Architecture Follows Fish Andre Tavares,2024-10-29 A highly original exploration of the history of architecture in relation to fish shedding light on the connection between marine environments and terrestrial landscapes Architecture Follows Fish is set in the North Atlantic and its protagonist is fish In this book author and architect Andr Tavares explores the notion of fishing architecture a concept coined to describe architectural practices that are spawned by fisheries To encompass the scope of fishing architecture and to establish the connections between marine ecology and architectural practice the book oscillates between different continents centuries and species Fisheries are unique and this book sheds light on that uniqueness through an articulated narrative and a wealth of iconography Up until now there has been no history of architecture from the perspective of fish although there are counterparts for meat timber oil and many other industries Tavares provides a counternarrative to the traditional history of marine environments which tends to focus on water ecosystems and instead forms a bridge between what happens at sea and what happens on land The hope is that after reading this book readers will better understand life in the sea in relation to urban growth and terrestrial landscapes

Crafting identities Jasmine Kilburn-Toppin,2021-12-14 Crafting identities explores artisanal identity and culture in early modern London It demonstrates that the social intellectual and political status of London s crafts and craftsmen were embedded in particular material and spatial contexts Through examination of a wide range of manuscript visual and material culture sources the book investigates for the first time how London s artisans physically shaped the built environment of the

city and how the experience of negotiating urban spaces impacted directly on their distinctive individual and collective identities Applying an innovative and interdisciplinary methodology to the examination of artisanal cultures the book engages with the fields of social and cultural history and the histories of art design and architecture It will appeal to scholars of early modern social cultural and urban history as well as those interested in design and architectural history

Bibliography of Printed Works on London History to 1939 Heather Creaton,Tony Trowles,1994 The history of London is so important in national and indeed international terms it seems extraordinary that this is the first general bibliography of the subject to appear It contains over 22 000 selected references to books and articles on the history of London from the Dark Ages to the beginning of the Second World War The whole of the former GLC area plus the City is covered Arrangement is by subject and there is a substantial analytical index Material for the bibliography was collected from specialist libraries all over London and beyond It is a starting point for any enquiry about London s development over the centuries whether from the academic historian the amateur or the general enquirer A supplement is planned to cover new material on the period

The Epicure's Almanack Ralph Rylance,2012 The epicure s almanack of 1815 was the first British good food guide designed to point the reader toward places in and around London where he might dine well and to the best advantage whatever his budget Working alone and on foot Ralph Rylance visited and described some 650 establishments ranging from City chop houses ancient coaching inns and London s first Indian restaurant to humble tripe shops and oyster rooms dockyard taverns and village pubs He concluded his tour with a comprehensive account of London s markets a catalogue of merchants stocking everything from anchovy sauce to kitchen ranges and an alimentary calendar directing both cooks and diners to the best seasonal ingredients Annual updates were promised but never appeared a publishing failure in its own time the Almanack was neither continued nor reprinted and two years after publication all unsold copies were destroyed The present edition is designed to make this engaging and informative text more readily available and to provide a commentary on the book and its author and on the wider topic of eating and drinking in London at the beginning of the nineteenth century The extensive notes to the main text include brief histories of the principal establishments mentioned whenever possible making use of contemporary notices and advertisements and details from a contemporary map of London allow the reader to follow in Ralph Rylance s footsteps as he explores the city s streets

materials ecclesiastical buildings that arguably were superior to mediaeval exemplars the responses of a vital society to contemporary challenges and puts the built fabric firmly within the context of the intellectual complexities of the age Wearing his learning lightly he presents his case with grace gusto and elegance bringing the Victorian period to new life in a work which will give readers much to ponder savour and enjoy
