The Heathen In His Blindness Asia The West And The Dynamics Of Religion:

"The Heathen in His Blindness"-- S. N. Balagangadhara, 1994 This book provides novel analyses of religion the Roman religio the construction of religions in India and the nature of cultural differences It also shows how the dynamic of Christianity as a religion has brought forth the western culture **Orientalism and Religion** Richard King, 2013-04-03 Orientalism and Religion offers us a timely discussion of the implications of contemporary post colonial theory for the study of religion Richard King examines the way in which notions such as mysticism religion Hinduism and Buddhism are taken for granted He shows us how religion needs to be reinterpreted along the lines of cultural studies Drawing on a variety of post structuralist and post colonial thinkers such as Foucault Gadamer Said and Spivak King provides us with a challenging series of reflections on the nature of Religious Studies and Indology **Religion and the Specter of the West** Arvind-Pal S. Mandair, 2009-10-23 Arguing that intellectual movements such as deconstruction postsecular theory and political theology have different implications for cultures and societies that live with the debilitating effects of past imperialisms Arvind Mandair unsettles the politics of knowledge construction in which the category of religion continues to be central Through a case study of Sikhism he launches an extended critique of religion as a cultural universal At the same time he presents a portrait of how certain aspects of Sikh tradition were reinvented as religion during the late nineteenth and early twentieth centuries India's imperial elite subtly recast Sikh tradition as a sui generis religion which robbed its teachings of their political force In turn Sikhs began to define themselves as a nation and a world religion that was separate from but parallel to the rise of the Indian state and global Hinduism Rather than investigate these processes in isolation from Europe Mandair shifts the focus closer to the political history of ideas thereby recovering part of Europe's repressed colonial memory Mandair rethinks the intersection of religion and the secular in discourses such as history of religions postcolonial theory and recent continental philosophy Though seemingly unconnected these discourses are shown to be linked to a philosophy of generalized translation that emerged as a key conceptual matrix in the colonial encounter between India and the West In this riveting study Mandair demonstrates how this philosophy of translation continues to influence the repetitions of religion and identity politics in the lives of South Asians and the way the academy state and media have analyzed such phenomena

Liberalism's Religion Cécile Laborde, 2017-09-25 Cécile Laborde argues that religion is more than a statement of belief or a moral code. It refers to comprehensive ways of life, theories of justice, modes of association and vulnerable collective identities. By disaggregating these dimensions, she addresses questions about whether Western secularism and religion can be applied more universally.

Dharma Jijoy Mathew, 2025-07-27 This book responds to a critical gap in contemporary scholarship by revisiting dharma beyond the constraints of colonial and Indian nationalist reinterpretations. The book offers a postcolonial intercultural and glocal re-reading of dharma, emphasizing its multifaceted nature as it intersects with both global and local realities. By challenging the conflation of dharma with the Western category of religion, it reintroduces dharma as a concept that transcends religious boundaries, deeply relevant not only within Hinduism but also across various cultural and spiritual practices worldwide. Going beyond global interest in Indian traditions like yoga, ayurveda, and mindfulness, each drawing on the ethical and spiritual dimensions of dharma, this book provides a nuanced framework for understanding dharma in the contemporary world. It invites readers to reconsider the traditional and modern implications of dharma, recovering its richness as a guiding principle for personal, social, and global well-being. This book is an essential resource for scholars and students in religious studies, postcolonial studies, South Asian philosophy, and anyone interested in a deeper understanding of the transformative nature of dharma in a globalized world.

Liberal Education and Its Discontents Shashikala Srinivasan, 2018-08-06 What explains the peculiar trajectory of the university and liberal education in India? Can we understand the crisis in the university in terms of the idea of education underlying it? This book explores these vital questions and traces the intellectual history of the idea of education and the cluster of concepts associated with it. It probes into the cultural roots of liberal education and seeks to understand its scope, effects, and limits when transplanted into the Indian context. With an extensive analysis of the philosophical writing on the idea of university and education in the West and colonial documents on education in India, the book reconstructs the ideas of Gandhi and Tagore on education and learning as a radical alternative to the inherited European model. The author further reflects upon how we can successfully deepen liberal education in India as well as construct alternative models that will help us diversify higher learning for future generations. Lucid, extensive, and of immediate interest, this book will be useful for scholars and researchers interested in the history and philosophy of education and culture, social epistemology, ethics, postcolonial studies, cultural studies, and public policy.

Clarke, Peter Beyer, 2009-05-07 This comprehensive volume focuses on the world's religions and the changes they have undergone as they become more global and diverse in form. It explores the religions of the world not only in the regions with which they have been historically associated but also looks at the new cultural and religious contexts in which they are developing. It considers the role of migration in the spread of religions by examining the issues raised for modern societies by the increasing interaction of different religions. The volume also addresses such central questions as the dynamics of religious innovation which is evidenced in the rise and impact of new religious and new spirituality movements in every continent *Religion, Enlightenment and Empire* Jessica Patterson, 2021-12-16 In the second half of the eighteenth century several British East India Company servants published accounts of what they deemed to be the original and ancient religion of India. Drawing on what are recognised today as the texts and traditions of Hinduism these works fed into a booming enlightenment interest in Eastern philosophy. At the same time the Company's aggressive conquest of Bengal was facing a crisis of legitimacy and many of the prominent political minds of the day were turning their attention to the question of empire. In this original study Jessica Patterson situates these Company works on the Hindu religion in the twin contexts of enlightenment and empire. In doing so she uncovers the central role of heterodox religious approaches to Indian religions for enlightenment thought. East India Company policy and contemporary ideas of empire Annual Review of the Sociology of Religion Patrick Michel, Enzo Pace, 2011-08-25 The main goal of the second issue of the Annual Review of the Sociology of Religion devoted entirely to religion and politics is precisely to question the sense of a reconstruction of the mutual and simultaneous relations between these two spheres of social life. What does this process mean and where is it taking us **Annual Review of the Sociology of Religion. Volume 2 (2011)** Patrick Michel, Enzo Pace, 2011-08-26 Over the past thirty years religion has increasingly played a relevant role both on a national level and in international affairs. The attempt made by politicians to reframe the policy of social cohesion in a neo-nationalist light (one land, one language, one religion, one political community) demising any kind of multiculturalism, facilitating instead a return to assimilation shaped by fear of the other culture, religion, language and so on, is very often associated with a restoration of the primacy of religious discourse in the public sphere. It is not just a return of religion in the public sphere but the exploitation of religion by politics to reconstruct a social cohesion in the absence of ideological resources Rethinking Religion in India Esther Bloch, Marianne Keppens, Rajaram Hegde, 2009-12-24 Critically assesses recent debates about the colonial construction of Hinduism. Written by experts in their field, the chapters present historical and empirical arguments as well as theoretical reflections on the topic, offering new insights into the nature of the construction of religion in India.
