The Middle Ages and the Movies Robert Bartlett, 2022-08-04 From Ingmar Bergman's *The Seventh Seal* to Monty Python's *An Investigation into How Eight Key Films Have Shaped Our Understanding of the Medieval World*. In *The Middle Ages and the Movies*, eminent historian Robert Bartlett takes a fresh, cogent look at how our view of medieval history has been shaped by eight significant films of the twentieth century. The book ranges from the concoction of sex and nationalism in Mel Gibson's *Braveheart* to Fritz Lang's silent epic *Siegfried*, the art house classic *The Seventh Seal* and the epic historical drama *El Cid*. Bartlett examines the historical accuracy of these films as well as other salient aspects: how was Umberto Eco's *Name of the Rose* translated from page to screen? Why is Monty Python's *The Holy Grail* funny? And how was Eisenstein's *Alexander Nevsky* shaped by the Stalinist tyranny under which it was filmed?

[Charlton Heston](#) Charlton Heston, 1977 [The Encyclopedia of Epic Films](#) Constantine Santas, James M. Wilson, Maria Colavito, Djoymi Baker, 2014-03-21

Soon after film came into existence, the term epic was used to describe productions that were lengthy, spectacular, live with action and often filmed in exotic locales with large casts and staggering budgets. The effort and extravagance needed to mount an epic film paid off handsomely at the box office; for the genre became an immediate favorite with audiences. Epic films survived the tribulations of two world wars and the Depression and have retained the basic characteristics of size and glamour for more than a hundred years. Length was and still is one of the traits of the epic, though monolithic three to four hour spectacles like *Gone with the Wind* (1939) and *Lawrence of Arabia* (1962) have been replaced today by such franchises as the Harry Potter films and the Lord of the Rings trilogy. Although the form has evolved during many decades of existence, its central elements have been retained, refined and modernized to suit the tastes of every new generation. *The Encyclopedia of Epic Films* identifies, describes and analyzes those films that meet the criteria of the epic: sweeping drama, panoramic landscapes, lengthy adventure sequences and in many cases casts of thousands. This volume looks at the wide variety of epics produced over the last century, from the silent spectacles of D.W. Griffith and biblical melodramas of Cecil B. DeMille to the historical dramas of David Lean and rollercoaster thrillers of Steven Spielberg. Each entry contains

Major personnel behind the camera including directors and screenwriters Cast and character listings Plot summary Analysis Academy Award wins and nominations DVD and Blu ray availability Resources for further study This volume also includes appendixes of foreign epics superhero spectaculars and epics produced for television along with a list of all the directors in the book Despite a lack of overall critical recognition and respect as a genre the epic remains a favorite of audiences and this book pays homage to a form of mass entertainment that continues to fill movie theaters The Encyclopedia of Epic Films will be of interest to academics and scholars as well as any fan of films made on a grand scale
