The Frenchspeaking Reformed Community Their Church In Southampton 15671620:

Refugees in an Age of Genocide Katharine Knox, Tony Kushner, 2012-10-12 This is a study of the history of global refugee movements over the 20th century ranging from east European Jews fleeing Tsarist oppression at the turn of the century to asylum seekers from the former Zaire and Yugoslavia Recognizing that the problem of refugees is a universal one the authors emphasize the human element which should be at the forefront of both the study of refugees and responses to them

The battle of Britishness Tony Kushner, 2017-10-03 This pioneering study of migrant journeys to Britain begins with Huguenot refugees in the 1680s and continues to asylum seekers and east European workers today Analyzing the history and memory of migrant journeys covering not only the response of politicians and the public but also literary and artistic representations then and now Kushner s volume sheds new light on the nature and construction of Britishness from the early modern era onwards It is an essential tool for those wanting to understand why people come to Britain or are denied entry and how migrants have been viewed by state and society alike The journeys covered vary from the famous including the Empire Windrush in 1948 to the obscure such as the Volga German transmigrants passing through Britain in the 1870s While employing a broadly historical approach Kushner incorporates insights from many other disciplines and employs a comparative methodology to highlight the importance of the symbolic as well as the physical nature of such journeys

Gated Communities? Anne Winter, 2016-04-15 Contrary to earlier views of preindustrial Europe as an essentially sedentary society research over the past decades has amply demonstrated that migration was a pervasive characteristic of early modern Europe In this volume the theme of urban migration is explored through a series of historical contexts journeying from sixteenth century Antwerp Ulm Lille and Valenciennes through seventeenth century Berlin Milan and Rome to eighteenth century Strasbourg Trieste Paris and London Each chapter demonstrates how the presence of diverse and often temporary groups of migrants was a core feature of everyday urban life which left important marks on the demographic economic social political and cultural characteristics of individual cities The collection focuses on the interventions by urban authorities and institutions in a wide ranging set of domains as they sought to stimulate channel and control the newcomers movements and activities within the cities and across the cities borders While striving for a broad geographical and chronological coverage in a comparative perspective the volume aims to enhance our insight into the different factors that shaped urban migration policies in different European settings west of the Elbe By laying bare the complex interactions of actors interests conflicts and negotiations involved in the regulation of migration the case studies shed light on the interrelations between burghership guilds relief arrangements and police in the incorporation of newcomers and in shaping the shifting boundaries between wanted and unwanted migrants By relating to a common analytical framework presented in the introductory chapter they engage in a comparative discussion that allows for the formulation of general insights and the identification of long term transformations that transcend the time and place specificities of the case studies in question The

introduction and final chapters connect insights derived from the individual case study chapters to present wide ranging conclusions that resonate with both historical and present day debates on migration *Beyond Calvin* Graeme Murdock, 2017-03-14 An international community of Reformed churches emerged during the sixteenth century Although attempts were made by Calvinists to reach agreement over key beliefs and to establish uniformity in patterns of worship and church government there were continuing divisions over some ideas and differences between local practices of moral discipline and religious life However Reformed intellectuals developed common ideas about rights of resistance against tyrants communities prayed fasted and donated money to aid brethren in distress and many Calvinists across the Continent developed a strong sense of collective identity *Beyond Calvin* considers the Reformed churches of Europe in an international and comparative context from around 1540 to 1620 Graeme Murdock Discusses how Calvinism operated as an international movement by looking at links between Reformed churches communities and states Explains what Reformed churches across the Continent stood for Focuses on how Calvinists sought to purify the practice of Christian religion and to renew European politics society and culture Examines both the strengths and limits of the international Reformed community **Early Modern Kent, 1540-1640** Michael Zell, 2000 Early Modern Kent offers an accessible but scholarly introduction to the country's history during a century of extraordinary change **BOOK JACKET** **Gated Communities?** Dr Anne Winter, Professor Bert De Munck, 2013-07-28 Contrary to earlier views of preindustrial Europe as an essentially sedentary society research over the past decades has amply demonstrated that migration was a pervasive characteristic of early modern Europe In this volume the theme of urban migration is explored through a series of historical contexts journeying from sixteenth century Antwerp Ulm Lille and Valenciennes through seventeenth century Berlin Milan and Rome to eighteenth century Strasbourg Trieste Paris and London Each chapter demonstrates how the presence of diverse and often temporary groups of migrants was a core feature of everyday urban life which left important marks on the demographic economic social political and cultural characteristics of individual cities The collection focuses on the interventions by urban authorities and institutions in a wide ranging set of domains as they sought to stimulate channel and control the newcomers movements and activities within the cities and across the cities borders While striving for a broad geographical and chronological coverage in a comparative perspective the volume aims to enhance our insight into the different factors that shaped urban migration policies in different European settings west of the Elbe By laying bare the complex interactions of actors interests conflicts and negotiations involved in the regulation of migration the case studies shed light on the interrelations between burghership guilds relief arrangements and police in the incorporation of newcomers and in shaping the shifting boundaries between wanted and unwanted migrants By relating to a common analytical framework presented in the introductory chapter they engage in a comparative discussion that allows for the formulation of general insights and the identification of long term transformations that transcend the time and place specificities of the case studies in question The

Oldenburg, 2014-01-01 Using both canonical and underappreciated texts Alien Albion argues that early modern England was far less unified and xenophobic than literary critics have previously suggested Juxtaposing literary texts from the period with legal religious and economic documents Scott Oldenburg uncovers how immigrants to England forged ties with their English hosts and how those relationships were reflected in literature that imagined inclusive multicultural communities Through discussions of civic pageantry the plays of dramatists including William Shakespeare Thomas Dekker and Thomas Middleton the poetry of Anne Dowriche and the prose of Thomas Deloney Alien Albion challenges assumptions about the origins of English national identity and the importance of religious class and local identities in the early modern era **Proceedings**

of the Huguenot Society of Great Britain and Ireland Huguenot Society of Great Britain and Ireland, 1998 *Scholars of Early Modern Studies*, 1995 **Les traités monarchomaques** Paul-Alexis Mellet, 2007 Depuis la thèse de droit de

Madeleine Marabuto 1967 aucune étude générale n'a été consacrée aux Monarchomaques dans l'historiographie française Cet ouvrage vient donc combler une lacune Pierre Alexis Mellet part de l'invention du terme de monarchomaque en 1600 par William Barclay Mesurant son intention politique il dissocie le mot de son étymologie tueur de roi destructeur de la monarchie pour lui conférer un sens précis le monarchomaque est l'auteur calviniste qui dans les guerres de religion fait valoir le rejet de la tyrannie l'obéissance conditionnelle la double alliance qui se distingue du contrat social la souveraineté du peuple mais sans représentation des républiques modernes et surtout la résistance armée légitime Ce dernier critère est central car il permet de redéfinir la guerre juste pour finalement justifier l'appel aux princes étrangers Une dizaine de textes traités importants ou simples pamphlets anonymes ou signés latins ou français correspondent chacun de ces critères Ils ont tous été publiés entre 1567-68 et 1579 puis souvent réédités et traduits jusqu'en 1600 dans un contexte de guerres et de tensions politiques et religieuses en Europe Y figurent notamment la Question politique de Jean de Coras la Franco Gallia de François Hotman le Droit des magistrats sur leurs sujets de Théodore de Bèze les Vindiciae contra tyrannos de Junius Brutus et le Reveille matin des Français d'Eusèbe Cosmopolite Est-ce à dire que ces auteurs sont des Monarchomaques Après une longue discussion des arguments qu'ils utilisent de la circulation de leurs ouvrages en Europe des sources bibliques et historiques qu'ils invoquent et de la comparaison avec leurs autres critères il s'avère préférable de parler de traités monarchomaques plutôt que d'auteurs monarchomaques *Historical Abstracts*, 1996 Vols 17-18 cover 1775-1914 *De opmaat tot de Opstand*

een groot deel van Walcheren onder het gezag van Oranje gebracht Daarna barstte ook de strijd om de overige eilanden los In dit boeiende verhaal gaat de aandacht vooral uit naar de steden die een keuze moesten maken tussen trouw aan het centraal gezag en aansluiting bij de opstandelingen Clasiën Rooze beschrijft welke factoren doorslaggevend waren en wat dit voor de binnenstedelijke verhoudingen betekende Ook onderzoekt zij het belang van Zeeland voor Oranje en voor de West Europese zeemogendheden
