## **The Gaping Pig Literature And Metamorphosis:**

**The Gaping Pig** Irving Massey,1974      Seneca John G. Fitch,2008-02-07 Seneca was a man of many facets statesman dramatist philosopher prose stylist His life was marked by extremes of fortune extremes that are reflected in much of his writing and in the vicissitudes of his reputation in later centuries This volume brings together some outstanding essays written about him over the past four decades and illustrates the diversity of approaches by which modern critics have attempted to understand this multifaceted figure Just as Seneca s writings often reflect his times so current critical approaches often reflect issues in contemporary thought and society Several of the essays have been revised by their authors for this volume and two of them are translated for the first time A new introduction places the articles within the context of recent academic thought and criticism All Latin has been translated      **The Dream of the North** Peter

Fjagesund,2014-05-10 Northern Europe and North America have dominated the world stage for more than two centuries Using a wide range of sources this book provides the first coherent account from a multi national perspective of the ideas and perceptions that from the Renaissance onwards fuelled the North s rise to prominence and enabled it to rival the traditional cultural and political hegemony of the South This includes not only the fascinating conquest of the polar regions but also the religious upheaval of the Reformation the changing view of nature engendered by Romanticism and not least the revival of ancient Nordic and Celtic culture Finally the book offers an indispensable historical background to current events in the Far North where the past and the future meet in a complex web of dramatic environmental concerns the exploitation of natural resources and the strategies of politics and commerce      An Anatomy of Literary Nonsense Wim Tigges,2022-07-04

**Discourse, Knowledge, and Power in Apuleius' Metamorphoses** Evelyn Adkins,2022-05-23 In ancient Rome where literacy was limited and speech was the main medium used to communicate status and identity face to face in daily life an education in rhetoric was a valuable form of cultural capital and a key signifier of elite male identity To lose the ability to speak would have caused one to be viewed as no longer elite no longer a man and perhaps even no longer human We see such a fantasy horror story played out in the Metamorphoses or The Golden Ass written by Roman North African author orator and philosopher Apuleius of Madauros the only novel in Latin to survive in its entirety from antiquity In the novel s first person narrative as well as its famous inset tales such as the Tale of Cupid and Psyche the Metamorphoses is invested in questions of power and powerlessness truth and knowledge and communication and interpretation within the pluralistic but hierarchical world of the High Roman Empire ca 100 200 CE Discourse Knowledge and Power presents a new approach to the Metamorphoses it is the first in depth investigation of the use of speech and discourse as tools of characterization in Apuleius novel It argues that discourse broadly defined to include speech silence written text and nonverbal communication is the primary tool for negotiating identity status and power in the Metamorphoses Although it takes as its starting point the role of discourse in the characterization of literary figures it contends that the process we see in the Metamorphoses reflects

the real world of the second century CE Roman Empire Previous scholarship on Apuleius novel has read it as either a literary puzzle or a source text for social philosophical or religious history In contrast this book uses a framework of discourse analysis an umbrella term for various methods of studying the social political functions of discourse to bring Latin literary studies into dialogue with Roman rhetoric social and cultural history religion and philosophy as well as approaches to language and power from the fields of sociology linguistics and linguistic anthropology Discourse Knowledge and Power argues that a fictional account of a man who becomes an animal has much to tell us not only about ancient Roman society and culture but also about the dynamics of human and gendered communication the anxieties of the privileged and their implications for swiftly shifting configurations of status and power whether in the second or twenty first centuries

*Radical Shelley* Michael Henry Scrivener, 2014-07-14 This study oilers a new definition of Shelley s place in English radical culture Treating the poet s literary career as an active intervention in the social world Professor Scrivener shows how Shelley designed each text to provoke different audiences in a Utopian direction despite the political repression and other cultural limitations of which he was acutely aware Originally published in 1982 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

**Moulding the Female Body in Victorian Fairy Tales and Sensation Novels** Laurence Talairach-Vielmas, 2016-04-15 Laurence Talairach Vielmas explores Victorian representations of femininity in narratives that depart from mainstream realism from fairy tales by George MacDonald Lewis Carroll Christina Rossetti Juliana Horatia Ewing and Jean Ingelow to sensation novels by Wilkie Collins Mary Elizabeth Braddon Rhoda Broughton and Charles Dickens Feminine representation Talairach Vielmas argues is actually presented in a hyper realistic way in such anti realistic genres as children s literature and sensation fiction In fact it is precisely the clash between fantasy and reality that enables the narratives to interrogate the real and re create a new type of realism that exposes the normative constraints imposed to contain the female body In her exploration of the female body and its representations Talairach Vielmas examines how Victorian fantasies and sensation novels deconstruct and reconstruct femininity she focuses in particular on the links between the female characters and consumerism and shows how these serve to illuminate the tensions underlying the representation of the Victorian ideal

**Constructing Adolescence in Fantastic Realism** Alison Waller, 2010-12-22 Constructing Adolescence in Fantastic Realism examines those fundamental themes which inform our understanding of the teenager themes that emerge in both literary and cultural contexts Models of adolescence do not arise solely from discourses of psychology sociology and education Rather these models frameworks including developmentalism identity formation social agency and subjectivity in

cultural space can also be found represented symbolically in fantastic tropes such as metamorphosis time slip hauntings doppelgangers invisibility magic gifts and witchcraft These are the incredible supernatural and magical elements that invade the everyday and diurnal world of fantastic realism In this original study Alison Waller proposes a new critical term to categorize a popular and established genre in literature for teenagers young adult fantastic realism Though fantastic realism plays a crucial part in the short history of young adult literature up until now this genre has typically been overlooked or subsumed into the wider class of fantasy Touching on well known authors including Robert Cormier Melvin Burgess Gillian Cross Margaret Mahy K M Peyton and Robert Westall as well as previously unexamined writers Waller explores the themes and ideological perspectives embedded in fantastic realist novels in order to ask whether parallel realities and fantastic identities produce forms of adolescence that are dynamic and subversive One of the first studies to deal with late twentieth century fantastic literature for young adults this book makes a valuable contribution to our understanding of adult attitudes toward adolescent identity

**The Neural Imagination** Irving Massey, 2012-11-29 Art and technology have been converging rapidly in the past few years an important example of this convergence is the alliance of neuroscience with aesthetics which has produced the new field of neuroaesthetics Irving Massey examines this alliance in large part to allay the fears of artists and audiences alike that brain science may explain away the arts The first part of the book shows how neuroscience can enhance our understanding of certain features of art The second part of the book illustrates a humanistic approach to the arts it is written entirely without recourse to neuroscience in order to show the differences in methodology between the two approaches The humanistic style is marked particularly by immersion in the individual work and by evaluation rather than by detachment in the search for generalizations In the final section Massey argues that despite these differences once the reality of imagination is accepted neuroscience can be seen as the collaborator not the inquisitor of the arts
