**The Fortean Times Book of the Millennium** Kevin McClure,1996      **Fortean Times** ,1997 The journal of strange phenomena      **Borderlands** Mike Dash,2000-11-07 Explore the Borderlands The charred remains of Helen Conway whose body exploded Was this a case of spontaneous combustion Discoveries of 130 foot long boa constrictors and twelve foot giant kangaroos What other species have gone undiscovered In England a town is pelted from the sky by hundreds of tiny rose colored frogs Is this a one time event an omen or a bizarre natural phenomenon Near death experiences lake monsters crop circles fairies visions of the Virgin Mary Using his vast research and privileged access to case files noted paranormal investigator Mike Dash has compiled this unprecedented collection of the most baffling puzzles of our time Touring the globe and sifting through a vast array of eyewitness accounts and film and photographic evidence Dash separates genuine cases from hoaxes and dares to record those macabre inexplicable and terrifying events where there is no other explanation except that what people saw heard and sometimes lived to tell about is true      Millennial Seduction Lee Quinby,2018-09-05 Who among us still thinks the year 2000 is just an arbitrary turn of a calendar page Why does its approach bring both fear of apocalyptic destruction and the promise of millennial salvation Lee Quinby investigates how anxiety about the arrival of the new century casts everything from El Niño to sheep cloning in apocalyptic terms simultaneously fueling panic and fostering unfounded hope for a perfect world Millennial rhetoric is both pervasive and persuasive Quinby argues because it operates with mutually reinforcing doses of fear and hope Religious and secular anxiety erupts over charged issues such as sex education the regulation of cyberspace and the Christian masculinity of the Promise Keepers Quinby exposes the dangers of millennialist solutions which link misogyny homophobia and racism with absolutist claims about truth morality sexuality and technology It is the absolutism of apocalyptic thought not an impending apocalypse that poses the more serious threat to our society Quinby maintains Millennial Seduction advocates a form of skepticism that challenges absolutism and encourages democratic participation      *Why Statues Weep* Wendy M. Grossman,Christopher C. French,2017-09-19 First Published in 2016 Why do statues weep Did Nostradamus really predict 9 11 Is it true that we only use 10% of our brain power Does quantum theory explain the mystery of consciousness For 21 years questions like these have been posed and answered in the pages of The Skeptic magazine Britain's foremost and longest running sceptical magazine dedicated to the examination of science scepticism psychology secularism critical thinking and claims of the paranormal in short the pursuit of truth through reason and evidence This collection brings together the best articles from the magazine's archive in one myth busting volume It covers a wide range of topics such as psychic fraudsters claims of psychic healing and alien abduction near death experiences false memories and much more Contributors include Susan Blackmore Richard Wiseman John Diamond Edzard Ernst plus interviews with Paul Daniels and Stephen Fry With a foreword by Simon Hoggart this collection will simultaneously provide you with food for thought and keep you entertained      **Encyclopedia of Cryptozoology** Michael

Newton,2016-10-05 On every continent and in every nation animals unrecognized by modern science are reported on a daily basis People passionately pursue these creatures the name given to their field of study is cryptozoology Coined in the 1950s the term literally means the science of hidden animals When the International Society of Cryptozoology ISC was formed in 1982 the founders declared that the branch of science is also concerned with the possible existence of known animals in areas where they are not supposed to occur either now or in the past as well as the unknown persistence of presumed extinct animals to the present time or to the recent past what makes an animal of interest to cryptology is that it is unexpected This reference work presents a flesh and blood view of cryptozoology Here 2 744 entries are listed the majority of which each describe one specific creature or type of creature Other entries cover 742 places where unnamed cryptids are said to appear profiles of 77 groups and 112 individuals who have contributed to the field descriptions of objects and events important to the subject and essays on cryptotourism and hoaxes for example Appendices offer a timeline of zoological discoveries annotated lists of movies and television series with cryptozoological themes a list of crypto fiction titles and a list of Internet websites devoted to cryptozoology Journal of the Fortean Research Center Paperbound Ray Boeche,2012-07-01 The Fortean Research Center was founded in Lincoln Nebraska in 1982 During the two decades of its existence this volunteer group of researchers and investigators delved deep into the unexplained Exploring events in Nebraska and far beyond that included ghosts UFOs Bigfoot encounters animal mutilations government cover ups alleged alien abductions psychic phenomena cult activity and even a sighting of a blob like mystery creature the Fortean Research Center became recognized among members of the Fortean paranormal and UFO research communities around the world as a reliable and trusted source of information Here is the entire collection of the Journal of the Fortean Research Center 23 issues in all These publications are a reflection of their time and demonstrate in many cases the beginning steps into subjects familiar to the public today alleged UFO crashes and landings at government installations alien abductions cryptozoology and more

**Disaster Movies** Stephen Keane,2006 Through detailed analysis of films such as The Towering Inferno Independence Day Titanic and The Day After Tomorrow this book looks at the ways in which disaster movies can be read in relation to both contextual considerations and the increasing commercial demands of contemporary Hollywood Featuring new material on cinematic representations of disaster in the wake of 9 11 and how we might regard disaster movies in light of recent natural disasters the volume explores the continual reworking of this previously undervalued genre *Mysterious Creatures* George M. Eberhart,2002-12-17 A comprehensive guide to cryptozoology the quest to identify animals that have not been officially catalogued by science and to place these unknown animals into their proper zoological categories In this fascinating two volume encyclopedia author George M Eberhart provides a comprehensive catalog of nearly 1 000 cryptids unknown animals usually reported through eyewitness accounts and not yet described by science Cryptids are the stuff of folklore hoaxes and genuine scientific breakthroughs There are 400 now classified cryptids once considered either extinct or pure fantasy The

cryptozoologist's job is to strip away the myth, misidentification and mystery and separate fact from fiction. *Mysterious Creatures* covers everything from dinosaurs and the *Mohawk*, an elephant-killing dinosaur-like animal of central Africa, to searches for the Loch Ness monster, Bigfoot and other cryptozoological hoaxes. Entries about specific animals include the derivation or meaning of each cryptid's name, its scientific name, variant names, a physical description, behavior, description of tracks, habitat, significant sightings, present status and possible explanations. Illustrations and photographs accompany many entries. The book also includes resources and references for further information. [Politics and Paranoia](#) Robin Ramsay, 2008-06.
