## **Smoking Cigarettes The Unfiltered Truth:**

*Smoking Cigarettes* Janet Benner, 2003      *Golden Holocaust* Robert N. Proctor, 2012-02-28 The cigarette is the deadliest artifact in the history of human civilization It is also one of the most beguiling thanks to more than a century of manipulation at the hands of tobacco industry chemists In *Golden Holocaust* Robert N Proctor draws on reams of formerly secret industry documents to explore how the cigarette came to be the most widely used drug on the planet with six trillion sticks sold per year He paints a harrowing picture of tobacco manufacturers conspiring to block the recognition of tobacco cancer hazards even as they ensnare legions of scientists and politicians in a web of denial Proctor tells heretofore untold stories of fraud and subterfuge and he makes the strongest case to date for a simple yet ambitious remedy a ban on the manufacture and sale of cigarettes

**Linguistic Meaning Meets Linguistic Form** Patrick Duffley, 2020-10-13 This book steers a middle course between two opposing conceptions that currently dominate the field of semantics the logical and cognitive approaches Patrick Duffley brings to light the inadequacies of both of these frameworks arguing that linguistic semantics must be based on the linguistic sign itself and on the meaning that it conveys across the full range of its uses The book offers 12 case studies that demonstrate the explanatory power of a sign based semantics dealing with topics such as complementation with aspectual and causative verbs control and raising wh words full verb inversion and existential there constructions It calls for a radical revision of the semantics pragmatics interface proposing that the dividing line be drawn between content that is linguistically encoded and content that is not encoded but still communicated While traditional linguistic analysis often places meaning at the level of the sentence or construction this volume argues that meaning belongs at the lower level of linguistic items where the linguistic sign is stored in a stable permanent and direct relation with its meaning outside of any particular context Building linguistic analysis from the ground up in this way provides it with a more solid foundation and increases its explanatory power
