Denton Jr.,2010-06-14 To simply say the 2008 presidential election was historic seems like an understatement The election was unique in many ways beyond

the selection of the nation's first African American as President. The drama of the election was also heightened by the historic nomination battle between Hillary Clinton and Barack Obama. The contest generated issues of race and gender throughout the campaign as did the candidacy of Sarah Palin as the Republican Vice Presidential nominee. And John McCain brought his own unique qualities to the campaign: Vietnam War hero, long-term Congressional service record, feisty temperament, and the oldest first-time presidential candidate to run for the Presidency. Thus, issues of race, gender, and age dominated the campaign both implicitly and explicitly. The candidacies of Clinton, Obama, McCain, and Palin provided the context and dynamics for charges of racism, sexism, and ageism.

Studies of Identity in the 2008 Presidential Campaign explores issues of identity politics and the presidential election. Investigating all aspects of race, gender, or ageism, the contributors to this volume address the role and function of identity politics in political campaigns and highlight challenges of identity politics in contemporary political campaigns.

Fur, Fortune, and Empire: The Epic History of the Fur Trade in America Eric Jay Dolin, 2011-07-05. A Seattle Times selection for one of Best Non-Fiction Books of 2010. Winner of the New England Historical Association's 2010 James P. Hanlan Award. Winner of the Outdoor Writers Association of America 2011 Excellence in Craft Award. Book Division First Place. A compelling and well-annotated tale of greed, slaughter, and geopolitics. Los Angeles Times. As Henry Hudson sailed up the broad river that would one day bear his name, he grew concerned that his Dutch patrons would be disappointed in his failure to find the fabled route to the Orient. What became immediately apparent, however, from the Indians clad in deer skins and good furs, was that Hudson had discovered something just as tantalizing. The news of Hudson's 1609 voyage to America ignited a fierce competition to lay claim to this uncharted continent teeming with untapped natural resources. The result was the creation of an American fur trade which fostered economic rivalries and fueled wars among the European powers and later between the United States and Great Britain as North America became a battleground for colonization and imperial aspirations. In *Fur, Fortune, and Empire*, best-selling author Eric Jay Dolin chronicles the rise and fall of the fur trade of old when the rallying cry was get the furs while they last. Beavers, sea otters, and buffalos were slaughtered, used for their precious pelts that were tailored into extravagant hats, coats, and sleigh blankets. To read *Fur, Fortune, and Empire* then is to understand how North America was explored, exploited, and settled while its native Indians were alternately enriched and exploited by the trade. As Dolin demonstrates, fur, both an economic elixir and an agent of destruction, became inextricably linked to many key events in American history, including the French and Indian War, the American Revolution, and the War of 1812, as well as to the relentless pull of Manifest Destiny and the opening of the West. This work provides an international cast beyond the scope of any Hollywood epic, including Thomas Morton, the rabble-rouser who infuriated the Pilgrims by trading guns with the Indians; British explorer Captain James Cook, whose discovery in the Pacific Northwest helped launch

America's China trade Thomas Jefferson who dreamed of expanding the fur trade beyond the Mississippi America's first multimillionaire John Jacob Astor who built a fortune on a foundation of fur and intrepid mountain men such as Kit Carson and Jedediah Smith who sliced their way through an awe inspiring and unforgiving landscape leaving behind a mythic legacy still resonates today Concluding with the virtual extinction of the buffalo in the late 1800s *Fur Fortune and Empire* is an epic history that brings to vivid life three hundred years of the American experience conclusively demonstrating that the fur trade played a seminal role in creating the nation we are today **Election Night 2016** Jane Mayer,2018-10-02 The last president election was a stunning political upset when Donald Trump a billionaire businessman won in a political coup with no experience whatsoever But along with this outsider on the night of his victory longtime conservative operator David Koch was standing and smiling amid a throng of revelers on the eve of November 8 2016 In her electrifying and much lauded bestselling book Jane Mayer reveals that the era of the Koch brothers and big money in American politics is far from over despite how much discussion there is to the contrary Rather the secret figures behind the moneyed American oligarchy continue to wield tremendous influence over the political agendas of the Trump administration the Republican Party today the radical Right and all corridors of power in Washington A Vintage Shorts Selection An ebook short *Congressional Record* ,1886 **The Presidential Campaign of Barack Obama** Dewey M. Clayton,2010-05-13 In the early twenty first century race still occupies a dominant role in American politics Despite this truism presidential candidate Barack Obama was uniquely poised to transcend both race and party as the first African American to have a realistic chance of winning the presidency Previous contenders running in the traditional mode of the Civil Rights Movement based their appeal primarily on African American voters Obama on the other hand ran a deracialized campaign in an effort to appeal to voters of different backgrounds and political parties Clayton examines how race in American politics has changed over time and offers an explanation for why Obama's candidacy offers a different roadmap for the future *The Presidential Campaign of Barack Obama* provides students of politics inside and outside of the classroom a unique opportunity to explore the institutional and structural challenges an African American faces in becoming the president of the United States This guide to major issues in Black politics and the ins and outs of the 2008 campaign provides the necessary contours for understanding how the highest elected African American official won office *The Outline of Knowledge: History of the world* James Albert Richards,1924 **The Outline of Knowledge: History of the world, by A.
