Holt, 2021-01-04 The civil rights movement was among the most important historical developments of the twentieth century and one of the most remarkable mass movements in American history Not only did it decisively change the legal and political status of African Americans but it prefigured as well the moral premises and methods of struggle for other historically oppressed groups seeking equal standing in American society And yet despite a vague sometimes begrudging recognition of its immense import more often than not the movement has been misrepresented and misunderstood For the general public a singular moment frozen in time at the Lincoln Memorial sums up much of what Americans know about that remarkable decade of struggle In The Movement Thomas C Holt provides an informed and nuanced understanding of the

origins character and objectives of the mid twentieth century freedom struggle privileging the aspirations and initiatives of the ordinary grassroots people who made it Holt conveys a sense of these developments as a social movement one that shaped its participants even as they shaped it He emphasizes the conditions of possibility that enabled the heroic initiatives of the common folk over those of their more celebrated leaders This groundbreaking book reinserts the critical concept of movement back into our image and understanding of the civil rights movement Freedom's Orator Robert Cohen, 2009-08-27 Here is the first biography of Mario Savio the brilliant leader of Berkelev's Free Speech Movement the largest and most disruptive student rebellion in American history Savio risked his life to register black voters in Mississippi in the Freedom Summer of 1964 and did more than anyone to bring daring forms of non violent protest from the civil rights movement to the struggle for free speech and academic freedom on American campuses Drawing upon previously unavailable Savio papers as well as oral histories from friends and fellow movement leaders Freedom's Orator illuminates Mario s egalitarian leadership style his remarkable eloquence and the many ways he embodied the youthful idealism of the 1960s The book also narrates for the first time his second phase of activism against Reaganite Imperialism in Central America and the corporatization of higher education Including a generous selection of Savio's speeches Freedom's Orator speaks with special relevance to a new generation of activists and to all who cherish the 60s and democratic ideals for which The Civil Rights Movement Thomas C. Holt, 2023 The Civil Rights Movement was among the Savio fought so selflessly most important historical developments of the twentieth century and one of the most remarkable mass movements in American history In this Very Short Introduction Thomas C Holt provides an informed and nuanced understanding of the origins character and objectives of the mid twentieth century freedom struggle re centering the narrative around the mobilization of ordinary people Social Controversy and Public Address in the 1960s and Early 1970s Richard J. Jensen, 2017-10-01 The period between the 1960s and 1970s is easily one of the most controversial in American history Examining the liberal movements of the era as well as those that opposed them this volume offers analyses of the rhetoric of leaders including those of the civil rights movement the Chicano movement the gay rights movement second wave feminism and conservative resistance groups It also features an introduction that summarizes much of the significant research done by communication scholars on dissent in the 1960s and 1970s This time period is still a fertile area of study and this book provides insights into the era that are both provocative and illuminating making it an essential read for anyone looking to learn more about this time in America **Higher Education for All** Andrew Stone Higgins, 2023-03-16 The 1960 California Master Plan for Higher Education remains to this day the largest and most ambitious attempt to provide free universal college education in the United States Yet the Master Plan the product of committed Cold War liberals unfortunately served to reinforce the very class based exclusions and de facto racism that plaqued K 12 education in the nation's largest and most diverse state In doing so it inspired a wave of student and faculty organizing that not only forced administrators and

politicians to live up to the original promise of the Master Plan quality higher education for all but changed the face of California itself Higher Education for All is the first and only comprehensive account of the California Master Plan Through deep archival work and sharp attention to a fascinating cast of historical characters Andrew Stone Higgins has excavated the forgotten history of the Master Plan from its origins in the 1957 Sputnik Crisis through Governor Ronald Reagan's financial starvation and his failed quest to introduce tuition to the student struggle to institute affirmative action in university Going to Hell to Get the Devil J. Christopher Schutz, David Goldfield, 2024-03-20 The 1968 burning of the Lazy B Stables in Charlotte North Carolina attracted little notice beyond coverage in local media By the mid 1970s however the fire had become the center of a contentious and dubious arson case against a trio of Black civil rights activists who became known as the Charlotte Three The charges against the men garnered interest from federal law enforcement agents investigative journalists including one who later earned a Pulitzer Prize for coverage of the trials numerous New Left and Black Power activists and Amnesty International which declared the defendants political prisoners In Going to Hell to Get the Devil J Christopher Schutz offers the first comprehensive examination of this controversial case and its outcome In the 1960s and 1970s Charlotte's leaders sought to portray their home as a placid business friendly and racially moderate community When New Left and Black Power activists threatened that stability city leaders employed a variety of means to silence them including the use of law enforcement against African Americans they deemed too zealous In the Charlotte Three case prosecutors paid prisoners for testimony against the Black activists on trial resulting in their convictions with lengthy prison sentences The unwanted publicity surrounding the case of the Charlotte Three became a critical pivot point in the Queen City s post World War II trajectory Going to Hell to Get the Devil tells more than the story of an arson case it also tells the story of the South's future as the fate of the Charlotte Three became emblematic of the decline of the African American freedom struggle and the causes it championed The Gold and the Blue, Volume Two Clark Kerr, 2003-02-24 The Los Angeles Times called the first volume of The Gold and the Blue a major contribution to our understanding of American research universities This second of two volumes continues the story of one of the last century s most influential figures in higher education A leading visionary architect leader and fighter for the University of California Clark Kerr was chancellor of the Berkeley campus from 1952 to 1958 and president of the university from 1958 to 1967 He saw the university through its golden years a time of both great advancement and great conflict This absorbing memoir is an intriguing insider s account of how the University of California rose to the peak of scientific and scholarly stature and how under Kerr's unique leadership it evolved into the institution it is today In Volume II Political Turmoil Kerr turns to the external and political environment of the 1950s and 1960s contrasting the meteoric rise of the University of California to the highest pinnacle of academic achievement with its troubled political context He describes his attempts to steer a middle course between attacks from the political Right and Left and discusses the continuing attacks on the university and on him personally by the state Un American Activities

Committee He provides a unique point of view of the Free Speech Movement on the Berkeley campus in the fall of 1964 He also details the events of January 1967 when he was dismissed as president of the university by the Board of Regents The Essential Mario Savio Robert Cohen, 2014-09 The Free Speech Movement in Berkeley California was pivotal in shaping 1960s America Led by Mario Savio and other young veterans of the civil rights movement student activists organized what was to that point the most tumultuous student rebellion in American history Mass sit ins a nonviolent blockade around a police car occupations of the campus administration building and a student strike united thousands of students to champion the right of students to free speech and unrestricted political advocacy on campus This compendium of influential speeches and previously unknown writings offers insight into and perspective on the disruptive yet nonviolent civil disobedience tactics used by Savio The Essential Mario Savio is the perfect introduction to an American icon and to one of the most important social movements of the post war period in the United States Women Who Invented the Sixties Steve Golin, 2022-09-20 While there were many protests in the 1950s against racial segregation economic inequality urban renewal McCarthyism and the nuclear buildup the movements that took off in the early 1960s were qualitatively different They were sustained not momentary they were national not just local they changed public opinion rather than being ignored Women Who Invented the Sixties tells the story of how four women helped define the 1960s and made a lasting impression for decades to follow In 1960 Ella Baker played the key role in the founding of the Student Nonviolent Coordinating Committee which became an essential organization for students during the civil rights movement and the model for the antiwar and women s movements In 1961 Jane Jacobs published The Death and Life of Great American Cities changing the shape of urban planning irrevocably In 1962 Rachel Carson published Silent Spring creating the modern environmental movement And in 1963 Betty Friedan wrote The Feminine Mystigue which sparked second wave feminism and created lasting changes for women Their four separate interventions helped together to end the 1950s and invent the 1960s Women Who Invented the Sixties situates each of these four women in the 1950s Baker's early activism with the NAACP and the Southern Christian Leadership Conference Jacobs s work with Architectural Forum and her growing involvement in neighborhood protest Carson s conservation efforts and publications and Friedan's work as a labor journalist and the discrimination she faced before exploring their contributions to the 1960s and the movements they each helped shape The Long Sixties Christopher B.
