Gregorio, Clarence M. Batan, Sampson Lee Blair, 2023-08-10 A highly comprehensive ethnographic analysis Resilience and Familism demonstrates in a specifically Filipino context how strong familial ties can affect inner strength and outer determination *Philippine Social Sciences Review* ,2014 *Pinay on the Prairies* Glenda Tibe Bonifacio, 2013-11-15 For many Filipinos one word kumusta how are you is all it takes to forge a connection with a stranger anywhere in the world In Canada s Prairie provinces this connection has inspired community building and created both national and transnational identities for the women who identify as Pinay This book is the first to look beyond traditional metropolitan hubs of settlement to explore the migration of Filipino women in Alberta Manitoba and Saskatchewan Based on interviews with first generation immigrant Filipino women and temporary foreign workers this book explores how the shared experience of migration forms the basis for new identities communities transnational ties and multiple levels of belonging in Canada A groundbreaking look at the experience of Filipino women in Canada Bonifacio s work is simultaneously an investigation of feminism migration diaspora and the rubric of multiculturalism in a global era *The World's Youth* Benson Bradford Brown, Reed W. Larson, T. S. Saraswathi, 2002-10-10 The life stage of adolescence now occurs in most corners of the world but it takes different forms in different regions Peers with such a central role in Western adolescence play a comparatively minor role in the lives of Arabic and South Asian adolescents Emotional turmoil and individuation from family occur in some societies but not others Adolescent sexual revolutions are sweeping through Japan and Latin America In this 2002 book scholars from eight regions of the world describe the distinct nature of adolescence in their regions They draw on research to address standard topics regarding this age family and peer relationships schooling preparation for work physical and mental health and show how these have a different cast across societies As a whole the book depicts how rapid global change is dramatically altering the experience of the adolescent transition creating opportunities and challenges for adolescents parents teachers and concerned others **Cross-Border Marriages** Nicole Constable, 2010-08-03 Illuminating how

international marriages are negotiated arranged and experienced Cross Border Marriages is the first book to chart marital migrations involving women and men of diverse national ethnic and class backgrounds The migrations studied here cross geographical borders of provinces rural urban borders within nation states and international boundaries including those of China Japan South Korea India Vietnam the Philippines the United States and Canada Looking at assumptions about the connection between international marriages and poverty opportunism and women s mobility the book draws attention to ideas about global patterns of inequality that are thought to pressure poor women to emigrate to richer countries while simultaneously suggesting the limitations of such views Breaking from studies that regard the international bride as a victim of circumstance and the mechanisms of international marriage as traffic in commodified women these essays challenge any simple idea of global hypergamy and present a nuanced understanding where a variety of factors not the least of which is desire come into play Indeed most contemporary marriage scapes involve women who relocate in order to marry rarely is it the men But Nicole Constable and the volume contributors demonstrate that contrary to popular belief these brides are not necessarily poor nor do they categorically marry men who are above them on the socioeconomic ladder Although often women may appear to be moving up from a less developed country to a more developed one they do not necessarily move higher on the chain of economic resources Complicating these and other assumptions about international marriages the essays in this volume draw from interviews and rich ethnographic materials to examine women s and men s agency their motivations for marriage and the importance of familial pressures and obligations cultural imaginings fantasies and desires in addition to personal and economic factors Border crossing marriages are significant for what they reveal about the intersection of local and global processes in the everyday lives of women and men whose marital opportunities variably yield both rich possibilities and bitter disappointments *An Introduction to the Study of Social Philosophy* Rosita L.
