Biomaterials and Nanotechnology for Tissue Engineering Swaminathan Sethuraman, Uma Maheswari Krishnan, Anuradha Subramanian, 2016-10-26 Nanotechnology and high end characterization techniques have highlighted the importance of the material choice for the success of tissue engineering A paradigm shift has

been seen from conventional passive materials as scaffolds to smart multi functional materials that can mimic the complex intracellular milieu more effectively This book presents a detailed overview of the rationale involved in the choice of materials for regeneration of different tissues and the future directions in this fascinating area of materials science with specific chapters on regulatory challenges tissue engineered medical products W.H. Auden's "The Healing Fountain"
Read through A. Aviram's Theory of Poetic Rhythm Boutheina Boughnim Laarif,2018-04-18 Although Auden has often been hailed as the twentieth century s master of metre and most outstanding practitioner of traditional poetic forms his metrical art still remains a mystery as far as its real significance is concerned This book sheds new light on the enticing appeal of formal poetry which induced Auden into composing in almost every possible stanza form In order to work out a new appreciative assessment of Auden s formal art the book uses Amittai Aviram s theory of poetic rhythm which transcends the common literary critical process based on the rhetorical assessment of rhythm in poetry Aviram s theory clearly revolutionises our common methods of interpretation regarding rhythm rather than meaning as the starting point in reading poetry it is the poem s ideas and theme which express and strengthen rhythm not the other way round Such conception of rhythm as allegorized by meaning images and metaphors breathes new life into the outworn Russian formalist tradition Turning to Auden s poetry today may be said to be urged by both literary and political contexts in an age marked by uncertainties and an upsurge of violence poetry s voice regrettably reverberates less forcefully sinking into a state of formal loosening As such this book may be said to be prompted by a necessity to revive the interest in Auden s poetry especially given its recent neglect A reconsideration of Auden s conception of the nature of poetry and its status enables us to encrypt his verbal art assess its multiple effects and appreciate the metrical range that has helped the poet handle so subtly his twofold inquiry What is poetry What is its use
