So Far Disordered In Mind Insanity In Ca:

So Far Disordered in Mind Richard Wightman Fox, 1978-01-01 **California and the Politics of Disability, 1850-1970** Eileen V. Wallis, 2023-03-31 This book explores the political legal medical and social battles that led to the widespread institutionalization of Californians with disabilities from the gold rush to the 1970s By the early twentieth century most American states had specialized facilities dedicated to both the care and the control of individuals with disabilities Institutions reflect the lived historical experience of many Americans with disabilities in this era Yet we know relatively little about how such state institutions fit into specific regional state or local contexts west of the Mississippi River how those contexts shaped how institutions evolved over time or how regional institutions fit into the USA s contentious history of care and control of Americans with mental and developmental disabilities This book examines how medical social and political arguments that individuals with disabilities needed to be institutionalized became enshrined in state law in California through the creation of a bureaucracy of disability Using Los Angeles County as a case study the book also considers how the friction between state and county policy in turn influenced the treatment of individuals within such facilities Furthermore the book tracks how the mission and methods of such institutions evolved over time culminating in the 1960s with the birth of the disability rights movement and the complete rewriting of California s laws on the treatment and rights of Californians with disabilities This book is a must read for those interested in the history of California and the American West and for anyone interested in how the intersections of disability politics and activism shaped our historical understanding of life for Americans with disabilities **Money, Marriage, and Madness** Kim E. Nielsen, 2020-06-22 Anna Ott died in the Wisconsin State Hospital for the Insane in 1893 She had enjoyed status and financial success first as a physician s wife and then as the only female doctor in Madison Throughout her first marriage attempts to divorce her abusive second husband and twenty years of institutionalization Ott determinedly shaped her own life Kim E Nielsen explores a life at once irregular and unexceptional Historical and institutional structures like her whiteness and laws that liberalized divorce and women s ability to control their property opened up uncommon possibilities for Ott Other structures from domestic violence in the home to rampant sexism and ableism outside of it remained a part of even affluent women s lives Money Marriage and Madness tells a forgotten story of how the legal and medical cultures of the time shaped one woman and what her life tells us about power and society in nineteenth century America The Invisible Plague Edwin Fuller Torrey, Judy Miller, 2001 Examines the records on insanity in England Ireland Canada and the United States over a 250 year period concluding through quantitative and qualitative evidence that insanity is an unrecognized modern day plague Castles of our Conscience William G. Staples, 2018-03-08 Castles of our Conscience presents a new and distinctive analysis of the role of the modern state in the shaping of policies of social control Staples provides a theoretical framework for understanding the mechanisms of state policy making and capacity This framework supports an interpretation of the changing nature of institutions of social control

in the United States from the beginning in the nineteenth century to the present day A distinctive feature of the author s approach is his critique of existing theories of the state as well as recent revisionist writing in social control Both he argues have tended to either reduce the state to an instrument of class power or treat it in too structuralist a fashion Developing a sophisticated account of the relationship between the state and civil society he provides a history of social control policies in the United States that balances analytical concerns with historical narrative This book will be of interest to students and professionals in sociology politics and criminology

Gold Seeking David Goodman, 1994 The brave independence of the roaring days the camaraderie of the gold fields jolly diggers on a spree these are the images that have come down to us of the gold era of the 1850s in Australia and California But these images were largely shaped decades later by writers such as Henry Lawson and Bret Harte they speak of later nostalgia rather than the experience of the time In this study of the contemporary response to the discoveries of gold in Victoria and California David Goodman argues that people at the time were apprehensive about gold rushing and the kind of society it seemed to prefigure In the chaos of the gold rushes individual self interest seemed to be all that could motivate people to any exertion And it was only the economic rationalists of the day those who believed in political economy and its promise that out of the confusion of individual self interest would come some sort of social order who could wholeheartedly endorse the gold rushes as events This is a history of the ways people talked about gold As the first full length cultural history of the gold rushes on two continents it examines the meanings of gold at the time and the narratives which were told about social disruption It locates the deeper underlying themes in the response to gold It also looks at the ways in which the dominant later memories of gold were shaped And it is about national differences about the construction of distinctive national cultures out of materials common to the British world This book should be read not only by Australian and American historians but by anyone with an interest in the cultural history of modernity

Remembrance of Patients Past Geoffrey

Reaume, 2000-12-15 In Remembrance of Patients Past historian Geoffrey Reaume remembers previously forgotten psychiatric patients by examining in rich detail their daily life at the Toronto Hospital for the Insane now called the Centre for Addiction and Mental Health CAMH from 1870 1940 Psychiatric patients endured abuse and could lead monotonous lives inside the asylum's walls yet these same women and men worked hard at unpaid institutional jobs for years and decades on end created their own entertainment even in some cases made their own clothes while forming meaningful relationships with other patients and some staff Using first person accounts by and about patients including letters written by inmates which were confiscated by hospital staff Reaume weaves together a tapestry of stories about the daily lives of people confined behind brick walls that patients themselves built *Evolution of a Missouri Asylum* Richard L. Lael, Barbara Brazos, Margot Ford McMillen, 2007 Traces the history of Missouri's first state mental institution the Fulton State Hospital founded in 1851 This institutional history examines a century and a half of changing attitudes toward mental illness evolving treatments as medical and psychiatric science sought cures and the continuing administrative challenges of overcrowding and chronic underfunding Provided by publisher
