET OF THE APES** By Michael Avallone Thousands of years from now in the buried ruins of what was once New York City dark religious ceremonies pay tribute to the Great Bomb bringer of life and death In Ape City the chimpanzees picket for peace while their gorilla leaders prepare for war Two ruthless factions are racing towards calamity as two men who somersaulted across time itself struggle for survival in a world that is no longer their own **ESCAPE FROM THE PLANET OF THE APES** By Jerry Pournelle The time indicator races back through the years from 3955 to 1973 The spacecraft holds three survivors of a devastating cataclysm Cornelius his mate Zira and Dr Milo The world of 1973 welcomes the apes at first pampering them for their unusual qualities But when the truth of the thinking speaking descendants that dominated Man and the Earth for centuries comes to light this hospitality turns to threat The Conscious Planet Neil M. Pine,2013-07 The writing of this book was both a spiritual and intellectual journey It took more than ten years to complete while having to be revised and updated constantly Th is is no holds barred literature where the author says what he means and means what he says He does not mintz his words Th e Conscious Planet thinks outside the box and breaks all the rules of traditional thinking Sometimes this information can be brutally honest or painfully real Th is author is not trying to win any popularity contest He tells it like it really is and doesn t care what anyone thinks Th e Conscious Planet is what the government and big corporations who control it don t want you to know It is the truth about the truth and nothing but the truth so help me In the modern world people only know what multinational corporations want them to know not what they should know and it is this tainted knowledge which is creating a society of pathetic drones who like poor doomed sheep are too busy just trying to survive to see that the wool is being pulled over their eyes while being led to slaughter Because these corporate imperatives are being paid for at the expense of the future of mankind Before you patronize any product be conscious about what it s doing to your health to the earth and how it will aff ect future generations Skeptics have warned the author that this book will receive nominal success that it represents a small niche market and not everyone would be interested in such literature and in retort to this assertion it should be acknowledged that yes it is sadly true that not everyone would be interested in this book because the information herein may not pertain directly to their life or general well being So in understanding who would be interested in this book let s narrow it down by eliminating the types of individual who would not directly benefi t x 1 People who are immortal Yes these people might not care about this book heck if you were immortal you might eat Twinkies and cheese burgers all day long 2 People who have another planet to live on Th is is true why would they care if the world goes to hell in a hand basket See Ya Well lucky them however for the other seven billion people who inhabit the planet earth who are not immortal and who don t have another planet to live on then this book is absolutely the most important book they may ever read Become a part of the Conscious Planet Cyber Planet Brett Herrmann,2016-09-15 After the mysterious disappearance of her parents eight year old Hadley Meadows was left behind in a building the world didnt know about

However this building had groundbreaking technology within that gave Hadley a chance to do almost anything Hadley would inherit the DimensionCast a revolutionary pod shaped supercomputer that puts her in a sleep like state then with the aid of her brain constructs a virtual world she can inhabit and manipulate at her own will This virtual reality called the Pseudoplex became her digital cosmos that housed all of the content she would go on to create Hadley spent so much time in the Pseudoplex that she no longer identified with the outside world Using her ever refining creative abilities she constructed a virtual body for herself to manifest She called it her avatar and used it to substitute her own identity within the Pseudoplex She named her avatar Animi leaving behind her birth name for the real world Hadley was an isolated daughter of missing parents but when she laid in her DimensionCast and entered the Pseudoplex as Animi she became a creator She built cities mountain ranges forests and towns in her Pseudoplex and eventually filled those places with artificial intelligence that resembled other people Animi called these people NPCs and their artificial intelligence became more advanced further immersing Animi into the world that she had built Years later Animi and her NPCs had put together an entire planet within the Pseudoplex that they could coexist on This virtual planet was named Swisaril and it would develop an economy politics laws cultures and celebrities Now Hadley is twenty six and she still feels like something is missing She could still sense the twinge of loneliness in her head even though she was the creator of an entire cyber planet She desired something new and exciting that was random an unknown variable to bring a new perspective to Swisaril With plenty of research she found a twenty four year old potential filled but talent squandered man by the name of Milo Hodge Hadley saw Milo's capacity to do great things but knew he would never reach that capability under his current circumstances So she used her resources to track Milo down and bring him into her digital world It didn't take long for Milo to hop into the Pseudoplex once Hadley introduced him to his very own DimensionCast Milo was assigned an avatar which he named Creo and just like Hadley took that as his identity as long as he was in the Pseudoplex Animi makes it clear that she wants Creo to become a creator just like her and use his potential to build off her already great creation As Creo grows alongside Animi he will learn about her past as the answers slowly trickle into view With this planet full of values civilizations and surprises there are many lessons that both Animi and Creo must learn together The Pseudoplex is where minds and machines merge where evolution is digital and where imagination becomes reality Step inside and synchronize
