circumstances in relation to adoption fostering residential care neglect and ill treatment and considers the position of the handicapped immigrant or delinquent child In a final chapter she discusses methods of social work other than casework including group work community work and social action Juliet Berry makes frequent use of case illustrations and throughout the book she provides an extensive guide to further reading **Resources in Education** ,1991 Studies Indiana University,1919 **Indiana University Studies** Indiana University,1919 **Children's Chances** Jody Heymann,2013-02-13 Children s Chances urges a shift from focusing on survival to targeting children s full and healthy development Drawing on comparative data on policies in 190 countries designed to combat poverty discrimination child labor illiteracy and child marriage Heymann and McNeill tell what works to ensure equal opportunities for all children
