The French Budgetary Process:

The French Budgetary Process Guy Lord, 2023-04-28 Budget Processes and Commitment to Fiscal Discipline
International Monetary Fund, 1996-07-01 This paper develops a political economy model of the budget process focusing on the common pool problem of the public budget We show that the externality arising from the fact that public spending tends to be targeted at individual groups in society while the tax burden is widely dispersed creates a bias towards excessive expenditures and debt This bias can be reduced by introducing elements of centralization in the budget process that is institutional structures that strengthen a comprehensive view of the budget over the particularistic view of the spending ministers and the members of parliament Using examples from EC countries we show how budget processes lack or possess such elements We then present empirical evidence supporting the claim that centralizing elements reduce the deficit bias The last section concludes with models for reform of the budget process *Budgeting* Aaron B. Wildavsky, 1986-01-01 In this completely revised edition of his classic work Aaron Wildavsky collects in one place the existing knowledge on budgeting Realistic budgets are an expression of practical politics Budgeting is so basic it reveals the norms by which men live in a particular political culture In dealing directly with the universe of governmental activity Wildavsky uses reliable accounts of how budgeting is carried on to capture a great deal of national political life The focus is explicitly comparative After developing a general theory of budgeting he analyzes four rich countries Britain France Japan and the United States followed by poor countries American cities and American states Wildavsky uses this analysis to develop and apply a cultural theory of budgeting explaining the degree of balance between revenue and expenditure why government grows in all industrial democracies and why there are still different rates of growth in spending He offers a critical evaluation of the first edition linking the ability of nations to make history and the various strategies of change they adopt to explain a wider range of budgetary processes **Comparative Studies of Policy Agendas** Frank R. Baumgartner, Christoffer Green-Pedersen, Bryan D. Jones, 2013-09-13 Previously published as a special issue of the Journal of European Public Policy this book draws on the insights of the existing literature on agenda setting and policy changes to explore the dynamics of attention allocation and its consequences Attention is a crucial variable in understanding modern politics Shifts in attention have dramatic consequences for both politics and policy decisions This volume includes case studies of nine different political systems including the US Canada several European systems and the EU itself It asks the following questions Which are the dynamics of agenda setting in the EU Which role do political parties play in attention allocation What are the cross national differences in attention to health care What role does science and expertise play in attention allocation What are the effects of political institutions Comparative Studies of Policy Agendas will be of interest to students and scholars of policy analysis and public policy Global Encyclopedia of Public Administration, Public Policy, and Governance Ali Farazmand, 2023-04-05 This global encyclopedic work serves as a comprehensive collection of global scholarship regarding the vast fields of public
