state and society in the Arab World **The Future Happens Twice** Matt Browne, 2007 Debrya Handson a 33 year old professor in computational linguistics at the University of Minnesota is ready for a career change She decides to leave her academic post and move to Nevada where she joins a top secret project that is being sponsored by the American government Using powerful telescopes on the far side of the Moon the project's astronomers have discovered an Earth like planet that is eighty two light years away simultaneously a major breakthrough in bio engineering presents the project with the unique opportunity of long distance space travel At first Debrya has no idea why the study of language is to play such a central role and why twin studies are also so important During her orientation week she discovers a disturbing secret that makes her wish she had never joined the project Soon she is faced with the dilemma of revealing the dark secrets of the project or being part of the most ambitious undertaking in the history of humankind Matt Browne's beautifully worked space epic explores the bounds of human hope and plumbs the depths of human duplicity Tender relationships between the budding astronauts are pitched against the disillusion they feel when an embattled President confronts them with their true origins and purpose The author's fascination with the fields of bioengineering and information technology sustains the reader's interest all the way through this roller coaster ride The adventures continue in parts II and III of Matt Browne's thrilling trilogy *The Future Happens Twice* *Human Destiny* and *The Andromeda Encounter* *For the Future* John Calvin Harrod, 2007-11-01 In the summer of 2000 a journal was found in an undisclosed location This document records a supposed experiment by the author with time travel **Paul Ricoeur's Hermeneutics and the Discourse of Mark 13** Peter C. de Vries, 2016-12-14 The apocalyptic discourse of Mark 13 predicts that cataclysmic events will occur within the generation of Jesus contemporaries but readers today know these events have not taken place Paul Ricoeur's hermeneutics enables a reader to understand this text as a presentation of truth rather than as a failed prediction Ricoeur argues that the meaning of a text is not defined by the author's intention nor by the reader's reception but by the text itself Therefore although Mark 13 was originally understood literally today's reader is able to read it as metaphor and to discern latent meaning that is present in the text As Ricoeur explains metaphor associates previously unrelated concepts and creates new multiple meanings In doing metaphor is able to present truth not as a verifiable presentation of the world but as a novel manifestation of the world Mark 13 functions as metaphor because of a double dissonance first between the configured world of the text and the lived world of the reader and second between claim that Jesus is able to predict when the events will take place v 30 and the assertion that he is not able to do so v 32 One option for the metaphorical meaning that Mark 13 offers for today's reader is the perception of the presence of forces that challenge and subvert powers which appear to be dominant and which deceive destroy and persecute This book will appeal to two sets of readers First scholars who study New Testament apocalyptic texts and the eschatological expectations of the early church will appreciate a new approach to a challenging subject matter Second Ricoeur scholars who focus upon the religious aspects of his work will enjoy the employment of his interpretive approach on a Biblical genre that
