The Function of Literature David Margolies,1969 *Christopher Caudwell* Christopher Pawling,1989-11-10
Christopher Caudwell was only twenty nine when he was killed in action in February 1937 at the beginning of the Spanish Civil War Largely unknown at the time of his death his reputation has been established subsequently as one of the most original English cultural critics of the Twentieth century The Function of Literature David Margolies,1969 **Criticism and Literary Theory 1890 to the Present** Chris Baldick,2014-06-11 Presents a coherent and accessible historical account of the major phases of British and American Twentieth century criticism from decadent aestheticism to feminist deconstructionist and post colonial theories Special attention is given to new perspectives on Shakespearean criticism theories of the novel and models of the literary canon The book will help to define and account for the major developments in literary criticism during this century exploring the full diversity of critical work from major critics such as T S Eliot and F R Leavis to minor but fascinating figures and critical schools Unlike most guides to modern literary theory its focus is firmly on developments within the English speaking world *Christopher Caudwell* David Margolies,Linden Peach,1989 **Orwell and Marxism** Philip Bounds,2009-03-16 Whether as a fighter in the Spanish Civil War an advocate of patriotic Socialism or a left wing opponent of the Soviet Union George Orwell was the ultimate outsider in politics insecure scornful of orthodoxies curiously independent Best known today as the author of *Animal Farm* and *Nineteen Eighty Four* Orwell also wrote seven other full length books and a vast number of essays articles and reviews A pioneering cultural critic he addressed a range of important issues including art literature Englishness mass communication and the spectre of totalitarianism Famously describing his own background as lower upper middle class Orwell had a complex relationship with Marxism and all his work reflects the influence of British communism In this thoughtful and original study Philip Bounds argues that Orwell s writings effectively took the form of a dialogue with the leading British Marxists of his day Bounds shows that Orwell often agreed with the Marxists and built on their insights in his writings while on other occasions he used his disagreements with them as the basis of his own critical position Through close analysis of Orwell s writings as well as his historical and literary context Bounds has produced an important study of one of the iconic writers of the 20th century Orwell and Marxism offers a thorough introduction to Orwell the intellectual reviving his reputation as a serious cultural thinker and documenting his most important influences as well as a convincing portrait of British Marxism and society in the 1930s and 40s **Christopher Caudwell** Robert Sullivan,1987 **The Return of Nature** John Bellamy Foster,2021-06-01 Winner 2020 Isaac and Tamara Deutscher Memorial Prize A fascinating reinterpretation of the radical and socialist origins of ecology Twenty years ago John Bellamy Foster s *Marx s Ecology Materialism and Nature* introduced a new understanding of Karl Marx s revolutionary ecological materialism More than simply a study of Marx it commenced an intellectual and social history encompassing thinkers from Epicurus to Darwin who developed materialist and ecological ideas Now with *The Return*

of Nature Socialism and Ecology Foster continues this narrative In so doing he uncovers a long history of the efforts to unite questions of social justice and environmental sustainability and helps us comprehend and counter today s unprecedented planetary emergencies The Return of Nature begins with the deaths of Darwin 1882 and Marx 1883 and moves on until the rise of the ecological age in the 1960s and 1970s Foster explores how socialist analysts and materialist scientists of various stamps first in Britain then the United States from William Morris and Frederick Engels to Joseph Needham Rachel Carson and Stephen J Gould sought to develop a dialectical naturalism rooted in a critique of capitalism In the process he delivers a far reaching and fascinating reinterpretation of the radical and socialist origins of ecology Ultimately what this book asks for is nothing short of revolution a long ecological revolution aimed at making peace with the planet while meeting collective human needs

The Time Machine and the Domains Richard W. Bevis, 2022-02-18 Why have so many cultures created what we call imaginative literature in the past and still do What prompts so many people to read literature And how are we to understand the economy that links these producers and consumers These and related questions plagued the author for a couple of decades before he began to set down the results of his research into the roles and functions that creative writing has had in various societies More and more the evidence seemed to point towards our feelings about the effects of time on our lives and our memories of special places that enchanted or changed us He illustrates his findings by examining a wide range of literary artifacts
