Bukowczyk, 2017-07-12 In the last rootless decade families neighborhoods and communities have disintegrated in the face of gripping social economic and technological changes This process has had mixed results On the positive side it has produced a mobile volatile and dynamic society in the United States that is perhaps more open just and creative than ever before On the negative side it has dissolved the glue that bound our society together and has destroyed many of the myths symbols values and beliefs that provided social direction and purpose In *A History of the Polish Americans* John J. Bielski, 2016-04-19 The untold stories of nine Polish Americans who bravely fought in the Civil War includes photographs maps and illustrations This unique history chronicles the lives of nine Polish American immigrants who fought in the Civil War Spanning three generations they are connected by the White Eagle the Polish coat of arms and by a shared history in which their home country fell to ruin at the end of the previous century Still each carried a belief in freedom that they inherited from their forefathers More highly trained in warfare than their American brethren and more inured to struggles for nationhood the Poles made significant contributions to the armies they served The first group had fought in the 1830 war for freedom from the Russian Empire The European revolutionary struggles of the 1840s molded the next generation The two youngest came of age just as the Civil War began entering military service as enlisted men and finishing as officers Of the group four sided with the North and four with the South and the ninth began in the Confederate cavalry and finished fighting for the Union side Whether for the North or the South they fought for their ideals in America's greatest conflict Nominated for the Gilder Lehrman Prize

Lindsay Baker, 2016-09-20 By the time Route 66 received its official numerical designation in 1926 picture postcards had become popular travel souvenirs At the time these postcards with colorful images served as advertisements for roadside businesses While cherished by collectors these postcard depictions do not always reflect reality They often present instead a view enhanced for promotional purposes Portrait of Route 66 lets us see for the first time the actual photographs from which the postcards were made and in describing how the production process worked introduces us to an extraordinary archival collection adding new history to this iconic road The Curt Teich Postcard Archives held at the Lake County Discovery Museum in Wauconda Illinois contains one of the nation s largest collections of Route 66 images including thousands of job files for postcards produced by Curt Teich and Company of Chicago T Lindsay Baker combed these files to choose the best examples of postcards and their accompanying photographs not only to reflect well

known sites along the route but also to demonstrate the relationships between photographs and their resulting postcards The photographs show the reality of the locations that customers sometimes wanted improved for aesthetic purposes in creating the postcards Such alterations included removing utility poles or automobile traffic and rendering overcast skies partly cloudy This book will interest historians of art and design as well as the worldwide audiences of Route 66 aficionados and postcard collectors For its mining of an invaluable and little known photographic archive and depiction of high quality photographs that have not been seen before Portrait of Route 66 will be irresistible to all who are interested in American history and culture
