## **The Family Portrait:**

**Family Portrait** Lenore Coffee, William Joyce Cowen, 1964      Art Start's the Family Portrait Project Art Start, 2019-06-27 The Art Start Family Portrait Project is a multimedia project and platform for the powerful stories voices and images of New York City families experiencing homelessness Through portraits and story telling families invite the world to see them because Since 2013 Art Start has partnered with world class photographers to create a photographic celebration of the beauty and strength of families facing challenges that are often stigmatized by the public The 2019 Art Start Family Portrait Project is presented by National Endowment for the Arts with the support of New York City Department of Cultural Affairs Smashbox Studios and Industrial Color      Family Portrait Photography Helen T. Boursier, Jeff Smith, 1998-10 Family portraiture is one of the most overlooked areas of professional photography This book not only deals with the technical side of taking high quality family photographs including studio posing lighting and locations but also shows photographers how they can increase their business through advertising special promotions and other marketing methods      The Family Portrait Bridget Maher, Family Research Council of America, 2002      *The Function of the Family Portrait* Sean Molloy, 2011

Portraiture Richard Brilliant, 1991 General and theoretical study devoted entirely to portraiture Drawing on a broad range of images from Antiquity to the twentieth century which includes paintings sculptures prints cartoons postage stamps medals documents and photographs Richard Brilliant investigates the genre as a particular phenomenon in Western art that is especially sensitive to changes in the perceived nature of the individual in society Brilliant presents a thematic and cogent analysis of the connections between the subject matter of portraits and the beholders s response the response he or she makes to the image itself and to the person it represents the power of this imaginative transaction between the subject the artist and the beholder With 85 illustrations 10 in full colour Back cover      The Archaeology of Contextual Meanings Ian Hodder, 1987-08-06 This companion volume to Archaeology as Long term History focuses on the symbolism of artefacts It seeks at once to refine the theory and method relating to interpretation and show with examples how to conduct this sort of archaeological work Some contributors work with the material culture of modern times or the historic period areas in which the symbolism of mute artefacts has traditionally been thought most accessible However the book also contains a good number of applications in prehistory to demonstrate the feasibility of symbolic interpretation where good contextual data survive from the distant past In relation to wider debates within the social sciences the volume is characterised by a concern to place abstract symbolic codes within their historical context and within the contexts of social actions In this respect it develops further some of the ideas presented in Dr Hodder s Symbolic and Structural Archaeology an earlier volume in this series      *The Familial Gaze* Marianne Hirsch, 1999 Contemporary artists writers and theorists challenge standard interpretations of family photographs      *Photography in India* Aileen Blaney, Chinara Shar, 2020-09-23 Photography s prominence in the representation and experience of India in contemporary and historical times has not guaranteed it a

position of sustained attention in research and scholarship For a technology as all pervasive as photography and a country as colossal as India this scenario is somewhat of an anomaly Photography in India explores elements of the past present and future of photography in the context of India through speculation and reflection on photography as an artistic documentary and everyday practice The perspectives of writers theorists curators and artists are selectively brought to bear upon known as well as previously unseen photographic archives together with changes in photographic practice that have been synchronous with contemporary India s rapid urban and rural transformation and the technological shift from chemistry and light to programming and algorithms Essential reading for anyone interested in Indian photography this book binds insights into a history of photography with its contemporary development consolidating wide ranging thinking on the topic and setting the agenda for future research

**Visibly Canadian** Karen Stanworth, 2014-11-01 Spectacular scientific and educational cultural practices were used to establish and define public identities in the British colonies of nineteenth century Canada In *Visibly Canadian* Karen Stanworth argues that visual representations were the era s primary mode of expressing identity and shows how the citizenry of Quebec and Ontario was or was not represented in the visual culture of the time Through nine case studies each representing key moments of identity formation and contestation Stanworth investigates how a broad range of cultural phenomena from fine arts to institutional histories to public spectacles were used to order resist and articulate identities within specific social and economic contexts The negotiation and planning underpinning civic culture are evident in rare moments of compromise such as the surprising proposal from the Saint Jean Baptiste Society to merge their annual parade with the celebration of Queen Victoria s Diamond Jubilee in 1897 Equally astounding is the scale of nineteenth century public spectacles reenactments of Victorian scenes of war often attracted crowds of upwards of 10 000 people Illustrated with over fifty images many unseen for over a century *Visibly Canadian* establishes the extraordinary significance of artwork and public spectacles in cutting across language religion and class to tell stories of nationhood belonging and difference

*Stories from Home* Margaret Ponsonby, 2016-04-01 Most homes in the past were not elite wealthy interiors complete with high fashion furnishings designed by well known architects and designers as many domestic histories often seem to have assumed As this book makes clear there were in fact an enormous variety of house interiors in England during the period 1750 1850 reflecting the location status and gender of particular householders as well as their changing attitudes tastes and aspirations By focusing on non metropolitan homes which represented the majority of households in England this study highlights the need for historians to look beyond prevailing attitudes that often reduce interiors to generic descriptions based on high fashions of the decorative arts Instead it shows how numerous social and cultural influences affected the manner in which homes were furnished and decorated Issues such as the availability of goods gender regional taste income the second hand market changing notions of privacy and household hierarchies and print culture could all have a significant impact on domestic furnishing The study ends with a discussion of how domestic interiors

of historic properties have been presented and displayed in modern times highlighting how competing notions of the past can cloud as well as illuminate the issue Combining cultural history and qualitative analysis of evidence this book presents a new way of looking at ordinary and provincial homes that enriches our understanding of English domestic life of the late eighteenth and early nineteenth centuries

*Portraiture and Politics in Revolutionary France* Amy Freund, 2015-06-13 Portraiture and Politics in Revolutionary France challenges widely held assumptions about both the genre of portraiture and the political and cultural role of images in France at the beginning of the nineteenth century After 1789 portraiture came to dominate French visual culture because it addressed the central challenge of the Revolution how to turn subjects into citizens Revolutionary portraits allowed sitters and artists to appropriate the means of representation both aesthetic and political and articulate new forms of selfhood and citizenship often in astonishingly creative ways The triumph of revolutionary portraiture also marks a turning point in the history of art when seriousness of purpose and aesthetic ambition passed from the formulation of historical narratives to the depiction of contemporary individuals This shift had major consequences for the course of modern art production and its engagement with the political and the contingent
