[The Films of the Nineties](#) W. Palmer,2009-03-02 By breaking down classic films from the nineteen nineties such as *Forest Gump* and *Titanic* this book offers a reel to reel cultural analysis chronicling the concept of spin as a major sociopolitical persuasion strategy

[The History of British Literature on Film, 1895-2015](#) Greg M. Colón Semenza,Bob Hasenfratz,Robert J. Hasenfratz,2017-01-26 From *The Death of Nancy Sykes* 1897 to *The Hobbit The Battle of the Five Armies* 2014 and beyond cinematic adaptations of British literature participate in a complex and fascinating history *The History of British Literature on Film 1895 2015* is the only comprehensive narration of cinema s 100 year old love affair with British literature Unlike previous studies of literature and film which tend to privilege particular authors such as Shakespeare and Jane Austen or particular texts such as *Frankenstein* or particular literary periods such as Medieval this volume considers the multiple functions of filmed British literature as a cinematic subject in its own right one reflecting the specific political and aesthetic priorities of different national and historical cinemas In what ways has the British literary canon authorized and influenced the history and aesthetics of film and in what ways has filmed British literature both affirmed and challenged the very idea of literary canonicity Seeking to answer these and other key questions this indispensable study shows how these adaptations emerged from and continue to shape the social artistic and commercial aspects of film history

The Columbia Companion to American History on Film Peter C. Rollins,2004-03-24 American history has always been an irresistible source of inspiration for filmmakers and today for good or ill most Americans sense of the past likely comes more from Hollywood than from the works of historians In important films such as *The Birth of a Nation* 1915 *Roots* 1977 *Apocalypse Now* 1979 and *Saving Private Ryan* 1998 how much is entertainment and how much is rooted in historical fact In *The Columbia Companion to American History on Film* more than seventy scholars consider the gap between history and

Hollywood They examine how filmmakers have presented and interpreted the most important events topics eras and figures in the American past often comparing the film versions of events with the interpretations of the best historians who have explored the topic Divided into eight broad categories Eras Wars and Other Major Events Notable People Groups Institutions and Movements Places Themes and Topics and Myths and Heroes the volume features extensive cross references a filmography of discussed and relevant films notes and a bibliography of selected historical works on each subject The Columbia Companion to American History on Film is also an important resource for teachers with extensive information for research or for course development appropriate for both high school and college students Though each essay reflects the unique body of film and print works covering the subject at hand every essay addresses several fundamental questions What are the key films on this topic What sources did the filmmaker use and how did the film deviate or remain true to its sources How have film interpretations of a particular historical topic changed and what sorts of factors technological social political historiographical have affected their evolution Have filmmakers altered the historical record with a view to enhancing drama or to enhance the truth of their putative message

Filming the First Helen J. Knowles-Gardner, Bruce E. Altschuler, Brandon T. Metroka, 2024-10-15 The First Amendment to the U S Constitution prohibits Congress from abridging freedom of the press But as the printed press has been transformed into mass media with Americans now more likely to get their political information from television or social media than from print confidence in this important mediating institution has fallen dramatically Movies in their role as cultural artifacts have long reflected and influenced those public attitudes inventing such iconic phrases as follow the money from All the President s Men and I m mad as hell and I m not going to take this anymore from Network Filming the First Cinematic Portrayals of Freedom of the Press analyzes eighteen films that span from Citizen Kane to Spotlight showing changes in how the press have been portrayed over time which voices receive the most attention and why the relationship between the press s Fourth Estate role and the imperatives of capitalism and how despite the First Amendment s seemingly absolute language the government has sometimes been able to limit what the public can read or view

Mainstream Maverick Holly Chard, 2020-09-01 Winner Best First Monograph British Association of Film Television and Screen Studies The first scholarly book on John Hughes examines Hollywood s complex relationship with genre the role of the auteur in commercial cinema and the legacy of favorites such as Sixteen Candles and Ferris Bueller s Day Off In the 1980s and 1990s John Hughes was one of Hollywood s most reliable hitmakers churning out beloved teen comedies and family films such as The Breakfast Club and Home Alone respectively But was he an artist Hughes an adamantly commercial filmmaker who was dismissed by critics might have laughed at the question Since his death in 2009 though he has been memorialized on Oscar night as a key voice of his time Now the critics lionize him as a stylistic original Holly Chard traces Hughes s evolution from entertainer to auteur Studios recognized Hughes s distinctiveness and responded by nurturing his brand He is therefore a case study in Hollywood s production not only of movies but also of genre

and of authorship itself The films of John Hughes Chard shows also owed their success to the marketers who sold them and the audiences who watched Careful readings of Hughes s cinema reveal both the sources of his iconic status and the imprint on his films of the social political economic and media contexts in which he operated The first serious treatment of Hughes Mainstream Maverick elucidates the priorities of the American movie industry in the New Hollywood era and explores how artists not only create but are themselves created

Celluloid Blackboard Alan S. Marcus,2006-10-01 This volume advocates for including feature films in secondary history classrooms through examining the ways in which films can promote students historical understanding while also addressing the potential drawbacks to using film In part one the essays explore three frameworks for the analysis of film by secondary students Part two fills a void in the scholarship reporting on four recent studies that explore how the use of film may encourage the development of students historical understanding Finally part three describes the results from two secondary teachers incorporating film into their history classrooms

The Lost Decade Chris Horn,2023-10-19 Provides an analysis of Hollywood from a fresh viewpoint that shows the careers of Robert Altman Francis Coppola William Friedkin and others in the 1980s as far from conforming to a monolithic pattern of decline but rather as diverse and complex responses to political and industrial changes The 1980s are routinely seen as the era of the blockbuster and of Reaganite entertainment whereas the dominant view of late 1960s and early 1970s American film history is that of a Hollywood Renaissance a relatively brief window of artistry based around a select group of directors Yet key directors associated with the Renaissance period remained active throughout the 1980s and their work has been obscured or dismissed by a narrow singular model of American film history This book deals with industrial contexts that conditioned these directors ability to work creatively but it is also very much about the analysis of individual films bringing to light a range of unheralded work from the visual experimentation of *One from the Heart* Coppola 1981 to the experimental production contexts of *Secret Honor* Altman 1984 and the stylistic lan of *To Live and Die in L A* Friedkin 1985 Behind the homogenous picture of the decline of the auteur in 1980s American cinema are films and careers that merit greater attention and this book offers a new way to perceive individual films American film history and the viability of sustained authorial creativity within post studio era Hollywood
