The Senses of Modernism Sara Danius,2019-01-24 In *The Senses of Modernism* Sara Danius develops a radically new theoretical and historical understanding of high modernism The author closely analyzes Thomas Mann s *The Magic Mountain* Marcel Proust s *Remembrance of Things Past* and James Joyce s *Ulysses* as narratives of the sweeping changes that affected high and low culture in the age of technological reproduction In her discussion of the years from 1880 to 1930 Danius proposes that the high modernist aesthetic is inseparable from a technologically mediated crisis of the senses She reveals the ways in which categories of perceiving and knowing are realigned when technological devices are capable of reproducing sense data Sparked by innovations such as chronophotography phonography radiography cinematography and technologies of speed this sudden shift in perceptual abilities had an effect on all arts of the time Danius explores how perception notably sight and hearing is staged in the three most significant modern novels in German French and British literature *The Senses of Modernism* connects technological change and formal innovation to transform the study of modernist aesthetics Danius questions the longstanding acceptance of a binary relationship between high and low culture and describes the complicated relationship between modernism and technology challenging the conceptual divide between a technological culture and a more properly aesthetic one

The Fugitive Identity of Mediation Debbie De Girolamo,2013-07-18 Despite much having been written about what mediation is direct observations of commercial mediations are limited This book grants an opportunity to observe mediation in action and also provides external commentary about the actions observed The book approaches Mediation ethnographically as a social process that is informed by structures rules and norms that colour the environment within which it operates Through the ethnographic method a process leading to negotiated order is examined baring its elements identifying its influences and studying the movement to order The result is the reconceptualization of mediation The mediator is invited into the negotiation as third party intervener He creates the process of mediation defining the process by his actions which ultimately merges mediator with process This book provides a window to the lived experience of participants to mediation it explores their understandings of and interactions within a process they have experienced together and demonstrates how mediation is a process inextricably linked to negotiation *The Fugitive Identity of Mediation* will be of interest to scholars mediators parties who participate in the process and to those active in public policy discourse

Memory in Mind and Culture Pascal Boyer,James V. Wertsch,2009-06-08 This text introduces students scholars and interested educated readers to the issues of human memory broadly considered encompassing both individual memory collective remembering by societies and the construction of history The book is organised around several major questions How do memories construct our past How do we build shared collective memories How does memory shape history This volume presents a special perspective emphasising the role of memory processes in the construction of self identity of shared cultural norms and concepts and of historical awareness

Although the results are fairly new and the techniques suitably modern the vision itself is of course related to the work of such precursors as Frederic Bartlett and Aleksandr Luria who in very different ways represent the starting point of a serious psychology of human culture

The Proustian Fabric Christie McDonald, 2016-05 The association of ideas became the foundation of Freudian psychoanalysis informed the nascent semiology of Saussure and characterized the literary works of Sterne Joyce Woolf and especially Marcel Proust The author of *Remembrance of Things Past* acutely aware of how philosophical historical and narrative writing intersected gave years of thinking and planning to his multivolume masterpiece Its shape was protean Each successive volume reconfigured the previous ones and in 1987 Proust readers welcomed the publication of several new editions among them the *Bibliothèque de la Pléiade* which presented as many pages of variants as of text The Proustian Fabric engages the complex layers of association to be found in Proust's work According to Christie McDonald *Remembrance of Things Past* straddles the dominant thinking patterns of two centuries the nineteenth in which the association of fragmentary thought was to be subsumed into the notion of a totality and the twentieth in which the notion of associative thinking was to move toward an infinite process of referral and interpretation Imbued with McDonald's discerning knowledge of Proust's intellectual and historical milieu his compendious writing and his critics The Proustian Fabric is one of the first books to take into account the rich variations of the new editions and to reexamine certain suppositions about Proust's methods as well as his concern with philosophy literature art and politics

Mimesis, Desire, and the Novel Pierpaolo Antonello, Heather Webb, 2015-10-01 Fifty years after its publication in English Ren Girard's *Deceit Desire and the Novel* 1965 has never ceased to fascinate challenge inspire and sometimes irritate literary scholars It has become one of the great classics of literary criticism and the notion of triangular desire is now part of the theoretical parlance among critics and students It also represents the genetic starting point for what has become one of the most encompassing challenging and far reaching theories conceived in the humanities in the last century mimetic theory This book provides a forum for new generations of scholars and critics to reassess challenge and expand the theoretical and hermeneutical reach of key issues brought forward by Girard's book including literary knowledge realism and representation imitation and the anxiety of influence metaphysical desire deviated transcendence literature and religious experience individualism and modernity and death and resurrection It also provides a more extensive and detailed historical understanding of the representation of desire imitation and rivalry within European and world literature from Dante to Proust and from Dickens to Jonathan Littell

The UAB Marcel Proust Symposium William C. Carter, 1989 *Men and Mothers* Hendrika C. Freud, 2018-03-08 Not all men vie with their fathers for the love of their mothers In some families the mother becomes the central figure for her son the father is excluded or excludes himself and does not come between mother and son The main thesis of this book using clinical vignettes and quotes from the work of Marcel Proust to illustrate the author's points is that in these cases fantasies of matricide replace patricide Men develop their male gender identity by being

permitted to separate from their mother early on but when a man does not resolve his infantile tie to his mother he risks remaining in a passive and or dependent position towards her Over identification with the mother might ensue hampering masculine development Mothers who seek emotional support by binding their sons too closely can become seductive towards them The child is inclined to try to satisfy the emotional needs of his mother and he fears rejection if he asserts his independence instead of complying

City of the Beast Phil Baker, 2022-08-16 A work that combines biography and psychogeography to trace Aleister Crowley's life in London I dreamed I was paying a visit to London Aleister Crowley wrote in Italy continuing It was a vivid long coherent detailed affair of several days with so much incident that it would make a good sized volume Crowley had a love hate relationship with London but the city was where he spent much of his adult life and it was the capital of the culture that created him Crowley was a post decadent with deviant Victorian roots in the cultural ferment of the 1890s and the magical revival of the Golden Dawn Not a walking guide although many routes could be pieced together from its pages this is a biography by sites A fusion of life writing with psychogeography steeped in London's social history from Victoria to the Blitz it draws extensively on unpublished material and offers an exceptionally intimate picture of the Great Beast We follow Crowley as he searches for prostitutes in Hyde Park and Pimlico drinks absinthe and eats Chinese food in Soho and find himself down on his luck in Paddington Green and never quite losing sight of the illumination that drove him the abiding rapture he wrote in his diary which makes a bus in the street sound like an angel choir

The Strange M. Proust Andre Benhaim, 2017-07-05 The strange M Proust the narrator the author and the embodiment of *A la Recherche du Temps perdu* is now so canonical a writer that his very strangeness is easily overlooked His book made of other books his epic composed of extraordinary miniatures his orderly structure where every law is subverted his chronology where time can be undone and his geography where places can superimpose in these and many other ways Proust continues to astonish even readers who have engaged with him for their entire careers In this book arising from the Princeton symposium of 2006 major critics come together to offer provocative readings of a work which is at the same time classical and unusual French and foreign familiar and strange The book is dedicated to the memory of Malcolm Bowie 1943-2007 whose keynote address was one of his last major lectures Other contributors include David Ellison Anne Simon Eugene Nicole Joseph Brami Raymonde Coudert Christie McDonald Michael Wood and Antoine Compagnon

Thinking Life with Luce Irigaray Gail M. Schwab, 2020-04-01 Featuring a highly accessible essay from Irigaray herself this volume explores her philosophy of life and living Life thinking an important contemporary trend in philosophy and in women's and gender studies stands in contrast to philosophy's

traditional grounding in death exemplified in the work of philosophers such as Socrates Plato and Schopenhauer The contributors to *Thinking Life* with Luce Irigaray consider Irigaray's criticisms of the traditional Western philosophy of death including its either/or dualisms and binary logic as well as some of Irigaray's solutions for cultivating life The book is comprehensive in its analyses of Irigaray's relationship to classical and contemporary philosophers writers and artists and produces extremely fruitful intersections between Irigaray and figures as diverse as Homer and Plato Alexis Wright the First Nations novelist of Australia and twentieth century French philosophers like Sartre Badiou Deleuze and Guattari It also develops Irigaray's relationship to the arts with essays on theater poetry architecture sculpture and film Essays on Music Theodor Adorno, 2002-08-08 A book of landmark importance It is unprecedented in its design a brilliantly selected group of essays on music coupled with lucid deeply incisive and in every way masterly analysis of Adorno's thinking about music No one who studies Adorno and music will be able to dispense with it and if they can afford only one book on Adorno and music this will be the one For in miniature it contains everything one needs a collection of exceptionally important writings on all the principal aspects of music and musical life with which Adorno dealt totally reliable scholarship and powerfully illuminating commentary that will help readers at all levels read and re read the essays in question Rose Rosengard Subotnik author of *Deconstructive Variations Music and Reason in Western Society* An invaluable contribution to Adorno scholarship with well chosen essays on composers works the culture industry popular music kitsch and technology Leppert's introduction and commentaries are consistently useful his attention to secondary literature remarkable his interpretation responsible The new translations by Susan Gillespie and others are outstanding not only for their care and readability but also for their sensitivity to Adorno's forms and styles Lydia Goehr author of *The Quest for Voice Music Politics and the Limits of Philosophy* With its careful full edition of Adorno's important musical texts and its exhaustive yet eminently readable commentaries Richard Leppert's magisterial book represents a brilliant solution to the age old dilemma of bringing together primary text and interpretation in one volume James Deaville Director School of the Arts McMaster University The developing variations of Adorno's life long involvement with musical themes are fully audible in this remarkable collection What might be called his literature on notes brilliantly complements the notes to literature he devoted to the written word Richard Leppert's superb commentaries constitute a book length contribution in their own right which will enlighten and challenge even the most learned of Adorno scholars Martin Jay author of *The Dialectical Imagination A History of The Frankfurt School and the Institute of Social Research* There is afoot in Anglo American musicology today the first wholesale reconsideration of Adorno's thought since the pioneering work of Rose Rosengard Subotnik around 1980 *Essays on Music* will play a central role in this effort It will do so because Richard Leppert has culled Adorno's writings so as to make clear to musicologists the place of music in the broad critique of modernity that was Adorno's overarching project and it will do so because Leppert has explained these writings in commentaries that amount to a book length study so as to reveal to non musicologists the

essentially musical foundation of this project No one interested in Adorno from any perspective or for that matter in modernity and music all told can afford to ignore *Essays on Music* Gary Tomlinson author of *Metaphysical Song An Essay on Opera* This book is both a major achievement by its author editor and a remarkable act of scholarly generosity for the rest of us Until now English translations of Adorno's major essays on music have been scattered and often unreliable Until now there has been no comprehensive scholarly treatment of Adorno's musical thinking This volume remedies both problems at a single stroke It will be read equally and eagerly for Adorno's texts and for Richard Leppert's commentary on them both of which will continue to be essential resources as musical scholarship seeks increasingly to come to grips with the social contexts and effects of music No one knows Adorno better than Leppert and no one is better equipped to clarify the complex interweaving of sociology philosophy and musical aesthetics that is central to Adorno's work From now on everyone who reads Adorno on music whether a beginner or an expert is in Richard Leppert's debt for devoting his exceptional gifts of learning and lucidity to this project Lawrence Kramer author of *Musical Meaning Toward a Critical History*
