The Foundations of Modern Austrian Economics Institute for Humane Studies, 1976 Proceedings of a conference sponsored by the Institute for Humane Studies and held at Royalton College South Royalton Vt in June 1974 Includes index Bibliography p 224 227 *The foundations of modern austrian economics* Edwin G. Dolan, 1976 **The foundations of modern Austrian economics** Edwin G. Dolan, 1974 **A Search for Synthesis in Economic Theory** Ching-Yao Hsieh, S.L. Magnum, Stephen L. Mangum, 2019-09-25 First published in 1986 Since the late 1960s the seeming inability of traditional monetary and fiscal policies to combat stagflation and address other macroeconomic issues has accelerated the erosion of confidence in the prevailing economic paradigm the neoclassical synthesis Dissensions among the members of the economics profession on both sides of the Atlantic have grown in number By the 1970s a majority of economists had recognized a crisis in economic theory Parallel to this development a crisis has also emerged in the Marxian camp This volume is a discussion from the various schools of thought around three of the salient common grounds follows the theory of a monetary economy the disequilibrium foundations of a general equilibrium theory and a rekindled interest in institutional factors **Information Technology and Socialist Construction** Daniel E. Saros, 2014-05-09 The failure of command central planning in the twentieth century has led to a general disillusionment within the socialist movement worldwide Some alternatives to capitalism have been proposed since the end of the Cold War but none has offered an alternative form of economic calculation This book explains how modern information technology may be used to implement a new method of economic calculation that could bring an end to capitalism and make socialism possible In this book the author critically examines a number of socialist proposals that have been put forward since the end of the Cold War It is shown that although these proposals have many merits their inability effectively to incorporate the benefits of information technology into their models has limited their ability to solve the problem of socialist construction The final section of the book proposes an entirely new model of socialist development based on a needs profile that makes it possible to convert the needs of large numbers of people into data that can be used as a guide for resource allocation This analysis makes it possible to rethink and carefully specify the conditions necessary for the abolition of capital and consequently the requirements for socialist revolution and ultimately communist society *Information Technology and Socialist Construction* will be of interest to students and scholars of political economy the history of economic thought labour economics and industrial economics *Carl Menger* Gilles Campagnolo, 2008 In diesem Buch versuchen Forscher auf dem Gebiet der Philosophie und der Wirtschaftswissenschaften aus sterreich und Frankreich den Er rterungen Carl Mengers 1840 1921 des Begr nders der sterreichischen Schule der National konomie nachzugehen Dabei werden f r Menger wichtige und weiterhin aktuelle Themen in den Vordergrund gestellt Alle Beitr ge verfolgen ein Ziel Menger von seinen Wurzeln her zu verstehen und dazu als Quelle seinen Nachlass aus den Archiven in Japan und den USA mit heranzuziehen Dieses Buch richtet sich an alle die Menger

anhand seiner eigenen Texte lesen wollen In this volume the views of the founder of the Austrian School of economics Carl Menger 1840-1921 are clarified by various specialists Austrian and French economists and philosophers with the common purpose to understand Menger at his roots All themes including his views on liberal creeds on methodology and theory surge from a common source the archives that make up Menger's Nachlass his private library located in Japan and his notebooks in the USA This volume is intended for all those who want to read Menger in his texts **Modern Austrian Economics Vol 2**

Neoclassical Economic Theory, 1870 to 1930 Klaus Hennings, Warren J. Samuels, 2012-12-06 Warren J Samuels Each book in this series explores the present status of its field in terms of where it is how it got there the existing tensions within the field and something of how the field might develop in the future Each book presumes that work in each field is neither settled nor unequivocal Each book attempts to comprehend its field as an evolving developmental process or set of efforts This particular book covering neoclassical economics is the third of three in the field of the History of Economic Thought The others are Pre Classical Economic Thought edited by S Todd Lowry and Classical Political Economy edited by William O Thweatt Each one conducts the same kind of analysis as the others in the series with the understanding that here we are dealing with the history of interpretation rather than a substantive body of analysis of a certain aspect of the economy for example labor or international trade That understanding must be complex and subtle inasmuch as revision of interpretation of earlier ideas is part of the process both cause and consequence of re-analyzing the economy In this group we are interested in how recent and contemporary writers have interpreted the history of economic thought differently both among themselves and from earlier writers 1 NEOCLASSICAL ECONOMIC THEORY 2 Several topics must be discussed to place such work in perspective in part as it is here applied to the history of the interpretation of neoclassical economics Historical

also for European civilisation of the pursuit of truth it takes a stance which is very much against the tide of the times A heterodox perspective is also provided and defended in detail regarding the real nature of economic methodology whereby it is shown that Economics epitomises a teleological mode of explanation which is significantly different from the efficient causal modes of explanation of the natural sciences In fact Economics is the ultimate subjectivist interpretative discipline in the methodological sense of Max Weber and Alfred Schutz a fact which has only been recognised and welcomed in the Austrian school of Economics

Money, Time and Rationality in Max Weber Stephen Parsons, 2013-12-19 This unique study into the roots of Max Weber's Political Economy is an intriguing read and a valuable contribution to the Weberian literature Parsons argues that Weber's analysis is highly influenced by the Austrian School of Economics and the relationship between his critique of centrally planned economies and that of Mises Review of Austrian Economics, Volume 2

Rothbard, 1990 **Economics, Evolution and the State** Kurt Dopfer, 2005-01-01 This book focuses on the emerging field of evolutionary economic policy highlighting the interface between the state markets and the evolutionary complexity of modern economies The contributors explore the possibilities and limitations of governance and provide a unique platform for the advancement of modern evolutionary economic theory
