## **The Female Offender What Does The Future Hold:**

The Female Offender American Correctional Association, 1990-01-01 The Task Force examined backgrounds attitudes and program needs of the nation s estimated 43 000 female inmates and looked at the practices of Federal State and local correctional institutions for women The Task Force found that the average female offender both adult and juvenile is a minority group member comes from a single parent or broken home has been a victim of sexual abuse first started using alcohol or drugs between 12 and 15 years of age and has been arrested from 2 to 9 times The average adult female offender is between 25 and 29 years of age while the average juvenile female offender is between 14 and 17 years of age Of local jails surveyed about 40 percent are less than 10 years old and nearly 80 percent house female inmates separately A significant number of State correctional facilities are not designed to house females although many facilities are expected to build new institutions or additions to existing facilities The number of female offenders is increasing in both State and local facilities but very few classification systems are designed to meet the needs of female offenders Substance abuse is reported to be high in all facilities A detailed statistical profile of female offenders and offenses is presented and policy recommendations to address the needs of this group are offered Harsh Punishment Sandy Cook, Susanne Davies, 1999-12-22 A pioneering collection of personal accounts from criminal justice scholars practitioners and activists and from current and former prisoners themselves The Female Offender Meda Chesney-Lind, Lisa Pasko, 2013 The Female Offender challenges the long standing tradition of male dominated criminology theory and research which has taken little or no account of gender differences Female Offenders Ruth T. Zaplin, 2008 The number of female offenders in the United States is skyrocketing Our tough on crime approach puts a female offender behind bars but doesn t consider the factors eading to her incarceration Female Offenders Critical Perspectives and Effective Interventions Second Edition proposes an alternative one that truly addresses the needs of female offenders and the root issues connected to their maladaptive behaviors trauma histories and mental health problems By focusing on these root issues this text prepares future correctional managers and supervisors to rehabilitate and empower female offenders to reenter society in a meaningful and productive way The Second Edition includes chapters written by experts in the field that discuss the diversity of issues facing female offenders in our culture from a variety of perspectives Grounded in the relevant research and literature this book blends theory with practice by presenting theories on the rehabilitation of female offenders alongside program models and effective strategies for reentry into society Female Offenders in the Community James B. Austin, Barbara Bloom, Trish Donahue, 1993 **A Comprehensive Study of Female Offenders** Martin Guevara Urbina, 2008 Few empirical studies have focused on women in prison In the last few years though a number of studies have demonstrated that there are fundamental differences between male and female prisoners in an ever changing penal system Consequently there has been a need for more comprehensive studies of female offenders for three primary reasons 1 imperative research gaps remain to be bridged 2 the

female prison experience is not constant and 3 prison rates for female offenders especially minority offenders have increased considerably in the last few years A central goal of this book then is to provide a balance to the existing literature and research on female prisoners in the United States and to an extent abroad focusing primarily on female offenders and using data gathered from the Wisconsin Department of Corrections The book utilizes a comprehensive investigative approach by equating the experience of female offenders by the totality of circumstances within an historical institutional political and ideological context The critical objective is to offer an inclusive analysis of the things that are considered by female inmates to be the most significant before during and after their incarceration as a way of better understanding the reasons that lead to their first incarceration as well as subsequent incarcerations By reading this book the reader will have a greater understanding of the many challenges facing female inmates as well as the relationship between inmates correctional officers and by extension society in general Also provided is a series of policy recommendations throughout the book particularly in the concluding chapter and epilogue
