The Brutal Truth About Asian Branding Joseph

Baladi, 2011-02-16 This is one of the most thoughtful books on branding I've come across. Most such books are either quickly crafted how-to books or academic tomes overburdened with references. This book is thoughtful because it raises questions which deal with the why rather than just how of branding. The reference to brutal truth as the truth which will set us free to examine ourselves without self-illusions is liberating. The notion that Asia has many good but no great brands is also not a put-down but a clarion call for Asian CEOs to rise to the challenge and create lasting meaningful committed brands. Ho Kwon Ping, Chairman, CEO, Banyan Tree and Board of Trustees, SMU 2010 recipient of the Lifetime Achievement Award by the American Creativity Association. A cold shower to wake people up. Joe Baladi's Brand Blueprint is a great tool for anyone involved in Sovereign Relationship Marketing or brand building anywhere. Timothy Love, Vice Chairman, Chief Executive Officer, Omnicom APIMA. There are many books about branding but few address Asian companies directly. Joe Baladi has been one of the loudest voices to advocate strong branding practices to Asian companies determined to outperform their competitors. The Brutal Truth About Asian Branding is a timely book that all Asian CEOs with global aspirations should read. Richard Eu, Group CEO, Eu Yan Sang International. The Brutal Truth About Asian Branding is the first book that connects branding frameworks to the realities of operating in Asia. It offers a very straightforward perspective on the challenges Asian CEOs face as they build their businesses and their brands, and perhaps the most compelling part of the book is the passionate plea for how Asian CEOs should be thinking different about branding. In true Baladi style, it is straight from the heart. Maarten Kelder, Managing Partner, Asia Monitor Group. A very interesting and valuable perspective on Asian branding, one that decision makers in the region should read and embrace. Well done, Joe. Ron Sim, Founder. It is thoughtful and thought-provoking, putting people and brands center stage with practical insights borne of his breadth of personal experience at the frontline. Chris D. Beaumont, Professor, Tokyo University Global Centre of Excellence, Director, North Asia Results International. The brutal truth is that Joe Baladi is right: Asian CEOs must learn the brand skills used so successfully in the rest of the world. It will take a big change in mentality, but the rewards will be vast. This book is a great start to that revolution. Michael

A History of Film Music Mervyn

Cooke, 2008-09-25 This book provides a comprehensive and lively introduction to the major trends in film scoring from the silent era to the present day, focussing not only on dominant Hollywood practices but also offering an international perspective by including case studies of the national cinemas of the UK, France, India, Italy, Japan and the early Soviet Union. The book balances wide-ranging overviews of film genres, modes of production and critical reception with detailed non-technical descriptions of the interaction between image, track and soundtrack in representative individual films. In addition to the central focus on narrative cinema, separate sections are also devoted to music in documentary and animated films, film musicals and the uses of popular and classical music in the cinema. Mormons, Musical Theater, and Belonging in America Jake Johnson,2019-06-30 The Church of Jesus Christ of Latter day Saints adopted the vocal and theatrical traditions of American musical theater as important theological tenets As Church membership grew leaders saw how the genre could help define the faith and wove musical theater into many aspects of Mormon life Jake Johnson merges the study of belonging in America with scholarship on voice and popular music to explore the surprising yet profound link between two quintessentially American institutions Throughout the twentieth and twenty first centuries Mormons gravitated toward musicals as a common platform for transmitting political and theological ideas Johnson sees Mormons using musical theater as a medium for theology of voice a religious practice that suggests how vicariously voicing another person can bring one closer to godliness This sounding Johnson suggests created new opportunities for living Voice and the musical theater tradition provided a site for Mormons to negotiate their way into middle class respectability At the same time musical theater became a unique expressive tool of Mormon culture
