Encyclopedia of American Short Films, 1926-1959 Graham Webb, 2020-07-27 Short subject films have a long history in American cinemas. These could be anywhere from 2 to 40 minutes long and were used as a filler in a picture show that would include a cartoon a newsreel possibly a serial and a short before launching into the feature film. Shorts could tackle any topic of interest an unusual travelogue a comedy musical revues sports nature or popular vaudeville acts. With the advent of sound on film in the mid to late 1920s makers of earlier silent short subjects began experimenting with the short films using them as a testing ground for the use of sound in feature movies. After the Second World War and the rising popularity of television short subject films became far too expensive to produce and they had mostly disappeared from the screens by the late 1950s. This encyclopedia offers comprehensive listings of American short subject films from the 1920s through the 1950s. What is required along with innate talent and general musicality is the practical know how. This is hard to achieve without actual professional experience and contact with live orchestras. To this end John Cacavas contributes his extensive experience and ability with a practical approach to the practical problems of orchestrating. It is in this context most orchestrators must function and to whom this book should be of benefit. The author has been a musical activist in all the varied aspects of instrumental combination from the classical to the contemporary and in the diverse application of his skills in all the media that utilize music and orchestrations. **The**
