The Far Side of Forever Robert Zorich, 2013-08-20 Time Immutable Untouchable A river always streaming past us Something we can't ever turn back or fix Or can we John Gillian renowned physicist and Rebecca Harleson renaissance thinker and mathematician and their team have created the first machine capable of sending messages through infinite time and space Their invention causes shock waves throughout the world and become the target of protestors and unscrupulous politicians The possibilities for misuse are endless When the newly appointed Secretary of Technology Development takes over the project to prevent a tragedy from occurring the warnings of side effects are ignored The results are a world spinning out of control as great paradoxes are manifested around the team and their device Now only Gillian and his team can get back to the source and stop the escalating events before they unfold

The Far Side of Eden James Conaway, 2015-10-22 In the tradition of his New York Times bestseller Napa James Conaway picks up the story he began a decade ago The Far Side of Eden offers a fascinating look at the political side of the wine revolution that put California's Napa Valley on the world map Miami Herald Now Conaway reveals Napa is awash in dollars generated by the boom economy and the social ambitions it inspired The valley is beset by new arrivals determined to have vineyards of their own and by cult wine producers in thrall to fabulously expensive rocket juice cabernet sauvignon that few locals can afford while established families wish to hold on to the old ways and camp followers get caught up in the glamour of it all Conaway long known for his controversial compulsively readable social reporting here indicts the wave of new money millionaires from Silicon Valley who have brought with them gaudy displays of wealth building so called McMansions and planting vanity vineyards Los Angeles Times A cautionary tale with a seductive pull San Francisco Chronicle The Far Side of Eden takes us to the frontlines of America's ongoing conflicts over money land and power to tell a story that has ramifications for us all

The Far Side of Evil Sylvia Engdahl, 2003-03-01 On completion of her training as an agent of the interstellar federation's Anthropological Service Elana is sent to a world whose people may soon destroy their civilization Since not enough is understood about the situation to justify any interference with their evolution the Service has no power to act its agents must go as helpless observers posing as natives in the hope of gaining knowledge that may help to save other worlds This passive role proves intolerable to the young inexperienced agent assigned to the same city as Elana a city under totalitarian rule After falling in love with a local girl who has become Elana's closest friend he identifies too completely with the natives and unwittingly endangers the entire world by a well meant but ill advised attempt to intervene Forced to assume responsibility for undoing the damage Elana finds that only she at great cost can prevent an immediate war of annihilation Although this novel has the same heroine as the author's Newbery Honor book Enchantress from the Stars it is not a sequel but a completely separate and very different story not intended for readers below high school age which is also enjoyed by adults The two books are in no way dependent on each other and can be read in either order
