The sixties were a time when radical movements learned to embrace twentieth century Marxism Revolution in the Air is the definitive study of this turning point and examines what the resistance of today can learn from the legacies of Lenin Mao and Che It tells the story of the new communist movement which was the most racially integrated and fast growing movement on the Left Thousands of young activists radicalized by the Vietnam War and Black Liberation and spurred on by the Puerto Rican Chicano and Asian American movements embraced a Third World oriented version of Marxism These admirers of Mao Che and Amilcar Cabral organized resistance to the Republican majorities of Nixon and Ford By the 1980s these groups had either collapsed or become tiny shards of the dream of a Maoist world revolution Taking issue with the idea of a division between an early good sixties and a later bad sixties Max Elbaum is particularly concerned to reclaim the lessons of the new communist movement for today's activists who like their sixties predecessors are coming of age at a time when the Left lacks mass support and is fragmented along racial lines With a new foreword by Alicia Garza cofounder of BlackLivesMatter

Anthony Painter, 2013-07-11 The roots of the recent financial crisis can be found in the substantial changes which have affected British economy and society over the last three decades In economic terms the UK has transformed from a predominantly industrial to one led by services and creative industries whilst society has also become

less industrial with new class networks emerging Post war Social Democracy in its original form as advocated by Tony Crosland relied heavily on an industrial economy and society A central statist ideal oriented version of Social Democracy can only go so far in the post crash economy and society hence the ease with which many of New Labour s reforms and resource allocation have since been reversed by the Conservative Liberal Democrat coalition The centre left has always been at its strongest when building new long term institutions such as the NHS expanding higher education establishing the national minimum wage and increasing access to national parks Anthony Painter here argues that this institution building tradition is the one to which the left should return He advocates new economic social and cultural policies which provide a manifesto for the future development of Social Democracy and centre left institutions in Britain

Beyond Left and Right Anthony Giddens,2013-08-23 How should one understand the nature and possibilities of political radicalism today The political radical is normally thought of as someone who stands on the left opposing backward looking conservatism In the present day however the left has turned defensive while the right has become radical advocating the free play of market forces no matter what obstacles of tradition or custom stand in their way What explains such a curious twist of perspective In answering this question Giddens develops a new framework for radical

politics drawing freely on what he calls philosophic conservatism but applying this outlook in the service of values normally associated with the Left The ecological crisis is at the core of this analysis but is understood by Giddens in an unconventional way as a response to a world in which modernity has run up against its limits as a social and moral order The end of nature as an entity existing independently of human intervention and the end of tradition combined with the impact of globalization are the forces which now have to be confronted made use of and coped with This book provides a powerful interpretation of the rise of fundamentalism of democracy the persistence of gender divisions and the question of a normative political theory of violence It will be essential reading for anyone seeking a novel approach to the political challenges which we face at the turn of the twenty first century

The Hard Road to Renewal Stuart Hall, 2021-08-03 Stuart Hall's writings on the political impact of Margaret Thatcher have established him as the most prescient and insightful analyst of contemporary Conservatism Collected here for the first time with a new introduction these essays show how Thatcher has exploited discontent with Labour's record in office and with aspects of the welfare state to devise a potent authoritarian populist ideology Hall's critical approach is elaborated here in essays on the formation of the SDP inner city riots the Falklands War and the significance of Antonio Gramsci He suggests that Thatcherism is skillfully employing the restless and individualistic dynamic of consumer capitalism to promote a swingeing programme of regressive modernization *The Hard Road to Renewal* is as concerned with elaborating a new politics for the Left as it is with the project of the Right Hall insists that the Left can no longer trade on inherited politics and tradition Socialists today must be as radical as modernity itself Valuable pointers to a new politics are identified in the experience of feminism the campaigns of the GLC and the world wide response to Band Aid

new left actors through the lens of a maturation of consciousness rather than the opening of structural or other windows of opportunity suggesting the potential for such actors to emerge stemmed from the exposure of a segment of the populace to critical ideas Questions surrounding the relevance of different types of knowledge in contemporary movements their origins dissemination and the organizational factors shaping their adoption within social movement collectives are central to this work as the author digs into the intricate relationship between critical knowledge and activism explores the cognitive underpinnings of critical social and political engagement and examines the influence of both non theoretical and theoretical knowledge This book will be of great value to postgraduate students and scholars in social sciences particularly those studying social movements and Eastern and Southeastern European politics
