The Fantasy Childhood Reset:

The Fantasy Childhood Reset Philip Jenkins,1971-01-01 *The General Theory of Behaviour* David F. Marks,2025-04-28 This ground breaking book presents a revolutionary new synthesis for the science of mind and behaviour. The book explains how behaviour and mental processes are unified within a single system of psychological homeostasis. A new Law of Equilibrium holds that mind and behaviour persistently strive towards safety, security and stability. The book creates a unified approach for the entire psychology discipline, free from the divisions of a problematic past. The author and a select group of highly qualified contributors present psychology as a full-blooded natural science with axioms, laws, and empirically supported principles. Any person and any library with an interest in how the mind works will find here a fascinating story and gripping analyses of motivation, feelings, emotions, habits, addictions, stress, altruism, well-being, trauma, paranormal experiences, waking and sleep. The volume catalogues unprecedented levels of empirical support for a psychological theory with a 97.4 percent rate of prediction from an array of well-documented contributions. [Restore Such a One](#) Lance M. Bacon,2024-08-01 Widespread deficiencies in spiritual formation see an increasing number of ministers buckle under the significant burdens common to the task. There are seasons when a powerful triad of the flesh, the world, and the devil converge. Eph 2:2-3 cf Jas 3:15 and 1 John 2:16. Misdirected attempts to fulfill emptiness find worth or heal longstanding wounds ensue. Widespread instances of sexual immorality result. Sound exegesis and analysis of theological doctrine presents an allowance in certain cases for ministerial restoration. However, this necessitates an intimate and intricate approach that differs significantly from the varied solutions churches and denominations offer. Few restoration programs bring a biblical response to bear. Remarkably rare are restoration programs that look to correct causal factors and commit to congregational care. This program orients itself on an understanding of brokenness and the need for holistic reformation. The latter requires fallen ministers to progress beyond biblical confession and repentance to partner with the Holy Spirit and key authorities such as an overseer, mentors, Christian mental health professionals, and a designated congregation. The unitive goal is a sanctifying psychopathology that properly diagnoses spiritual and emotional health, eradicates the adverse influences of emotional, cultural, and spiritual factors, and redirects self-oriented patterns of thought and behavior.

Examining experiences of ESP, psychokinesis, precognition, ganzfeld, dissociative states out of the body, experiences alien abductions and near-death experiences, David Marks appraises the best available evidence to date on scientific claims of the paranormal. Each chapter also provides a description of the psychological processes that are likely to contribute to these experiences and to the high prevalence of paranormal beliefs.
