C. Ewing,... Alfred Cyril Ewing, 1953 **Fundamental Questions of Philosophy** Stephan Körner, 1969 *The Fundamental Questions* Eugene Kelly, Luis E. Navia, 1995 An introductory anthology to accompany the first course in philosophy Sections are devoted to the presence of Socrates ethical values and right action issues in political philosophy the philosophy of religion and the philosophy of human nature Each individual selection is preceded by an essay that introduces the work and describes the questions it asks and the kinds of answers it proposes Annotation copyright by Book News Inc Portland OR **Four Fundamental Questions** Richard Bilsker, 2020-05-14 The fundamental questions of philosophy Alfred E. Ewing, 1951 **Being and Truth** Martin Heidegger, 2021-12-22 A well crafted and careful rendering of an important and demanding volume covering the philosopher's views on language life and politics Andrew Mitchell Emory University In these lectures delivered in 1933 1934 while he was Rector of the University of Freiburg and an active supporter of the National Socialist regime Martin Heidegger addresses the history of metaphysics and the notion of truth from Heraclitus to Hegel First published in German in 2001 these two lecture courses offer a sustained encounter with Heidegger

s thinking during a period when he attempted to give expression to his highest ambitions for a philosophy engaged with politics and the world While the lectures are strongly nationalistic they also attack theories of racial supremacy in an attempt to stake out a distinctively Heideggerian understanding of what it means to be a people This careful translation offers valuable insight into Heidegger s views on language truth animality and life as well as his political thought and activity

The Philosophical Animal Eduardo Mendieta,2024-06-01 Humans are animals who fictionalize other animals to asse their humanness We are philosophical animals who philosophize about our humanity by projecting images onto a mirror about other animals Spanning literature philosophy and ethics the thread uniting *The Philosophical Animal* is the bestiary and how it continues to inform our imaginings Beginning with an exploration of animals and women in the literary work of Coetzee famous for his book on the Lives of Animals Eduardo Mendieta then dives into the genre of bestiaries in order to investigate the relation between humanity and animality From there he approaches the works of Derrida and Habermas from the standpoint of genetic engineering and animal studies While we have intensely modified many species genetically we have not done this to ourselves Why Finally Mendieta deals with the political and ethical implications suggested by this question before ending on an autobiographical note about growing up around so called animals and in particular horses

The Fundamental Questions of Philosophy - Primary Source Edition Ac Ewing,2014-03 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book

Utopics Manel Pretel-Wilson,2020-10-06 The book consolidates systems thinking as a new world hypothesis that is already suggesting itself behind the advancement of quantum mechanics and Ashby s cybernetics In particular it shows how Einstein s misgivings about quantum mechanics boil down to his persistence in defending the principle of contiguity at the root of the modern cosmology and in relation to neo cybernetics the book rediscovers Ashby s theory of adaptive behaviour enabling a new synthesis between physiology psychology and ethology that has implications for systems practice Furthermore this new cosmology comes with a new anthropology that informs utopics the science of utopic systems and sheds new light on the actual founding fathers of the domain of human science In particular the book provides an understanding of how our human world works and how it is being constituted by utopic systems that look into the future to realize something possible Finally it points the way to the future unification of knowledge bringing together systems philosophy and systems science given that world hypothesis is what makes logically possible the development and consolidation of all the different domains of science

Red peacocks : commentaries on Burmese socialist nationalism John H. Badgley,Aye Kyaw, Two contradictory terms Preservation and

Revolution captured the mental state of Burmese leadership in the 20th century The choice of which values and customs should be preserved and which discarded has had no clear consensus yet this has been the heart of the ideological struggle among the leaders of Burma now Myanmar Providing deep insights into the Burmese socialist nationalist movement this book explains the philosophy of political revolution sanctioned by Ne Win It draws upon a body of treatises written by socialist revolutionaries that explain and justify rebellion and insurgencies against the government Finally it offers commentaries on Burmese political thought to demonstrate how contemporary Burmese political concepts are rooted in Pali antecedents from medieval dynasties

Tzafestas, 2022-09-01 Modern robots have arrived at a very matured state both in their mechanical control aspects and their mental aspects An Introduction to Robophilosophy explores the philosophical questions that arise in the development creation and use of mental anthropomorphic and zoomorphic robots that are capable of semiautonomous autonomous operation decision making and human like action being able to socially interact with humans and exhibit behavior similar to human beings or animals Coverage first presents fundamental concepts and an overview of philosophy philosophy of science and philosophy of technology The six principal mental capabilities of modern robots namely cognition intelligence autonomy consciousness conscience and ethics are then studied from a philosophical point of view They actually represent the product of technological embodiment of cognitive features to robots Overall readers are provided a consolidated thorough investigation of the philosophical aspects of these mental capabilities when embedded to robots This book will serve as an ideal educational source in engineering and robotics courses as well as an introductory reference for researchers in the field of robotics and it includes a rich bibliography

Ethics of Writing Carlo Sini, 2010-07-02 In this groundbreaking work Carlo Sini one of Italy's leading contemporary philosophers brings American pragmatism to the Milan school of phenomenology Appearing in English for the first time this book explores the constitutive role of alphabetic writing in the emergence of dominant forms of knowledge in the Western world philosophy mathematics science and historiography Taking stock of the contingent nature of what are held as logical truths he offers an ethical framework for considering different ways of thinking about writing focusing on possibilities involving practice as a basis for a renewal of theoretical philosophy Such a framework Sini argues opens the door for more productive and ethical communication with non Western cultures and indeed for a reconsideration of forms of knowledge beyond mere writing

Reinvigorating the Lost Philosophical Self Qinghai Gao, 2025-03-29 This book not only presents Gao's major philosophical views and background but also reflects our self consciousness and zeitgeist Reinvigorating the Lost Philosophical Self is the last major published work by Qinghai Gao The three parts of the book are organized around the themes of traditional reality and philosophy philosophy and innovation and man and philosophy respectively The book does not only provide a philosophical standpoint but also broaden the horizon on which the Chinese turn to themselves to the times and to the world Presently under the context of the

Covid pandemic trade war regional conflicts and economic slowdown there is an increasing risk of disruption to people's lives The book sheds some light on where we are going Coming from a Chinese philosopher Reinvigorating the Lost Philosophical Self is concerned with our destiny reflects our hardships and attempts to provide answers to our questions **The Oxford Handbook of Philosophical Methodology** Herman Cappelen, Tamar Szabó Gendler, John Hawthorne, 2016-07-07 This is the most comprehensive book ever published on philosophical methodology A team of thirty eight of the world's leading philosophers present original essays on various aspects of how philosophy should be and is done The first part is devoted to broad traditions and approaches to philosophical methodology including logical empiricism phenomenology and ordinary language philosophy The entries in the second part address topics in philosophical methodology such as intuitions conceptual analysis and transcendental arguments The third part of the book is devoted to essays about the interconnections between philosophy and neighbouring fields including those of mathematics psychology literature and film and neuroscience

Dialogues on Fundamental Questions of Science and Philosophy A. Pfeiffer, 2017-07-26 Dialogues on Fundamental Questions of Science and Philosophy presents a compilation of dialogues concerning the basic questions of science and philosophy This book discusses the relationship between philosophy and science Organized into two parts encompassing 10 chapters this book begins with an argument that reality can be recognized objectively but not that there is a conflict between science and faith This text then examines the invalidity of the causality principle in the microworld of the elementary particle and by the lack of individual identity of the particles Other chapters consider the argument that philosophy should also make use of scientific methods This book discusses as well the extended version of the biogenetical law of Haeckel which is also valid for the progress of the human perceptive faculty The final chapter deals with the argument that the idea of good as a tenet for practical actions is religious in character This book is a valuable resource for readers who are interested in the fields of science and philosophy
