The Farthest Corner Harry Morton, Carol Morton Johnston, Johns, 1989 The Farthest Corner Harry Morton, Carol Morton Johnston, 1988 **Historical Dictionary of the Discovery and Exploration of the Pacific Islands** Max Quanchi, John Robson, 2005-10-18 The South Seas as this region used to be called conjured up images of adventure belles and savages romance and fabulous fortunes but the long voyages of discovery and exploration of the vast Pacific Ocean were really an exercise in amazing logistics navigation hard grit shipwreck and pure luck The motivations were scientific and geographic but at the same time nationalistic and materialistic A series on global exploration and discovery would not be complete without this book by Quanchi and Robson It is ambitious and informative and includes the familiar names of Laperouse Bougainville Cook and Dampier as well as the intriguing stories of the Bounty Mutiny scurvy and the mysterious Northwest Passage Terra Australis Ignatia and Davis Land There are entries on first contacts ships navigational instruments mapping and botany The scene is carefully set in the introduction the chronology spans several centuries and the extensive bibliography offers a guide to further reading There are more than just dry facts in this book It has a whiff of salt air the clash of empires cross cultural beach encounters and personal adventure A Journey Travelled Murray Arnold, 2015 A Journey Travelled is a pivotal Australian story long overdue for the telling how Aboriginal and European people interacted with each other following Britain's territorial invasion in 1826 as well as its ongoing presence for the next 100 years There has been a wealth of documentary and oral history available to researchers prepared to write from a local history perspective yet very few Australian historians have accepted this challenge What has been lacking until quite recently is the sense among historians and the general Australian public that the history of Aboriginal European relations not only for the first few years of contact but for a period of many decades is central to the nation's story This extraordinary situation persisted with very few exceptions until the intense cultural and political foment that occurred throughout the Western world during the 1960s inevitably impacted the history departments of Australian universities For the first time Australians were confronted by the reality of their past as the old reluctance to write about the history of Aboriginal European relations came to an abrupt end As a very readable history on a topic that is of relevance to all Australians A Journey Travelled examines the topic from the vantage point of the town of Albany and the wider Great Southern region of Western Australia bringing a unique story to life The book contains maps and images including early photos of Menang men and women as well as appendices regarding seasonal cycles land cleared for agriculture Western Australian tribal boundaries and more Subject History Aboriginal Studies Australian Studies European Studies *Soldiers, Scouts and Spies* Cliff Simons, 2019-10-10 A fascinating and detailed study of the major campaigns on the New Zealand Wars As interest in the New Zealand Wars grows Soldiers Scouts and Spies offers a unique insight into the major campaigns fought between 1845 and 1864 by British troops their militia and Maori allies and Maori iwi and coalitions It was a time of rapid technological change Maori were quick to adopt

western weaponry and evolve their tactics and even political structures as they looked for ways to confront the might of the Imperial war machine. And Britain despite being a military and economic super power was challenged by a capable enemy in a difficult environment. This detailed examination of the Wars from a military perspective focuses on the period of relatively conventional warfare before the increasingly irregular fighting of the late 1860s. It explains how and where the battles were fought and their outcomes. Importantly it also analyses the intelligence gathering skills and processes of both British and Maori forces as each sought to understand and overcome their enemy.

Colonialism Melvin E. Page, 2003-09-16 The most exhaustive reference work available on this critical subject in world history focusing on the politics, economy, culture and society of both colonizers and colonized. The history of the last 500 years is the history of imperialism, writes editor Melvin Page. In the Americas as a result of imperialist conquest, disease, famine and war nearly wiped out a population estimated in the tens of millions. Africa was devastated by the slave trade, an integral part of imperialism from the 1400s to the 1800s. In Asia even though native populations survived, native political institutions were destroyed. Imperialism also forged the two most important ideologies of the last five centuries: racialism and modern nationalism. In more than 600 essays presented in this three-volume encyclopedia, Page and other leading scholars, historians, political scientists, economists and sociologists analyze the origins of imperialism, the many forms it took and its impact worldwide. They also explore imperialism's bitter legacy, the gross inequities of global wealth and power that divide the former conquerors, primarily Europe, the United States and Japan, from the people they conquered.

Noted more for its conservatism and stability, its green fields and sheep than for its innovation and radicalism, this most geographically isolated of English speaking countries took pride in its role as a provider of agricultural produce for Europe.
