Civilizations Guy Ankerl,2000 Some important questions are discussed in this book Are there any civilisations other than the Western one living in our so called Global Age Eastern civilisation Is the concept of East anything more than non West Or does there exist in reality a distinct Chinese Indian Arabo Muslim and Western civilisation Is the construction of large civilisation states such as China and India an unparalleled historical achievement Do economic ties always eclipse other forms of affiliation such as those formed through kinship or between speech communities What is the role of the Latin and the Jewish Peoples in our Anglo American led Western world Is English today the global language or merely an international one Is the Chinese thought pattern closely related to its writing system Is today s world one of symmetrical interdependence

Or rather one of hegemony If the so called North South or East West dialogue fails in constructing a universally accepted world civilisation then what is the appropriate arrangement for reaching such a consensus within humankind *A History of American Poetry* Richard Gray,2015-03-30 A History of American Poetry presents a comprehensive exploration of the development of American poetic traditions from their pre Columbian origins to the present day Offers a detailed and accessible account of the entire range of American poetry Situates the story of American poetry within crucial social and historical contexts and places individual poets and poems in the relevant intertextual contexts Explores and interprets American poetry in terms of the international positioning and multicultural character of the United States Provides readers with a means to understand the individual works and personalities that helped to shape one of the most significant bodies of literature of the past few centuries **Transnational France** Tyler Stovall,2022-02-25 Now in its second edition Tyler Stovall s Transnational France takes a transnational approach to the history of modern France that draws the reader into a key aspect of France s political culture universalism Beginning with the French Revolution and its aftermath Stovall traces French history right up to the present day and examines France s relations with three other areas of the world Europe the United States and France s colonial empire The book shines a light onto both French identity and the history of the world more broadly which allows the reader to engage with French history in a much wider context This new edition features an additional chapter on France in the twenty first century that offers an analysis of current events and issues as seen through historical perspective Issues addressed include anti Semitism Islamophobia and the gilets jaunes as well as the impact of Brexit the maturation of the National Front under Marine LePen and the administration of Emmanuel Macron Giving a global view of France s history this is the perfect volume for students of modern France and French history courses
