The Heart Of History Individuality In Evolution:

The Heart of History John Weir Perry, 1987-07-01 In a broad perspective of psychological historical and evolutionary considerations Perry investigates factors that enable cultures in crisis to reorganize He pursues historical antecedents of cataclysmic times focusing on man's relation to his spiritual center and his societal setting He shows clearly the parallelism of processes of transformation in psyche and society citing historical examples in which the unbalanced assertion of individuality and dominance has been countered through the emergence of compassionate social concern

The Evolution of Individuality Leo W. Buss, 2014-07-14 Leo Buss expounds a general theory of development through a simple hierarchical extension of the synthetic theory of evolution He perceives innovations in development to have evolved in ancestral organisms where the germ line was not closed to genetic variation arising during the course of ontogeny Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Universitas Thomas E. Boudreau, 1998-05-12 Believing that current educational policies and practices in American institutions of higher learning contribute to an incoherent disjunctive and wasteful four year experience for many undergraduates the author provides a sense of new direction to aid in the restructuring and reform of undergraduate education in America The primary question of the work is How can the years of undergraduate education empower the student with the knowledge and integrated set of skills needed for a lifetime of learning and productive work Boudreau focuses on the primary responsibility of all institutions of higher learning to provide a superior undergraduate education All other functions of a university should be secondary to this commitment Unfortunately this basic premise seems lost today This work argues that universities must undergo significant reform and renewal especially at the undergraduate level if they are to prepare students successfully for the future

Choices of Love Dorothy Maclean, 1998-12 Based on a talk at the New York Open Center in 1999 this book on the identity of John speaks of Christian initiation in a new way one whose time has come What Smith has to say is both extraordinarily suggestive and remarkably conclusive Covering a lot of ground in a way that is accessible the author masterfully supplies us with a range of collateral materials that is always interesting and illuminates the larger

picture Because this small book began its life as a talk to a general audience it is blessedly jargon free and reader friendly It contains both sophistication or bite while working a quiet but profound revolution in the field of study that it addresses New Testament scholars as well as those concerned in any way with the future of Christianity ought to sit up and take note Anyone seeking to understand the mystery of Jesus Christ and his beloved disciple will find true food for the mind and heart

The War Hotel Arlene Audergon,2004-12-10 Human Nature is the fuel of violent conflict The War Hotel looks at how we get aroused and how we get silenced into violent conflict We are pulled apart in the name of justice and loyalty Past trauma is triggered into a replay Out of love and longing to step beyond the ordinary world we sacrifice ourselves and others Dehumanizing the enemy disinformation torture stirring fear in order to crack down these terror tactics too are based in psychology The manipulation of psychological dynamics to create violent conflict is distressing But if our emotions and behaviour are the fuel then our awareness can impact world events There is something truly hopeful here Awareness makes a difference Examples draw particularly from the author s work in the Balkans Other examples include Nazi Germany Rwanda the Israeli Palestinian conflict Communism and its fall in Europe South Africa the treatment of Native Americans and African Americans in the USA Vietnam and the war on terror
