James G. Cusick, 2015-03-05 People have long been fascinated about times in human history when different cultures and

**The Medieval Frontiers of Latin Christendom** Felipe Fernandez-Armesto, 2017-05-15 The aim of this first volume in the series The Expansion of Latin Europe is to sketch the outlines of medieval expansion illustrating some of the major topics that historians have examined in the course of demonstrating the links between medieval and modern experiences The articles reprinted here show that European expansion began not in 1492 following Columbus's voyages but earlier as European Christian society re arose from the ruins of the Carolingian Empire The two phases of expansion were linked but the second period did not simply replicate the medieval experience Medieval expansion occurred as farmers merchants and missionaries reduced forests to farmland and pasture created new towns and converted the peoples encountered along the frontiers to Christianity Later colonizers subsequently adapted the medieval experience to suit their new frontiers in the New World      *Colonial frontiers* Lynette Russell, 2017-03-01 Cross cultural encounters produce boundaries and frontiers This book explores the formation structure and maintenance of boundaries and frontiers in settler colonies The southern nations of Australia New Zealand and South Africa have a common military heritage as all three united to fight for the British Empire during the Boer and First World Wars The book focuses on the southern latitudes and especially Australia and Australian historiography Looking at cross cultural interactions in the settler colonies the book illuminates the formation of new boundaries and the interaction between settler societies and indigenous groups It contends that the frontier zone is a hybrid space a place where both indigene and invader come together on land that each one believes to be their own The best way to approach the northern Cape frontier zone is via an understanding of the significance of the frontier in South African history The book explores some ways in which discourses of a natural prehistoric Aboriginality inform colonial representations of the Australian landscape and its inhabitants both indigenous and immigrant The missions of the London Missionary Society LMS

in Polynesia and Australia are examined to explore the ways in which frontiers between British and antipodean cultures were negotiated in colonial textuality The role of the Treaty of Waitangi in New Zealand society is possibly the most important and controversial issue facing modern New Zealanders The book also presents valuable insights into sexual politics Aboriginal sovereignty economics of Torres Strait maritime and nomadism **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1978 "The Touch of Civilization" Steven Sabol,2017-03-15 The Touch of Civilization is a comparative history of the United States and Russia during their efforts to colonize and assimilate two indigenous groups of people within their national borders the Sioux of the Great Plains and the Kazakhs of the Eurasian Steppe In the revealing juxtaposition of these two cases author Steven Sabol elucidates previously unexplored connections between the state building and colonizing projects these powers pursued in the nineteenth century This critical examination of internal colonization a form of contiguous continental expansion imperialism and colonialism that incorporated indigenous lands and peoples draws a corollary between the westward moving American pioneer and the eastward moving Russian peasant Sabol examines how and why perceptions of the Sioux and Kazakhs as ostensibly uncivilized peoples and the Northern Plains and the Kazakh Steppe as uninhabited regions that ought to be settled reinforced American and Russian government sedentarization policies and land allotment programs In addition he illustrates how both countries encountered problems and conflicts with local populations while pursuing their national missions of colonization comparing the various forms of Sioux and Kazakh martial political social and cultural resistance evident throughout the nineteenth century Presenting a nuanced in depth history and contextualizing US and Russian colonialism in a global framework The Touch of Civilization will be of significant value to students and scholars of Russian history American and Native American history and the history of colonization *Herbert E. Bolton and the Historiography of the Americas* Russell Magnaghi,1998-08-20 The comparative approach to the understanding of history is increasingly popular today This study details the evolution of comparative history by examining the career of a pioneer in this area Herbert E Bolton who popularized the notion that hemispheric history should be considered from pole to pole Bolton traced the study of the history of the Americas back to 16th century European accounts of efforts to bring civilization to the New World and he argued that only within this larger context could the histories of individual nations be understood After American entry into the Spanish American War in 1898 historians such as Bolton promoted the idea of comparative history and it remains to this day a significant historiographical approach Consideration of the history of the Americas as a whole dates back to 16th century European treatises on the New World Chapter one of this study provides an overview of pre Bolton formulations of such history In chapter two one sees the forces that shaped Bolton s thinking and brought about the development of the concept Chapters three and four focus upon the evolution of the approach through Bolton s history course at the University of California at Berkeley and the reception of the concept among Bolton s contemporaries Unfortunately Bolton never fully developed the theoretical side of his argument

thus chapter five chronicles the decline of his ideas after his death The final chapter reveals the survival of the concept which is now embraced by a new generation of historians who are largely unfamiliar with Bolton s instrumental role in the promotion of comparative history

**Boundaries, Borders and Frontiers in Archaeology** Bryan Feuer,2016-02-17 Until fairly recently archaeological research has been directed primarily toward the centers of societies rather than their perimeters Yet frontiers and borders precisely because they are peripheral promote interaction between people of different polities and cultures with a wide range of potential outcomes Much work has begun to redress this disparity of focus Drawing on contemporary and ethnographic accounts historical data and archaeological evidence this book covers more than 30 years of research on boundaries borders and frontiers beginning with The Northern Mycenaean Border in Thessaly in 1983 The author discusses various theoretical and methodological issues concerning peripheries as they apply to the archaeological record Political economic social and cultural processes in border and frontier zones are described in detail Three case study societies are examined China Rome and Mycenaean Greece

**The Dynamics of Agricultural Change** David Grigg,2019-08-06 First published in 1982 Until the nineteenth century the history of agriculture was the history of mankind but it has not perhaps received the wide attention that this importance justifies In this study the author reviews for the student of agricultural history successive attempts to describe and explain agricultural changes that are not specific to a limited area or a particular time In a sense The Dynamics of Agricultural Change is a systematic historical geography of agriculture Some of the models the author explores have been developed within agricultural history some drawn from other disciplines can be applied fruitfully to it What is the relationship between population growth and agricultural development Between environmental changes and those in agriculture What was the effect of the industrial revolution And has there been an agricultural revolution This book suggests to university students of economic history historical geography and agriculture a number of stimulating ways of interpreting and reinterpreting agricultural history

*Massacre at Sand Creek* Gary L. Roberts,2016-05-03 Sand Creek At dawn on the morning of November 29 1864 Colonel John Milton Chivington gave the command that led to slaughter of 230 peaceful Cheyennes and Arapahos primarily women children and elderly camped under the protection of the U S government along Sand Creek in Colorado Territory and flying both an American flag and a white flag The Sand Creek massacre seized national attention in the winter of 1864 1865 and generated a controversy that still excites heated debate more than 150 years later At Sand Creek demoniac forces seemed unloosed so completely that humanity itself was the casualty That was the charge that drew public attention to the Colorado frontier in 1865 That was the claim that spawned heated debate in Congress two congressional hearings and a military commission Westerners vociferously and passionately denied the accusations Reformers seized the charges as evidence of the failure of American Indian policy Sand Creek launched a war that was not truly over for fifteen years In the first year alone it cost the United States government 50 000

000 Methodists have a special stake in this story The governor whose policies led the Cheyennes and Arapahos to Sand Creek was a prominent Methodist layman Colonel Chivington was a Methodist minister Perhaps those were merely coincidences but the question also remains of how the Methodist Episcopal Church itself responded to the massacre Was it also somehow culpable in what happened It is time for this story to be told Coming to grips with what happened at Sand Creek involves hard questions and unsatisfactory answers not only about what happened but also about what led to it and why It stirs ancient questions about the best and worst in every person questions older than history questions as relevant as today's headlines questions we all must answer from within

*Rome and the Barbarians, 100 B.C.-A.D. 400* Thomas S. Burns, 2009-07-06 This historical analysis of Roman Barbarian relations from the Republic into late antiquity offers a striking new perspective on the fall of the Empire The barbarians of antiquity often portrayed simply as the savages who destroyed Rome emerge in this colorful richly textured history as a much more complex factor in the expansion and eventual unmaking of the Roman Empire Thomas S Burns marshals an abundance of archeological and literary evidence to bring forth a detailed and wide ranging account of the relations between Romans and non Romans along the frontiers of western Europe Looking at a 500 year time span beginning with early encounters between barbarians and Romans around 100 B C and ending with the spread of barbarian settlement in the western Empire Burns reframes the barbarians as neighbors friends and settlers His nuanced history subtly shows how Rome's relations with the barbarians slowly evolved from general ignorance hostility and suspicion toward tolerance synergy and integration This long period of acculturation led to a new Romano barbarian hybrid society and culture that anticipated the values and traditions of medieval civilization
