## **Teacher Cases Qualitative View Of Tchrs:**

**Teacher Cases** Laurie Brady,1999      Case Studies of Teacher Development Barbara B. Levin,2003-01-30 This book represents the results of a 15 year longitudinal study based on in depth case studies of the development of four teachers pedagogical thinking These studies illustrate how teachers thinking about children s behavior development learning and teaching develops over time based on their personal and professional life experiences It is an especially significant book because understanding how pedagogical thought develops over time and how these ideas are put into action in classrooms can be used to improve teacher education teacher induction and teacher retention programs Case Studies of Teacher Development An In Depth Look At How Thinking About Pedagogy Develops Over Time provides insight into reasons why some teachers remain and others leave the teaching profession combines narrative with scholarship highlights the voices of four educators through extensive quotes from their interviewers includes vignettes of their classroom teaching and incorporates their own writing contributes to the field of teacher education and teacher development because of the long duration of the four case studies 1985 2000 and the accompanying scholarly analysis of internal and external influences on their lives as teachers and addresses changes in the nature of qualitative research as it influenced this longitudinal study over time At a time when teacher induction and teacher retention are critically important this book will help teacher educators school and district leaders and policymakers understand better how to retain novice and experienced teachers by supporting their professional growth and development      TEACHERS' PERCEPTION OF CLASSROOM TECHNOLOGICAL INTEGRATION A CASE STUDY ON THE USE OF TECHNOLOGY IN THE CLASSROOM Ayisha Jewel Benham,2025-03-24 This case study research CSR investigated public school teachers perceptions regarding the use of Information Communication and Technology ICT in their curriculum and classroom and examined the practices that supported students in achieving higher order thinking skills HOTS This research study questioned whether ICT curriculum tools and equipment encouraged innovative teaching and cultivated students creative thinking Chou et al 2019 This researcher also studied whether teachers hindered their students learning environments by failing to use ICT tools in their pedagogy Obillos Dela Rosa 2016 The research literature investigated whether teachers who use web based tools and technology integration in their curriculum were able to inspire and increase students engagement The methodology used in this CSR consisted of personal interviews and classroom observations This researcher further discussed why future research is needed to determine how to persuade teachers and their perceptions regarding implementing ICT in their classroom and curriculum and determine how to persuade teachers that ICT pedagogy fosters student learning and develops complex knowledge      *A Phenomenological Inquiry into Science Teachers' Case Method Learning* Sye Foong Yee,2018-10-04 This book illustrates a practical application of the Case Method as a teaching technique in teacher education and examines how learning takes place in a teacher professional development activity It also describes teachers lived experience of the activity based on Clark Moustakas 1994

guidelines for organizing and presenting a phenomenological study      **Cases of Teachers' Data Use** Nicole Barnes, Helenrose Fives, 2018-04-27 Cases of Teachers Data Use addresses applications of student data beyond theoretical school and district level examinations by presenting case studies of teachers data use in practice Within the context of data driven education reform policies the authors examine the effective and ineffective ways that teachers make use of student data in instruction evaluation and planning Promising practices based on the empirical research presented offer strategies and routines for sound data use that can be applied in schools Chapters written by scholars from diverse methodological perspectives offer readers multiple lenses to use in considering issues of data use such that current theoretical assumptions may be challenged and the field advanced This uniquely focused yet comprehensive work is an indispensable resource for researchers and students interested in classroom assessment and for professionals looking to support teachers use of student performance data for adaptive instruction      **Encyclopedia of Case Study Research** Albert J. Mills, Gabrielle Durepos, Elden Wiebe, 2010 This is the authoritative reference work in the field An interdisciplinary set it investigates the extensive history design and methods of case study research      Instructional-design Theories and Models Charles M. Reigeluth, 2013-05-13 Instructional theory describes a variety of methods of instruction different ways of facilitating human learning and development and when to use and not use each of those methods It is about how to help people learn better This volume provides a concise summary of a broad sampling of new methods of instruction currently under development helps show the interrelationships among these diverse theories and highlights current issues and trends in instructional design It is a sequel to Instructional Design Theories and Models An Overview of Their Current Status which provided a snapshot in time of the status of instructional theory in the early 1980s Dramatic changes in the nature of instructional theory have occurred since then partly in response to advances in knowledge about the human brain and learning theory partly due to shifts in educational philosophies and beliefs and partly in response to advances in information technologies These changes have made new methods of instruction not only possible but also necessary in order to take advantage of new instructional capabilities offered by the new technologies These changes are so dramatic that many argue they constitute a new paradigm of instruction which requires a new paradigm of instructional theory In short there is a clear need for this Volume II of Instructional Design Theories and Models To attain the broad sampling of methods and theories it presents and to make this book more useful for practitioners as well as graduate students interested in education and training this volume contains twice as many chapters but each half as long as the ones in Volume I and the descriptions are generally less technical Several unique features are provided by the editor to help readers understand and compare the theories in this book Chapter 1 which discusses the characteristics of instructional theory and the nature of the new paradigm of instruction helps the reader identify commonalities across the theories Chapter forewords which summarize the major elements of the instructional design theories are useful for reviewing and comparing theories as well as for previewing a theory to decide if it

is of interest and for developing a general schema that will make it easier to understand Editor s notes provide additional help in understanding and comparing the theories and the new paradigm of instruction to which they belong Units 2 and 4 have introductory chapters to help readers analyze and understand the theories in those units This is an essential book for anyone interested in exploring new approaches to fostering human learning and development and thinking creatively about ways to best meet the needs of learners in all kinds of learning contexts Readers are invited to use Dr Charles Reigeluth s Web site to comment and to view others comments about the instructional design theories in this book as well as other theories Point your browser to [www.indiana.edu/idtheory](http://www.indiana.edu/idtheory) *How to Improve Neuroscience Education for the Public and for a Multi-Professional Audience in Different Parts of the Globe* Analía Arévalo,Guilherme Lepski,Valeria Abusamra,2022-08-18

*Mentoring Teachers in Scotland* Sandra Eady,Jane Essex,Kay Livingston,Margaret McColl,2022-05-18 This book assists mentors in developing their mentoring skills offering guidance needed to support the development of beginning teachers in early years primary and secondary schools in the Scottish education system as well as supporting all teachers in their career long professional learning Based on research and evidence Mentoring Teachers in Scotland explores and discusses the knowledge skills and understanding that underpin mentoring that is responsive to individual mentees needs The book includes reflective activities to enable mentors to consider the application of mentoring processes in their own practice as well as case studies and other learning activities This book is a valuable source of support and inspiration for all those involved in mentoring and sustaining teachers professional development at all stages of their career Key topics explored include roles and responsibilities of mentors within the Scottish education system and the Scottish model of teaching and teacher development developing a mentor mentee relationship guiding beginning teachers in Scotland through the mentoring processes strategies for observation analysis and reflection on practice and mentoring for beginning teachers and career long professional learning Mentoring Teachers in Scotland offers an accessible and practical guide to mentoring teachers in Scotland that aims to support inspire and guide mentors and mentees *Novice Mathematics Teachers' Professional Learning* Xiaoli Lu,2022-05-04 This book investigates three novice high school mathematics teachers professional learning processes in the early stages of their careers at schools in Shanghai China Teacher professional learning is examined as a complex and dynamic system that connects both cognitive and situated perspectives on learning theory Inspiring mathematics teachers to adopt student focused pedagogies is challenging particularly in China where tensions in teacher centred content focused and examination oriented practices are predominant The three novice teachers who participated in this study brought different beliefs and knowledge derived from their different individual experiences to bear on their teaching practices However they were strongly influenced by the environments in which they taught and mainly adopted a professional learning approach to teacher centred practices despite reporting that they favoured student centred teaching practices The study also observed professional learning towards student centred pedagogical aspects in a single

teacher case with mentorship support indicating that student centred pedagogies may be promoted within the constraints of the existing dominant teaching practice

**Resources in Education**, 2001

Second Language Learning Motivation in a European Context: The Case of Hungary Kata Csizér, 2021-01-04 This book provides an overview of second language L2 motivation research in a specific European context Hungary which has proved to offer an important laboratory for such research as a number of major political changes over the past 30 years have created a changing background for L2 learning in an increasingly globalized world The book provides an overview of theoretical research on L2 motivation together with detailed information on large scale L2 motivation studies in Hungary Further it presents a meta analysis of the most important investigations and qualitative data on teachers views regarding success in L2 learning In turn the interdisciplinary nature of L2 motivation is taken into account and relevant antecedent constructs to L2 motivation are investigated Lastly the book outlines possible future directions for L2 motivation research

*Handbook of Research on Teachers of Color and Indigenous Teachers* Conra D. Gist, Travis J. Bristol, 2022-10-15 Teachers of Color and Indigenous Teachers are underrepresented in public schools across the United States of America with Black Indigenous and People of Color making up roughly 37% of the adult population and 50% of children but just 19% of the teaching force Yet research over decades has indicated their positive impact on student learning and social and emotional development particularly for Students of Color and Indigenous Students A first of its kind the Handbook of Research on Teachers of Color and Indigenous Teachers addresses key issues and obstacles to ethnoracial diversity across the life course of teachers careers such as recruitment and retention professional development and the role of minority serving institutions Including chapters from leading researchers and policy makers the Handbook is designed to be an important resource to help bridge the gap between scholars practitioners and policy makers In doing so this research will serve as a launching pad for discussion and change at this critical moment in our country s history The volume s goal is to drive conversations around the issue of ethnoracial teacher diversity and to provide concrete practices for policy makers and practitioners to enable them to make evidence based decisions for supporting an ethnoracially diverse educator workforce now and in the future

A Handbook for Teacher Research Colin Lankshear, Michele Knobel, 2004-04-16 This informative book helped me to understand research in general and to bring focus and clarity to my current research project The text answers questions and provides guidance and support in a manner that is user friendly and easy to comprehend After reading this book I feel empowered as a teacher researcher and would unhesitatingly recommend it to other teacher researchers graduate students and educators Francesca Crowther teacher and doctoral student Nova Scotia Canada This book provides a comprehensive and detailed approach to teacher research as systematic methodical and informed practice It identifies five requirements for all kinds of research and provides clear and accessible guidelines for teachers to use in conducting their own classroom based studies Features A clear definition of teacher research which insists on more than stories and anecdotal retrospectives Innovative organisational

structure based on the collection and analysis of spoken written and observed data with strong emphasis on the design of research projects Easy to use and widely applicable tools and techniques for collecting and analysing data in qualitative research Informed by the authors own wide ranging experiences A Handbook of Teacher Research provides everything the teacher researcher needs in order to conduct good quality practitioner research It is ideal for upper level undergraduate Education programmes and for postgraduate research as well as for teacher researchers who conceive and drive their own independent studies **Handbook of Research in Second Language Teaching and Learning** Eli Hinkel,2011-01-25

This landmark volume provides a broad based comprehensive state of the art overview of current knowledge and research into second language teaching and learning All authors are leading authorities in their areas of expertise The chapters all completely new for Volume 2 are organized in eight thematic sections Social Contexts in Research on Second Language Teaching and Learning Second Language Research Methods Second Language Research and Applied Linguistics Research in Second Language Processes and Development Methods and Instruction in Second Language Teaching Second Language Assessment Ideology Identity Culture and Critical Pedagogy in Second Language Teaching and Learning Language Planning and Policy Changes in Volume 2 captures new and ongoing developments research and trends in the field surveys prominent areas of research that were not covered in Volume 1 includes new authors from Asia Australia Europe and North America to broaden the Handbook s international scope Volume 2 is an essential resource for researchers faculty teachers and students in MA TESL and applied linguistics programs as well as curriculum and material developers Educational Measurement Robert L. Brennan,2023-10-03 Educational Measurement has been the bible in its field since the first edition was published by ACE in 1951 The importance of this fourth edition of Educational Measurement is to extensively update and extend the topics treated in the previous three editions As such the fourth edition documents progress in the field and provides critical guidance to the efforts of new generations of researchers and practitioners Edited by Robert Brennan and jointly sponsored by the American Council on Education ACE and the National Council on Measurement in Education the fourth edition provides in depth treatments of critical measurement topics and the chapter authors are acknowledged experts in their respective fields Educational measurement researchers and practitioners will find this text essential and those interested in statistics psychology business and economics should also find this work to be of very strong interest Topics covered are divided into three subject areas theory and general principles construction administration and scoring and applications The first part of the book covers the topics of validation reliability item response theory scaling and norming linking and equating test fairness and cognitive psychology Part two includes chapters on test development test administration performance assessment setting performance standards and technology in testing The final section includes chapters on second language testing testing for accountability in K 12 schools standardized assessment of individual achievement in K 12 schools higher education admissions testing monitoring educational progress licensure and certification testing and legal and ethical issues

*Foreign Language Teachers and Intercultural Competence* Lies Sercu, Ewa Bandura, 2005-01-01 Foreign Language Teachers and Intercultural Communication An International Investigation reports on a study that focused on teachers beliefs regarding intercultural competence teaching in foreign language education Its conclusions are based on data collected in a quantitative comparative study that comprises questionnaire answers received from teachers in seven countries Belgium Bulgaria Poland Mexico Greece Spain and Sweden It not only creates new knowledge on the variability and relative consistency of today s foreign language teachers views regarding intercultural competence teaching in a number of countries but also gives us a picture that is both more concrete and more comprehensive than previously known International Handbook On The Continuing Professional Development Of Teachers Day, Christopher, Sachs, Judyth, 2005-12-01 Christopher Day and Judyth Sachs have done a remarkable job of pulling together an outstanding collection of essays on professional development that reflect its stunning diversity in different regions around the world They have done for readers what no one else has accomplished in nearly a quarter century Combine in a single volume a clear and concise description of professional development s past present and projected future internationally Thomas R Guskey University of Kentucky an engaging text through out and can be dipped in to or read from beginning to end The editors and authors of this book have done a great service to teachers and professional development educators worldwide Journal of Inservice Education This Handbook brings together theoretical and empirical research on purposes policies and practices of teachers continuing professional development CPD over the last twenty years It provides a unique collection of regional writing from key professionals in different regions of the world featuring A review of current CPD literature Discussion of the politics policies and purposes of CPD Case studies from Europe USA Australia Asia Africa and South America A synthesis of research and future research possibilities The book comprises a fascinating mix of conceptual framing accounts of purposes and practices case studies and analyses of best practice from a range of highly regarded writers in the field It is an indispensable source book for policy makers and teachers at all levels of the education systems Contributors Beatrice Avalos Ray Bolam Pam Christie Marion Dadds Christopher Day John Elliott Susan Groundwater Smith Shirley Grundy Ken Harley Alma Harris Geert Kelchtermans Geoff Lindsay Judith Warren Little Agnes McMahon Daniel Muijs Alan Penny Judith Robison Judyth Sachs Ciaran Sugrue David Tripp *Teacher Professional Vision: Theoretical and Methodological Advances* Andreas Gegenfurtner, Rebekka Stahnke, 2024-12-16 Research has shown that although teachers knowledge about the subject or pedagogy is important a teacher s professional vision including their perceptions and pedagogical decisions can also have a significant impact on the efficacy of their practice Firmly grounded in the long standing field of teacher professional vision research this two volume edited book explores new theoretical models emerging methods and empirical findings highlighting areas to explore within future research and insights into the design of teacher education and teacher professional development Volume 1 of this book Teacher Professional Vision Theoretical and Methodological Advances examines cutting edge international research on

the theoretical models and methods used to study the crucial subject of teacher professional vision Written by a diverse team of leading experts in the field this volume and its companion volume cover theoretical and methodological advances in teacher professional vision This is an essential resource for researchers and professionals in the field of teacher education and professional development TPACK: Breakthroughs in Research and Practice Management Association, Information Resources, 2019-02-01 Educational technologies are becoming commonplace entities in classrooms as they provide more options and support for teachers and students However many teachers are finding these technologies difficult to use due to a lack of training and instruction on how to effectively apply them to the classroom TPACK Breakthroughs in Research and Practice is an authoritative reference source for the latest research on the integration of technological knowledge pedagogical knowledge and content knowledge in the contexts of K 12 education Highlighting a range of pertinent topics such as pedagogical strategies blended learning and technology integration this publication is an ideal resource for educators instructional designers administrators academicians and teacher education programs seeking current findings on the implementation of technology in instructional design
