### "A Gift Package for Sustainable Agriculture

The idea of publishing a series of booklets on agriculture for farmers, using simple language, is a wonderful concept. The planned series will surely be a milestone in trying to reach out to farmers with useful and up-to-date information on sustainable agriculture. An additional attraction is that this series will also act as follow-up literacy material in any country where so little readable information reaches the neo-literate population in the rural areas. Neither is the text and presentation so simplistic that educated farmers will not find interest in what is offered."
