organisms and therefore is in Chapter 2 Trees treelines are most associated with mountains so their description is in Chapter 8 Mountains fall colors apply more broadly to forests than to individual trees and they are discussed in Chapter 9 Forests Approximately 500 color photographs help make the more than 200 patterns apparent and recognizable for readers and each pattern is accompanied by a detailed description and a brief list of sources The book is designed to invite browsing and readers will gain a rich ecological perspective and insight Curiosity about the world around us is a basis for human learning The Nature Handbook serves to aid all nature lovers in their quest for understanding the many stories that our living world provides **The Nature Handbook** Ernest Herbert Williams, 2005 The Nature Handbook does what no other field guide does explores and explains nature through connecting patterns revealing them to the many different types of nature lovers 500 color photos
