Perhaps Christianity is irrelevant to where your heart is really at What if you could have an all encompassing sense that you have a loving heavenly Dad Have a sense of being enjoyed and delighted in by Him Recognize that He sees you differently than you see yourself Realize that who you are is more important to Him than what you do These four experiences are integral to biblical Christianity Discover what often stands in the way of them and how you can begin to know the heart of the Father in a deeper way as he works these realities into your life **Knowing You (Pictures of the Heart Book #3)** Tracie Peterson,2023-11-07

The famous scientist and philosopher Blaise Pascal memorably said that the heart has its reasons the mind will never know But too often it s forgotten that Pascal in referring to the heart s reasons was not talking about hunches or cozy feelings Instead he had in mind our intuitive knowledge of the first principles of number time space and motion And he believed God can be known in the same way so that belief in God has the same justification as scientific and mathematical principles Was he right In Knowing with the Heart Roy Clouser develops a broad compelling case for Pascal s position Against the current climate of religious relativism Clouser concludes that Christians are entitled to say they know God is real Written in clear and nontechnical language Knowing with the Heart is intended for believers concerned with the credentials of their faith and those who don t believe in God but are willing to investigate and reconsider **MaCheri The Heart Will Know** Jai Danglar, A Heart to Know Him Lynne

**Know Your Real Risk of Heart Attack** Warrick Bishop,2018-03-19 A number of years ago something incredible an amazing coincidence happened that started Doctor Warrick Bishop on the mission to prevent heart attacks rather than try to cure them He was driving to work one day when he stopped at a commotion by the side of the road A fun runner had collapsed during a fun run with a heart attack He helped in his resuscitation only to find out that had seen the very same man two years earlier and reassured him that he was fine Warrick had missed the chance to make a difference and it nearly cost a life Based on risk calculation and the best practice of the time he shouldn t have been at high risk but he was This important question started him on a journey which meant he was open to looking more closely at new and emerging technology to help in being more precise about the risk of heart attack What if we could PLAN NOT to have a heart attack Heart attack is a layman s term referring to a narrowing or blockage of the coronary arteries that can kill or requires some form of medical intervention such as medication time in a hospital balloons or stents or coronary artery

bypass grafting As a cardiologist I have not yet met a patient who expected to have a problem patients do not put into their diaries possible problem with my heart next week Yet what if we could be forewarned about or prepared for a potential problem with our coronary arteries What if we were able to put in place preventative measures that may avert a problem What if we were able to take away the surprise of a heart attack occurring out of the blue and replace possible fear with prepared understanding
